old Catherine Driscoll claim, the city cfficials propose to hold the matter off until the annual levy is made in July. By doing

this the city will be saved the expens: of a special levy, which has been ordered

REPORT BY WERTEYBAKER | come a menace to the public health for the want of its adoption. The question of compulsory vaccination is one that must be decided by your city authorities, but I will say that if every person in Omaha was made immune to smallpox by vaccination you could eradicate the disease from the city in an incredibly short time. I am glad to learn that vaccination has been made a prerequisite for children attending the public schools. This is a step in the right direction.

Mayor Moores Will Act Upon All Suggestions of Expert from the United States Marine Hospital Service.

The report of the smallpox situation in Omaha as made by Dr. C. P. Wertenbaker of New Orleans, who is officially inspecting conditions all over the state, was received by Mayor Moores yesterday morning and is most gratifying to him. He said:

"The doctor's report is of such a nature as to be both encouraging and helpful to us in handling this problem of public health. His compliments are appreciated and most assuredly his advice will be followed as nearly to the letter as possible. The inspectors will at once take up the house-tohouse examination in infected blocks, as he recommends, and I shall prepare a circular letter embodying his vaccination argument, which letter will be sent not to a few, but to every business house, factory or other place in which five or more persons are working together. In this circular I will add to his remarks my own strongest solicitation that they all be vaccinated. This new glycerine lymph does away with extremely gore arms and there is really no excuse why practically all Omahans should not take this precautionary measure." Dr. Wertenbaker left Omaha to go to

South Omaha early yesterday morning and will go from there direct to Lincoln. Dr. Wertenbaker's Report.

The report of Omaha conditions, one copy of which he sent to the State Board of Health and another to Washington, is given

Delow in full:

OMAHA, March 24.—To his Honor, Frank E. Moores; in accordance with the instructions of his excellency, Governor Savage, and with your consent, I have this day investigated the smallpox situation in Omaha. I have the honor to submit the following report, with such suggestions as seem advisable to improve existing methods.

Dr. J. B. Ralph, your commissioner of health, has kindly given me a statement of the methods followed by this city for the suppression of smallpox, as well as the conditions as they exist at present. In company with Dr. Ralph, I visited the emergency hospital this afternoon and made an inspection of the building and patients. There were fifty-one patients in various stages of smallpox at the time of my visit. Several were about recovered and will be ready for discharge in a few days.

emergency hospital is decidedly the average of such hospitals. The The emergency hospital is decidedly above the average of such hospitals. The buildings, while rough, are warm and comfortable and sufficiently equipped for the purpose. The dining room and cooking arrangements are excellent; the food was bountiful and much better than is usually furnished; it was well prepared and well served. The patients seemed satisfied and as contented as possible under the circumstances. The hospital seems to be efficiently managed. All the patients were doing well.

In regard to existing conditions and

doing weil.

In regard to existing conditions and methods, it is evident from the continued presence of smallpox in the city, that there must be some weakness in the present methods. It appears that there is no systematic house to house inspection to ascertain the existence of hidden cases of smallpox, the health department relying on the reports of physicians and others for information. There are doubtless some cases that are not seen by a physician, or otherwise escape being reported. Each of these cases becomes a center of infection from which spring up a new crop of cases, and the chain becomes interminable.

Locating New Cases.

order to check this process it is necesary to locate as soon as possible each new case and safeguard it from infecting new material. This is best done by a house-to-house inspection, which should be repeated at short intervals until all danger

Is past.

Next to locating and isolating existing cases, it is most important to render all persons liable to infection immune to the disease by vaccination. The use of a pure glycernized lymph will obviate all trouble from the excessively sore arms that have raised a prejudice sgainst vaccination, and with such a simple preventive at hand it seems criminal to permit persons to be-

Surprising Results.

A Simple Internal Remedy Makes Remarkable Cures of Catarrh.

People who have used sprays, inhalers, salves and washes for catairh and have found how useless and inconvenient they are, will be agreeably surprised at results following the use of a pleasant internal remedy in tablet form; druggists everywhere admit that Stuart's Catarrh Tablets,

which they sell at 50 cents for full sixed treatment, is the safest, most effective and popular of all catarrh remedies.

