HIRSCHY WINS HANDICAP

His Last Competitor Goes Out on Fifty-Second Bird of Shootoff.

HEIKES MAKES SENSATIONAL KILLS

Hits a Hard One, but It Goes Over Line—Winner Has Not Missed a Bird Since the Tournament Began.

KANSAS CITY, April 5.—H. C. Hirschy, with a handicap of twenty-nine yards, today won the Great American Handicap and thus became the champion wing shot of America. The last man to stand up with him in the shootoff of the tournament was C. G. Spencer, a twenty-nine-year-old man, who finally failed to kill his fifty-third bird, a towering osprey. Spencer will receive second money, R. O. Heikes of Dayton, O., third, J. D. Pollard of Chicago, fourth, and J. L. Owen of Cushing, Okla., fifth.

The race, which was for twenty-five birds, proved to be one of the most sensational in the annals of shooting tournaments. The shootoff today began with bright and clear weather, but with a hard wind blowing in the second round two men dropped, a third missed out in the third, three lost in the fourth, two more in the seventh, one in the eleventh and another in the fourteenth. Fred Gilbert of Springfield, Mo., was one of the men to quit at the eleventh, and making many sensational shots lost his thirty-first. This left Spencer and Hirschy alone in the race.

They killed their birds with ease and regularity and soon passed the record mark for straight kills of 34, set by Bates in 1900. Hirschy's record for the entire tournament, Spencer's on the last rounds and many picked him for the winner after the fortieth bird had been killed. Both men were straight up to the fifty-second bird. The fifty-third was a towering osprey. Spencer shot first and although he hit it the bird fell dead out of bounds. Hirschy's fifty-third was an ordinary ring quail. He killed it with his first barrel, but used the second to make sure. Hirschy had not only won the Great American Handicap, but he had placed in the tournament, a record of twenty-eight birds for his event and a grand total of 102 for the shoot, having graced every one since the tournament began on Monday morning.

Admirers Carry Him Away.

When Hirschy killed his last bird his admirers swarmed around him and bore him from the field on their shoulders.

Today fourteen men competed in the last of the four days' races for the wing shot championship. The winner will not only become champion shot of the United States, but will receive the handsome trophy captured last year by E. C. Griffith of Pasco, R. I., and \$688 as the portion of the prize money. The balance of the \$11,401 prize money will be divided among the remaining sixty-two high guns.

The shoot has proved the greatest ever held by the association and perhaps brought together the most imposing array of crackerjacks. At the close of the first round shooting, Hirschy, with 148 men, had straight scores of eight birds. Most of the weak ones and many of those with national reputations missed their birds. The latter included T. W. Morrey of Queens, L. I., the winner of the 1894 shoot; O. R. Dickey of Boston, who captured the trophy in 1896, and Thomas A. Marshall of Kelburg, Mo., who became the American champion in 1898 and again in 1899. On the third day E. G. Griffith, the present holder of the trophy, also failed to make his bird score and B. D. Fulford of Utica, N. Y., the 1898 winner, and John B. Ford of Kansas City, Mo., lost a bird or two. At the close of the second day only forty-four men came out with straight scores of sixteen birds to their record.

When the full twenty-five rounds had been shot yesterday there remained but thirty-three with clean scores. These came the shootoff. When darkness prevented further work last evening nineteen men had missed out on a chance for the first money, leaving fourteen with perfect scores. These fourteen, who began the final race this morning, follow:

W. Cool, Toledo, Ill.; Guy V. Dering, Columbus, Wis.; C. E. Spencer, St. Louis, Mo.; G. B. Darby, Philadelphia; R. O. Heikes, Dayton, O.; George A. Roll, Blue Island, Ill.; L. J. Squier, Cincinnati; H. C. Hirschy, Minneapolis; J. L. D. Morrison, St. Paul; Fred Gilbert, Springfield, Mo.; J. D. Pollard, Chicago; F. Snyder, Crawfordville, Ind.; J. L. Owen, Cushing, Okla.; G. W. Clay, Austin, Ky.

When the eleventh round in the shootoff was begun this morning a hard south wind was blowing, but the weather was bright and clear.

Details of the Shoot-Off.

In the shoot-off today for the Grand American handicap, all fourteen men made clean scores in the eleventh round.

In the twelfth round R. W. Cool of Toledo, Ill., and G. B. Darby of Philadelphia lost out.

In the thirteenth Fred Gilbert of Springfield, Mo., missed a hard left-quartering driver. The bird was hit, but was able to fly away.

