Mr. McIntosh Insists that Equalization hearing on the eighty-eight complaints Board Record is Bad.

REFEREE STANDS BY RECORD, HOWEVER

auch of the lawyers attending the tax mandamus hearing as are blessed with prophetic vision claim to be able to see the end of the present dreary session. Looking down the vista of time, they predict that Wednesday of next week will see its conclusion. According to this calculation two more days are allowed in which to examine witnesses, and one day in which to sum up the case. Court will adjourn Friday evening to Monday morning, and the chances are it will adjourn Monday night until Wednesday morning, as a city election will be held in Lincoln Tuesday, and Referes Ryan wants to be there to vote.

At the conclusion of Thursday afternoon's session Attorney Webster announced that, unless something unexpected came up in conference in the meantime, the respondents would rest their case early this morning. Attorney McIntosh, in turn, announced that his first witness this morning would be City Clerk Elbourn, and that the second witness would be City Councilman Zimman.

The hearing was unlivened yesterday Board of Equalization record. The question came up while he was cross-examining fourth of them were members. Witness Fred D. Wead of the Real Estate

"Did you, as chairman of the tax com mittee of the Real Estate exchange," asked Mr. McIntosh, "indicate what members of the exchange you wished to address the Board of Equalization?"

Attorney Moreman objected to this for the reason that the record of the board is the best evidence.

As matters are now I must regard the record as a verity."

'Oh, this record is not necessarily a verity, your honor," replied Mr. McIntosh. "I propose to show that a large part of it was 'made up' and that one of the exhibits they have offered here today, purporting to have been taken from the record, is an absolute

The referee smiled indulgently and said, "Let us face our troubles one at a time, Mr. McIntosh."

"And not only that," resumed Mr. McIntosh, "but I propose to show, your honor, that a majority of this city council, sitting as a board of equalization, was so zealous to serve the corporations that even when one of the corporations volunteered to permit its assessment to be raised this mafor!ty wouldn't raise it."

The corporation lawyers nudged each other and laughed heartily. "How do you propose to show that the

Connell Reads Record. Attorney Connell occupied the first hour of the hearing Thursday forenoon in reading the journal of the Board of Equalization of January 17, at which time an alleged hearing was had on the eighty-eight complaints of the Real Estate exchange. When he had finished Attorney Morsman of

the telephone company took his turn as spokesman. He called to the stand Frank D. Wead, a real estate agent and chairman of the tax committee, which drew up the eighty-eight complaints for the exchange. Asked to give the names of the other members of the committee, he answered, C. C. George, John S. Knox, A. L. Reed, F. Harrison, Charles Saunders, S. P. Bostwick and John L. McCague,

"Why did you have so many complaints?" asked Mr. Moraman. Well, we had 1,000 blanks printed, so as to give everyone a chance to complain who wanted to."

"And out of that thousand you got eightyeight of them filled out?"

"The object was to make a sort of dem constration against the corporations, wasn't

'We had some such purpose.' "When did you employ Mr. McIntosh as your attorney?" "I don't know; it was shortly after the eighty-eight complaints were turned down."

"Your committee sent for them, did it?"

"At the suggestion of Mr. McIntosh?" "Yes, sir."

At the close of the noon recess F. D. Wend resumed the stand, and Mr. McIntosh took up the cross-examination. "Now, in reference to the alleged hearing of those eighty-eight complaints," said the attorney. isn't it true that nothing occurred befors the Board of Equalization in that connection except a debate be tween several members of the Real Estate exchange, Mr. W. S. Poppleton and Mr. McIntosh on one side and several corporation officers and corporation lawyers on the other?"

Attorney Moreman objected to this as not proper cross-examination, and Mr. Mc-Intosh said:

AFFAIRS AT SOUTH OMAHA

Republicans Will Hold Rally at Armory in City Hall Tonight.

INTEREST IN SCHOOL BOARD ELECTION

Peterson Generally Regarded as Excellent men to Manage Public School Affairs.

There will be a big rally of republicans at the troop armory in the city hall building tonight. All of the candidates, it was stated yesterday, will be present and besides these a number of well known speakers have been invited. Henry C. Murphy, A. L. Sutton and possibly two or three more well known republicans will deliver brief addresses.

"The nearer election day comes," said a epublican last night, "the more it looks like the election of Koutsky and the republican ticket. Loechner is losing ground every day and so is Sloane. To my mind it is now only a question of Koutsky's plurality. He is a sure winner. Koutsky has shown by his acts as treasurer that he is a man of executive ability and he certainly will give to the city of South Omaha a good, clean administration. As for the candidates for council they are all well known republicans and really do not need any introduction to the public. As the election is at large every voter in the city will have an opportunity of expressing his choice for

Considerable interest is taken by the people in a reorganization of the Board of Education. The republican candidates are especially well thought of. The City Assessment, Tax Commissioner Fitzgerald said yesterday that he would have until April 15 to name his deputies and that work on mak ing the city levy would not commence this year until May 1. "This work," said Mr. Fitzgerald, "must be completed by June 15. As I have the records in good shape the forty-five days allowed by law will be ample time in which to make the assessment." The board of review will sit from June 15 to June 25 and receive complaints from property owners. It is hoped that the result of the work of the tax department this year will show a marked increase in the valuation of the property owned by the

corporations. Liquor License Applications.

The Omaha Evening Bee tonight will print about forty applications for liquor licenses. All licenses expire on May 1 and under the law the council must grant new licenses before this date. This year the license fee will be \$1,000. So far no effort has been made by the council to levy an occupation tax, and it is possible that nothing of the sort will be done, as the life of the present council is so short.

Heretofore the immense wheat crops of Nebraska have been sold outside the state, to be bought back as flour. With millions of sheep upon the outlying ranges, there is not a yard of woolen cloth manufactured in the state. With millions of hides and pelts annually offered for sale, there is hardly a shoe or a glove made at home. These examples are illustrations of a general condition. This lack is now being felt. Within a few years the Commercial club has been organized, and this, under able management, is doing its utmost to correct a faulty condition. The establishment of manufactories will serve a double purpose. It will give greater stability to the town's life by the employment of its citizens and it will also create home now sent far away. Notwithstanding its eltuation in the very heart of the wheat and corn lands, Omaha is not a grain market. The state's great crops of grain sift through Omaha's fingers, going to enrich other towns. Scribner's Magazine for April begins a new novel by Richard Harding Davis-an event of the first importance to all lovers of good fiction. "Captain Macklin," which begins in this number, is the longest novel written by Mr. Davis and is his first since 'Soldiers of Fortune." It is his most mature work, and narrates the adventures of a young West Pointer who was dismissed from the academy and went to Honduras to make a name for himself as a soldier with a body of revolutionists. It is romantic and adventurous in every page and the development of the hero from his "cub" stage to a self-reliant soldier is depicted with even more skill than Mr. Davie has heretofore shown-which means that it is triumph in narrative fiction.