Nearly all cheap cough mixtures and throat lozenges contain opiates; these cheap medicines give a temporary relief, ospecially with little children, by destroying nerve sensation; the irritation in threat, which causes coughing, is temporarily removed, not by removing the cause, but by deadening the nerves of feeling, the irritation is not felt, although it is still there

and will promptly return. Stuart's Catarrh Tablets is the best remedy to remove catarrhal secretion, whether in the nose, throat or stomach. because they are composed of wholesome antiseptics, Blood root, Red gum from Eucalyptus tree, etc; when you use these tablets you know what you are putting into your system and not taking chances with cocaine, opiates or similar poisons found in so many catarrh cures and cough

Dr. Ramadell, in commenting on catarrh cures, says: "I can heartily recommend Stuart's Catarrh Tablets, because they contain no cocaine nor other dangerous drugs found in so many advertised catarrh cures. I have known of many cases of long standicg catarrh of the head and throat completely cured by the daily use of these tablets for several weeks. One case in particular, which I could not reach with an inhaler or spray and where the catatrb caused dally headaches and a noticeable loss of hearing, was entirely cured by this harmless but effective remedy."

Dr. Wainwright says: "I never hesitate to prescribe Stuart's Catarrh Tablets for catarrhal headaches and catarrhal deafness, because I know them to be perfectly safe for child or adult and have seen many remarkable cures resulting from their regular daily use; because they are advertised and sold in drug stores is no reason why any good physician should not use them, because we should seize upon the means of

cure wherever found." Stuart's Catarrh Tablets are especially valuable for catarrhal colds in children. because they are pleasant to the taste and may be used freely to break up severe solds and croup at the very beginning.

AFFAIRS AT SOUTH OMAHA issued for the immediate settlement of the

Koutsky Relates History of W. G. Sloane's Tax Negotiations.

SAYS HE DECLINED TO PAY AMOUNT DUE

A nave onered several suggestions to Dr.
Raiph for improvement in some of the details of disinfection and he has accepted
them. I inclose herewith a copy of a publication issued by the United States Marine
Hospital service on the suppression of
smallpox. If the recommendations contained
therein are carefully followed smallpox will
rapidly disappear from your city. To sum
up. I recommend: Brings Up the Circumstance Now in Answer to Sloane's Allegations-Republicans Pleased with Rally Results.

p. I recommend: First-A house-to-house inspection, with At a well attended meeting of repub-First—A house-to-house inspection, with the prompt isolation of patients. Becond—The isolation and vaccination of il persons exposed to smallpox and the isinfection of their clothing. Third—Vaccination with pure glycernized ymph of all persons in the city that have of been successfully vaccinated within a llcans at Twenty-seventh and Y streets last night nearly all of the candidates were present and spoke. A great deal of enthusiasm was shown and those who attended the meeting left with the impression that the next mayor of South Omaha ear.
Fourth—The prompt and thorough disin-ection of all infected houses and articles. Fifth—That the assistance of all corpora-ons, business firms and individuals be would be a republican. Most of the interest in the campaign seems to center in the head of the ticket and it was openly asserted at this rally that Loechner was rapidly losing ground, while Sloane and Carley were not considered in the fight at all. In conclusion, I beg to state that I do not consider the conditions in Omaha at all alarming. There are more cases of small-pox in the city than is desirable, even though most of them are isolated in the hospital. I am informed that there has been a tender decrease in the number of the conditions. Since Mr. Sloane has seen fit, through his personal organ, to print a card in relation to his taxes due the city, City Treasurer Koutsky deems it advisable to make a statement in regard to the matter and this statement follows:

though most of them are isolated in the hospital. I am informed that there has been a steady decrease in the number of cases for the past month, and this will doubtless continue as the weather grows warmer and the people live more out of doors, until it disappears.

The danger of the situation lies in the fact that unless the existing cases are found and isolated and infected houses and materials disinfected, the disease will reappear again next winter and the troubles of previous years will be repeated.

In this connection it is suggested that all winter clothing, etc., be thoroughly aired and sunned for several days before being packed for the summer, and that on bright, sunny days houses where sickness has occurred during the winter should be thrown open as much as possible to admit the air and sun. Respectfully.

Passed Assistant Surgeon, United States Marine Hospital Service, Special Aide to the Governor. Koutsky deems it advisable to make a statement in regard to the matter and this statement follows:

A card appears in the World-Herald under date of March 26, signed by Mr. W. G. Sloane, that Frank Koutsky, republican candidate for mayor, has been endeavoring to mislead the public with respect to certain taxes which Mr. Sloane owes to the city of South Omaha and are, as he concedes, still unpaid.

