TO DEFEAT CUMMINS' VETO

Senate Will Try to Pass Molaberry Bill Over Governor's Head.

RAILWAY ASSESSMENT BILL IS KILLED

House Knocks Out Measure by Voting Indefinite Postponement—Old Man Who Acts Pauper Proves to Have Thousands.

(From a Staff Correspondent.)

DES MOINES, March 28.—(Special.)—The senate this afternoon came up against the veto message of Governor Cummins on the Molaberry bill to remove the limit of indebtedness of railroad corporations organized in Iowa and for doing an interstate business. Senator Trewin moved to postpone consideration of the veto until next Tuesday at 2 p. m. This was opposed by several, but Senator Molaberry said he had no objection to postponement until that time. The motion was carried and time was thus for further consideration of the question. An effort will be made to pass the bill over the veto of the governor. The position taken by the governor in his message has appealed strongly to the members, but the question raised as to the bill being unconstitutional has aroused some feeling among the senators, and they will attack that feature of the message as unjust. They believe that the bill is no more unconstitutional than many other special acts which are intended to have limited application.

SENATE DISCUSSES ADJOURNMENT.

The senate discussed the question of adjournment at some length today. A resolution was pending to fix the date for April 5, and an amendment was offered by Moffit to amend to place the date at April 5, but this was defeated. Jenkins offered fixing the earlier date and declared that thus far the legislature had not made a very enviable reputation for passing important measures and he believed they should remain until something is done. So that matter of adjournment is left open for the present. The house has considered April 5 as the date, but has not voted.

THE COMPULSORY EDUCATION BILL was taken up in the senate after discussion was passed with a slight amendment relating to the truancy schools. The vote was 34 to 10, and the house immediately concurred in the amendments.

THE PARDONS COMMITTEE reported favorably on resolutions to pardon or parole Theodore Busbeck and William Young.

THE BARBER BILL was reported favorably and will go to the calendar.

A bill was introduced by Hubbard to provide a sifting committee of seven to dispose of the business of the senate.

INTERURBAN RAILROAD QUESTION.

The bill to authorize interurban railroads was taken up on a report that the house had refused to concur in the senate amendments and Senator Courtwright opposed receding from the position already taken.

THE SENATE held a session tonight and conference was ordered on the interurban railway bill, as the senate would not recede from its amendments.

THE PARDONS COMMITTEE of the senate tonight decided favorably on pardons for Joe McCrary and George Hanley and will report without recommendation on Wesley Atkins.

RAILWAY ASSESSMENT BILL DEFEATED.

The railway assessment bill was given its quietus in the house today. The bill came up on a report from the ways and means committee recommending indefinite postponement of the measure. The committee had voted overwhelmingly for the killing of the bill, but there was a minority report. The chairman of the committee moved the adoption of the majority report. Mr. Cowles tried to have the minority report substituted, but failed. He has been persistent in making a special order to bring the bill next Tuesday, contending that the measure was of too great importance to be passed over lightly. This was defeated and the report of the majority indefinitely postponing the assessment bill. It has been suggested the last few days that the bill had been virtually deserted by its authors and those who had favored it in the beginning, as they had come to realize that it was not satisfactory to them.

FORESTRY BILL PASSED.

The Secor forestry bill was passed, providing for exemption on account of forestry and orchards.

THE HIGHWAY BILL was finally passed. An effort was made to have it referred again, but the senate amendments were concurred in and this makes it a law. The bill provides for the township system of road improvement, and against the subdistrict system, and all road taxes payable in cash.

TO INVESTIGATE SEWAGE DISPOSAL.

A resolution was passed to require the State Board of Health to make a thorough investigation of the sewage disposal problem in Iowa and report two years hence. This relates especially to the trouble at Marshalltown over a glucose factory polluting the river.

AID NORMAL HIGH SCHOOLS.

The house this afternoon passed the bill to give aid to certain high schools maintaining a normal course for the training of teachers. It gives them \$50 a year if they have an attendance of fifty taking the normal course and limits the number to fifteen. This is the Kling bill, of special interest in Harrison county.

THE HOUSE passed a bill to relieve the state treasurer of personal liability on account of taxes which may have been collected wrongfully or for suits brought to collect or recover such taxes. The bill also provides that the attorney general shall defend such suits in the name of the state. The bill affects a large number of claims of this character, especially where

Mrs. G. R. Walker of Miles Shoots J. S. Judd of Chicago in Las Vegas Hotel.

KANSAS CITY, March 28.—A special to the Journal from Las Vegas, N. M., says: Mrs. G. R. Walker this afternoon shot and killed J. S. Judd of Chicago in her rooms in this city. Judd had gone to her rooms and tried, she alleges, to assault her, she being alone at the time. The bullet entered his head just below the ear, killing him instantly. Judd was 55 years old and was reputed to be wealthy. He had three sons who are physicians. One is city physician of Topeka, Kan., another medical director of the Montezuma hotel, Las Vegas. Mrs. Walker is a health seeker. She is the wife of an Iowa farmer and came here from Miles, that state. She freely admits killing Judd, but says she was justified in doing the deed. It is expected her husband will start for this city tomorrow.

ARE YOU DEAF? ANY HEAD NOISES?

ALL CASES OF DEAFNESS OR HARD HEARING ARE NOW CURABLE

by our new invention. Only those born deaf are incurable. HEAD NOISES CEASE IMMEDIATELY.

F. A. WERMAN, OF BALTIMORE, MD.

Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.

About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in that ear entirely.

I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement accidentally in a New York paper, and read your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain

Very truly yours, F. A. WERMAN, 730 S. Broadway, Baltimore, Md.