In the fourteenth L. J. Squier of Cincinnati, J. L. D. Morrison of St. Paul and G. W. Clay of Austin, Ky., missed. This left but eight men in the race, all of whom shot clean in the fifteenth and sixteenth rounds.

In the seventeenth Guy V. Dering, Columbus, Wis., and F. Snyder, Crawfordville, Ind., lost out.

Heikes Makes Good Shot.

The six remaining men shot straight in the eighteenth, nineteenth and twentieth rounds. Heikes killing his eighteenth with the second barrel, when the bird was fifty yards straight down the field.

George J. Roll lost his twenty-first.

There were no misses in the twenty-second and twenty-third rounds. L. H. Owen of Cushing, Okla., missed a bird, but did not drop out of bounds. Spencer, Heikes, Hirschy and Pollard were straight at the end of the twenty-fifth. There were no misses in the twenty-sixth and twenty-seventh, but Pollard lost his twenty-eighth, Heikes making many long sensational shots. This left Spencer, Heikes and Hirschy alone in the race. All three killed their twenty-ninth and thirtieth. Heikes finally lost out on his thirty-first, a hard outgoing driver.

This left but two men in the race, C. G. Spencer of St. Louis and H. C. Hirschy of Minneapolis, each with a handicap of twenty-nine yards. Hirschy had not missed a bird since the tournament began on Monday morning.

SHORT AND POINTED.

The Food Was Grape-Nuts.

It helps one to know the kind of food to select if they can learn the experiences others have had.

"I consider it my duty to let you know that Grape-Nuts Food has done for me. I was suffering from dyspepsia and daily stomach trouble. After taking many kinds of medicines without finding relief I saw a description of Grape-Nuts Breakfast Food and began using it regularly, and in less than two weeks my indigestion was entirely gone."

When I began using the food I weighed 135 pounds. I now weigh 160 pounds and feel stronger than I have ever felt before. Thanks and praise to the makers of Grape-Nuts. Name and address given by Postum Co., Battle Creek, Mich.

ROURKE'S MEN ALL RIGHT

Verdict of the Crowd at First Exhibition Game of the Season.

PLAYERS SHOW SPEED AND GOOD FORM

Shortstop Joe Dolan and Little Peter Burg at Third Make Good with the Fans at the Beginning.

An exhibition of slow, awkward, stiff-jointed base ball playing, to be expected after a winter's fattening case, was not what confronted the fans who went out to Vinton street park yesterday afternoon to greet the new Rourke family at its first home warming. Instead there was a good, clean game of ball, with only two errors, and after nine innings of play the Omaha leaguers had defeated the Originals by a score of 2 to 1.

How these players, some of whom had actually been in the suit before since last September, managed to get out and show the game they did it still a puzzle to the spectators, but they did it, and everyone was satisfied. The Originals played bouncing good ball, as the tally indicates, and the event was altogether a satisfying one. This afternoon the same teams will play again, and the game will be called at 3 o'clock sharp.

Aside from its features as a contest, the game yesterday was intended especially as a vehicle for the opening exhibition of "Pa" Rourke's men, and in this it was very successful. Twelve men altogether were watched through their paces before an admiring congress, and the general opinion formulated on this one workout seemed to be flattering to Rourke.

Dolan and Burg in It.

Only half a dozen of the members of the last year's team are back, and special interest was felt in the new players. Two of these made an especial hit. They were Shortstop Joe Dolan and Little Peter Burg, who played third base, because Hickey did not arrive in town till too late to mix in the game.

Dolan only had two chances at ground work during the game, but his speed on the bases was so fast that the Omaha fans were spellbound. Joe has an arm motion in his throw to first base that simply cannot be followed with the eye and you never really know where the ball is until it smacks into Cal's glove. On the bag and fly work, too, Joe proved eminently satisfactory, but he failed to make one hit.

Burg caught the crowd before the game had started by his size and his shape. Pete is just a pocket edition of Phil King, the famous Princeton football player and later coach. He carries around with him as neat and well-muscled a little body as was ever seen, but he is about five feet high and broad, though anything but fat, for his legs are big knots, not bags of flesh. That shape fixed Burg, his activity on third helped it along and his three-bagger in the fourth clinched it. It was the only real exciting bit of the day, and the way Pete hit it was good for the Omaha fans' enthusiasm. Cheers were his lot every time he came to bat.

Pitchers Closely Watched.