I wish to say in reply thereto, that at no time during the campaign have I mentioned Mr. Sloane or his shortcomings to the public and that I am perfectly satisfied to leave the merits of the respective candidates to the people and to abide by the result of their decision on April I. In order, however, that the public may fully understand this controversy, I desire to say that the books of the city treasurer show that Mr. Sloane is indebted to the city of South Omaha for taxes to the amount of \$233.0. It is also true that Mr. Sloane holds certain warrants issued by the city of South Omaha in his favor. Whatever book accounts he may have or claim to have is unknown. If, however, he has any such account, it should have been presented to the city before this and some disposition made of it. About February 6, 1801, Mr. Sloane came into the office of the city treasurer and presented certain warrants which he desired to have cashed. I called his attention to the fact that these taxes remained unpaid and suggested that he turn the warrants over to apply on his account for taxes, when he replied that he would not pay the taxes, and again asked me to cash the warrants, which I refused to do, but agreed to take them and apply them on the taxes as far as they would go, which offer Mr. Sloane refused.

At no time have I made the statement that Mr. Sloane owed any specific amount of taxes. The statements which I have given herewith are as shown on the books of my office and can be verified by anyone interested. I desire further to state that Mr. Sloane and all other persons, that Mr. Rosewarer is not my manager and is in no way con stituted. Many people throughout the country are also discarding old methods of using Hostetter's Stomach Bitters, the old reliable remedy for these allments. It is recommended by physicians, and a trial

physicians of Omaha took the first steps pital in this city. Articles of incorporation were adopted and will be filed soon. No decision as to site or cost has yet been made. Next Friday night the medical men will meet again and at that time the board of directors for the concern will be chosen. They said that homeopaths have tention of those interested by adopting the

Confers with Physicians.

Whereas, We have a city of 120,000 and a state of over 2,000,000 people, and have tributary to this city western Iowa, South Dakota, Wyoming and northern Kansas, including a population of some 6,000,000 inhabitants; and whereas among all these people there is not a single place where a poor person without means can go or be taken when sick and be treated homeopathically; and, whereas, there is hardly a day when some needy and worthy sick Dr. C. P. Wertenbaker, who is in charge of the government marine hospital at New Orleans, was a visitor in the city yester-Health and quite a number of the local physicians at the council chamber at noon.

Dr. Wertenbaker addressed those present on health matters and paid particular attention to smallpex and other contagious diseases. The doctor made a number of suggestions which will doubtless be taken up by the Board of Health at once.

Complaint About Emergency Hospital

J. D. Homan, nurse at the emergency pathically; and, whereas, there is hardly a day when some needy and worthy sick who desire to be treated by the school of medicine of their choice are not denied this privilege on account of there being no place to which to take them unless they are able to pay their hospital expenses; realizing and knowing these facts as we do, be it.

Resolved, That we homeopathic physicians of Omaha here assembled do pledge ourselves to do everything in our power to establish and equip a homeopathic hospital in this city, and be it further.

Resolved, That we as physicians will contribute financially all that our means will justify to start such an institution in Omaha, and will give free of charge our time and skill to any needy poor who become inmates of said hospital, and be it further. He met members of the Board of

J. D. Homan, nurse at the emergency hospital, was at the city hall yesterday complaining about the condition of the become inmates of said hospital, and be it further

Resolved. That reputable physicians of all recognized schools of medicine be allowed to bring their patients to this hospital with full assurance that they will receive the same courteous and careful attention accorded the regular staff of physicians, and be it further

Resolved, That we make an appeal to allour friends and to the charitably inclined people of Omaha and vicinity to contribute toward the establishment of a homeopathic hospital in the city of Omaha. walls. He asserted that the plastering was imperfect and that the walls were so rough that it would, under the circumstances, be impossible to keep the place in a sanitary condition. The plan was to avoid a white finish on the walls so that whitewash could be laid on every week or two. Mr. Homan says that the condition of the walls will harbor all of the smallpox germs in Nebraska. City Engineer Beal admits that the plastering is not up to standard and he will not approve the work if he is called upon to decide the question of the completion of the hospital. don champagne shows far in the lead Mr. Homan is moving his household goods into the living rooms of the hospital, but he insists that the plastering in the ward per cent of the combined increase of all rooms be changed so as to conform to the the other champagne houses. Moet & specifications.

