Lincoln Has a Series of Holdups and Burglaries-Bail for C. E. Haywood is Refused-Buckner Gets One Year.

(From a Staff Correspondent.) LINCOLN, March 26 .- (Special.) - State Superintendent Fowler is advocating the We should give careful attention to the organization of high school districts and the consolidation of rural schools. He says there are twenty counties in Nebraska

"These schools may be continued as are the ward schools in city districts," continued Mr. Fowler, "but all high school work should be done in the central school in the village. This would insure free high school privileges to all pupils in the consolidated district and, upon the establishment of the adjunct district, to all pupils in the county. Consolidation is not the organization of a new district and may be

effected at any time during the year." The adjunct district would be organized solely that a tax of not to exceed 2 mills on the dollar of assessed valuation might be legally levied and collected for the purpose of paying the tuition of the graduates of the rural or common schools in a high school district. The adjunct district has no officers; it builds no schoolhouses; it votes no bonds. It simply takes advantage of whatever opportunities are provided in more highly highly favored districts in the county.

Judge Cornish in the district court this afternoon refused to admit C. E. Haywood to bail pending trial on the charge of killing John J. Gillilan. The application was made by A. E. Digests what you Dyspepsia Cure

Some people wonder why pepsin preparations don't help their dyspepsia. They probably suffer because they can't digest foods that pepsin does not affect. The reason is, pepsin digests only nitrogenous foods. while different substances are required to digest the variety of other foods necessary for proper nourishment.

Kodol Dyspepsia Cure contains all the digestants, and is capable of completely digesting every kind of food. That is why it digests what you eat and allows you to eat all the variety you want; and that is why it cures indigestion, even after everything else has failed. As it is the only preparation of the kind known, the demand for it has become enormous. Its use affords instant relief from all forms of stomach trouble.

She said in a signed interview with a reporter of the St. Louis Star:

"Although a woman in my position can receive plenty of prescriptions from physicians without cost, it was upon the advice of a well known West End Doctor that I began to take Swamp-Root. No, I will not tell you his name, for he might not like it. But all the same, I took it when I was run down from night work in the sick room. I was thin and yellow and tired even when I rose from my sleep. Swamp-Root gave me a relish for my food and cleared my blood from its stagnant impurities, Of countse I do not praise Swamp-Root as a cure for all troubles, but it is splendid for the kidneys, stomach and bowels and relieves female disorders when all other remedies have failed to give relief. I know of many cases in the hospital cured by this wonderful remedy.

Weak and unhealthy kidneys are responsible for more sickness and suffering than any other disease, therefore, when through neglect or other causes, kidney trouble is permitted to continue, fatal results are sure to follow.