The pitchers were closely watched. Owens threw for five innings. Raley for two and Graham for the rest. None of them put on much steam, but Raley has some fun with his peculiar style of delivery that made him popular. Raley caught seven innings, when he gave way to Reed, a new one, who looked a good actor. As for the game itself, the main trouble was that the Omaha leaguers did not hit all that was expected, but, of course, none of them has his stick eyes yet. Pitcher Scully threw a good game for the Originals and his support was very good also. Stone, one of the league team men, was loaned to the Originals and made a hit and their only run.

Hickey will be in the game today at third. Several pitchers will be tried out and two or three of the best catchers. The players are all highly pleased with the grounds, which look vastly different from their appearance at the close of last season.

RESTORES PNEUMATIC TUBES

Senate Committee on Postoffice and Appropriations.

WASHINGTON, April 5.—The senate committee on postoffice and appropriations today agreed to recommend that the postoffice appropriation bill should be amended by the addition of a provision for pneumatic tubes and to that effect accepted the bill, which has been reported in the house, which will be incorporated in the appropriation bill when the latter is reported to the senate. This bill makes an appropriation for the fiscal year of \$600,000 and limits the expenditure after that time to \$800,000 per annum. By this the provision is made to cover four years and it provides that in no case shall the expenditure for any city be more in one year than 4 per cent of the gross postal revenues of the city. The limit of cost for tubes is fixed at \$17,000 per mile annually.

FIRE RECORD.

Storage Barn at Lincoln.

LINCOLN, April 5.—(Special Telegram.)—A storage barn and its contents, consisting of 300 tons of hay, at Tenth and W streets were destroyed by fire tonight. The barn belonged to E. E. Brown and the hay to T. F. A. Williams. The loss, amounting to about \$5,000, is partially covered by insurance.

HYMENEAL.

Shadmann-Blanknagel.

WEST POINT, Neb., April 5.—(Special.)—The wedding of Charles Shadmann and Miss Louisa Blanknagel was celebrated by Rev. A. R. E. Oelschlaeger, pastor at St. Paul's German Lutheran church, Thursday. Both are children of well-known pioneer settlers and will live on their farm north of the city.

Men of High Standing Involved.

"The evidence shows us that there are in this city men of seeming great respectability, directors in large corporations and prominent business and social circles, who have not hesitated to put up money for the purpose of bribing through the assembly measures in which they were interested. When called before our body some have added to the offense of bribery the crime of perjury and only escaped the penalty of imprisonment by their conduct by reason of the fact that the evidence, though satisfying our minds, would not be admissible in the trial courts. While legal evidence may be lacking to bring upon them the penalty of their acts, yet they are morally convicted and damned by their conduct with such debauchery. Some of these are as guilty as those against whom indictments have been returned, the only difference being that they have been more successful in covering their tracks."

No names are mentioned in connection with these charges of fraud. As a remedy for the present conditions of the municipal assembly, the grand jury suggests that the method of selecting members of the house of delegates should be changed so that they may be chosen by the city at large. The payment of liberal salaries to these officials is advocated in order that honest men can afford to serve the city in the capacity of legislators.

Menelik Heads General to Coronation.

ADEN, Arabia, April 5.—King Menelik of Abyssinia has appointed Ras Makonnen, the famous Abyssinian, to attend King Edward's coronation.

Ras Makonnen, who defeated the troops under General Barotse in March, 1896, at the battle of Adowa, Abyssinia, when some 5,000 to 10,000 of Barotse's soldiers and camp followers were reported to have been killed, is a cousin of King Menelik and is the principal general and confidential representative of his majesty. He is remarkable in character, in physique and in the possession of a quality of courtesy which justifies his rank.

BLIND WOMAN SEES AGAIN

Mrs. D. C. Stevens, Crown Point, Ind., Restored to Sight After Years of Blindness.

BY THE ONEAL DISSOLVENT METHOD.

Mrs. D. C. Stevens of Crown Point, Ind., can now see, after many years of blindness and she is indebted to Dr. Oreal, Chicago's noted oculist, that she is again blessed with perfect sight. She had been blind for over 8 years; so bad was her condition that she had to be led. For over 6 years her eyes had been in terrible condition, beginning with granulated lids, resulting in lris, complicated with ulcers and paralysis of the optic nerves and eyelids. She had been treated by many doctors and was on her way to a hospital, where she intended to submit to a knife operation, when a friend advised her to call and see Dr. Oreal. This resulted in her getting the efficacy of

THE ONEAL DISSOLVENT METHOD

to the test, in consequence of which she now sees after only three months' treatment. She says Dr. Oreal's high tribute in telling how he cured her: "I cannot say enough," she said. "No words are strong enough to express my feelings. Dr. Oreal rescued me from blindness and a life of misery, and may God bless and prosper him in his career."

Why do you hesitate after such evidence? Dr. Oreal has restored sight to thousands with The Oneal Dissolvent Method. He has cured Cataracts, Stenosis, Granulated Lids, etc. CAUSES OF BLINDNESS—absolutely without using the knife, and in all his experience he has never failed the eye of a patient. Oreal's Eye-Sight Restorer, without the knife—a new method, successful in over 8,000 cases. Samuel F. Plummer, Marietta, O., was cured. Write him.

INDIAN-BILL PASSES SENATE

Measure Appropriating Funds for Benefit of Red Men Disposed of.

CHINESE EXCLUSION TAKES THE FLOOR

Senator Fairbanks Supports Bill on Grounds that Government Must Protect Its Labor Against Cheap Competition.

WASHINGTON, April 5.—After passing the Indian appropriation bill today the senate considered the Chinese exclusion measure for nearly three hours. The principal speech of the session was made by Senator Fairbanks of Indiana in support of the bill. He analyzed its provisions to demonstrate that they were not in contravention of our treaty with China and discussed at length the right of congress to enact exclusion legislation. He maintained that it was a cardinal principle of this government to protect its labor against such low-priced labor as would come to the United States from China.

An extended debate upon some of the provisions of the pending bill followed Mr. Fairbanks' speech. Mr. Gallinger of New Hampshire and Mr. Platt of Connecticut indicated their belief that the provisions of the measure relating to the exempted classes were in contravention of our treaty obligations to China. Mr. Lodge, Mr. Penrose and Mr. Fairbanks combated this view, the supporters of the measure maintaining that its provisions were drawn clearly within the treaty obligations of this country.

Mr. Fairbanks offered two amendments to the Indian appropriation bill, both of which were adopted, providing for a heating system and an electric light plant in the Indian school at Fort Totten, N. D., and authorizing the secretary of the interior to permit the construction of a bridge across Devil's lake in North Dakota.

Mr. Quarles of Wisconsin offered an amendment providing that the secretary of the interior might use \$5,000 of the appropriation for contingencies of the Indian service for the purpose of introducing the willow industry among the Indians. It was adopted.

Mr. Fairbanks, in support of the Chinese exclusion bill, read from the testimony given by Mr. Dunn before the immigration

NEBRASKA GETS LAND TITLES

State's Claims to Over Two Thousand Acres of Indemnity School Tract Confirmed.

WASHINGTON, April 5.—The Chinese exclusion bill was under consideration in the house throughout the day, general debate being closed. Without exception the speeches were favorable to rigid exclusion and expressed a feeling of repugnance to the Chinese. Mr. Kahn of California, the author of the bill, was gratified during the day at reaching an understanding by which most of the amendments proposed by the Interior department will be accepted by the committee. This probably will lead to the withdrawal of the minority bill, and the passage of the majority measure. The only amendment at issue is on the indemnity clause and this by agreement is to be submitted to a vote.

Some minor routine business was transacted at the opening of the session of the house today, including the passage of a number of bills.

Bills were passed to authorize the Kan-

RESTORES RANK TO COGHLAN

President Signs Pardon of One of Captains in Manila Bay Fight.

WASHINGTON, April 5.—The president today signed a pardon in the case of Captain Joseph D. Coghlan, who lost eleven numbers in his grade some years ago as the result of an unusually sharp letter written by him to the detail officer of the navy department.

As one of the captains in the battle of Manila bay, Captain Coghlan was advanced so as to make up a good part of the ground he had lost. The president's action today makes up the rest of the ground and places him at the head of the list of captains, along with Captain Sands. Upon the retirement of Admiral Farquhar, both will become rear admirals. Captain Coghlan is carried as an additional number in grade and thus his advancement will not interfere with the advancement of officers below him.

President Roosevelt's action was incited strongly by a letter from Rear Admiral Henry C. Taylor, the new chief of the bureau of navigation, who among others, urged the restoration to Captain Coghlan of the lost numbers.

Charge Being Reconsidered.

WASHINGTON, April 5.—Judge John L. McAttee, assistant judge of the Eighth circuit court in Oklahoma, has tendered his resignation to the president, and it has been accepted. Charges had been preferred against Judge McAttee.