Sample Ballots Issued.

The new sample ballots, prepared in accordance with the orders given by Judge Baxter Tuesday, were issued yesterday. The republican ticket is placed first on the ballot and it is understood that the various candidates are now satisfied with the makeup of the ballot. Today several thousand ballots will be issued and by the end of the week official ballots will be turned over to the city clerk.

That Bond Deal.

It seems that the people are still talking of the recent bond deal put through by the Johnston-Kelly-Miller combination. papers have reported the fact that one of the local banks was interested. This is a mistake. Mr. Oldfield, who is supposed to have purchased the bonds, has had no deal 300 ings with banks here. He is working with Johnston and the other members of the 400 combination and is independent of any of

the banks in South Omaha. Paving Missouri Avenue. A petition is being circulated for the pay ing of Missouri avenue from Thirteenth street to Twentieth street. IMPROVEMENT CLUB MEETS Considers Change of Grade or

Twenty-Fourth Street and

Other Matters.

At the meeting of the Southwest Improvement club last night W. H. Green presented the profile and petition for change of grade on Twenty-fourth street between Leavenworth and Pacific streets, the profile show ing a change which will make a 6 per cent grade on the part of the street to be changed. Fred W. Zotzmann was the first property owner to sign the petition, which included a waiver of damages. Few property owners affected by the change were present, but all who saw the profile were favorable to its adoption.

It was reported that the city electrician had agreed to place electric lights on Twenty-fourth street, where desired by the club, and that lamps had been placed in position, four of them going on the new viaduct. It was stated that the lights on the viaduct would be in operation immediately, but the other four would not be put in place until after the tax levy is

The club considered the matter of a side walk on the west side of Twenty-fourth street between the viaduct and Martha streets along property owned by the Union Pacific Railroad company, and a resolution will be introduced in the council for this work at the lustance of the club.

An invitation to attend a meeting of the Prospect Hill Improvement club was ac cepted. The members of the club will meet at Henry Rohlff's Tuesday evening and go to Prospect Hill in a body.

IRISH MEETING POSTPONED Gathering to Greet Redmond and Dev-

> lin Put Off Until April 9.

On account of inability to secure Boyd's theater for April 8, it has been found necessary to change the date of the Irish nationalist meeting in this city to Wednesday, April 9.

A telegram was sent to Messrs, Redmond and Devlin yesterday by T. J. Mahoney and an answer was received stating that they would be in Omaha at that time. It is the intention of the committees to arrange for a gathering to include a number of people from various parts of the state who are interested in Irish parliamentary affairs.

HEALTHAMDALLITS BLESSINGS

Health will come with all its blessings to those who know the way, and it is mainly a question of right-living, with all the term implies, but the efforts which strengthen the system, the games which refresh and the foods which nourish are important, each in a way, while it is also advantageous to have knowledge of the best methods of promoting freedom from unsanitary conditions. To assist nature, when nature needs assistance, it is all important that the medicinal agents used should be of the best quality and of known value, and the one remedy which acts most beneficially and pleasantly, as a laxative, is-Syrup of Figs-manufactured by

With a proper understanding of the fact that many physical ills are of a transient character and yield promptly to the gentle action of Syrup of Figs, gladness and comfort come to the heart, and if one would remove the torpor and strain and congestion attendant upon a constipated condition of the system, take Syrup of Figs and enjoy freedom from the aches and pains, the colds and headaches and the depression due to inactivity of the bowels. In case of any organic trouble it is well to consult a competent physician, but when a laxative is required remember that the most permanently gratifying results will follow personal cooperation with the beneficial effects of Syrup of Figs. It is for sale by all reliable druggists. Price fifty

The excellence of Syrup of Figs comes from the beneficial effects of the plants used in the combination and also from the method of manufacture which ensures that perfect purity and uniformity of product essential in a perfect family laxative. All the members of the family from the youngest to the most advanced in years may use it whenever a laxative is needed and share alike in its beneficial effects. We do not claim that Syrup of Figs is the only remedy of known value, but it possesses this great advantage over all other laxatives that it acts gently and pleasantly without disturbing natural functions, in any way, as it is free from every objectionable quality or substance. To get its beneficial effects it is always necessary to buy the genuine and the full name of the Co.-California Fig Syrup Co.-is printed on the front of every
