Good Wheat Weather Gives Bears a Chance at Prices.

MAY OPTION WEAK, CLOSING LOWER

All Advices Pavor Slump in Markets and Wenkness Affects All Lines Except September Corn, Which

CHICAGO, April 3—it was another bear day on the Board of Trade today. Wheat had plenty of good bullish news, but the sentiment prevailed that yesterday's bulge was more than conditions warranted and the late bearish crop news sent prices downward until May wheat closed 'ice lower, May corn 'MFK'c down and May oats unchanged. Provisions also had a setback and closed lice to 27½ lower.

Trade in wheat dragged much of the time and only once showed any snap. Foreign maggets were slightly up, but disappointed the bulls in their unresponsive character. Much of the early crop news was bearish and showed its effect on opening prices. Opposed to these factors were the very good cash demand by millers—something like 300,000 bushels of No. 1 qorthern being sold—and reports of probably reduced stocks at Duluth and Minneapolis. There was a semi-official report that the shortage in Oklahoma and Kansas would be 50,000 to 80,000 bushels because of the crop damage. May started \(\frac{1}{2} \) to \(\frac{1}{2} \) con the bull news, but there was no force to the market. Offerings were liberal, outside markets dragged badly and then came a report of a statistical concern that, allowing about three-quarters of last year's production for Kansas and Ohlo, the six principal wheat states would raise as much wheat at last year. In an already weak wheat market this had a slumping effect and May slid down to a weak close, \(\frac{1}{2} \) clower at 71½c. Receipting \(\frac{1}{2} \) cars, none of contract grade; Minneapolis and Duluth reported 184, a total for the three points of 224 cars, against 25 last week and 350 a year ago, Senboard clearances equaled 755,000 bushels. The seaboard reported 89 loads taken for export.

ago. Senboard clearances equaled 758,000 bushels. The seaboard reported 80 loads taken for export.

There were new tactics in the corn pit today that set the crowd guessing again. Prices started out at small declines, because of the indifference of the foreign cables. Suddenly the prominent bull crowd that has been active in July options began to sell of that delivery and bought 2,000,000 bushels of September. This pushed the late future up and the crowd began to tail in. The nearer deliveries suffered in consequence and, unlike wheat, showed no tendency to recover. When the offerings of September proved in excess of the demand that delivery eased off again and wheat exerted a weakening influence. Wheat was reported favorable for the crop. Aside from the incident in September the corn market was slack, with a tendency toward the selling side. May sold between 60%600% and 5%c and closed weak, %6%c lower at 59%65%c. Receipts, 104 cars.

weak, %% lower at 59% 65% c. Receipts, 104 cars.

Outs showed independent strength for a time today on buying of May that led to the belief that a movement in the cash cereal was at hand. The market, however, was very dull and aside from the May strength there was no feature. May sold at 43% c and closed steady and unchanged at 42% c. Receipts, 101 cars Seeding and starting of plant growth was reported progressing well.

Provisions were weak and the decline looked very mitch like continued manipulation at the hands of the packers. The hog market was weaker and the small decrease in lard stocks induced selling of that product. Pork, however, was the bone of contention and packers and other longs took profits and threw stuff over so quickly that many shorts who had recently run to cover did not have a chance to put out again the property they had bought under pressure. May pork closed 27% lower at 116.45; May lard, 20c down at 19.60, and May ribs, 10c offs at \$8.87%.

Estimated receipts tomorrow: Wheat, 25 cars; corn, 50; oats, 75; hogs, 20.000 head. The leading futures ranged as follows:
