attention owing to the threatened shortase. It is stated that the bulk of the Japan crop goes to the Philippine islands and to South Africa, which cuts off the supply to this country. Stocks in the south are become only the larger mills have much stock on hand at the present time, and they are taking advantage of the opportunity to to advance prices \( \frac{1}{3}\) to \( \frac{1}{2}\) to \( \frac{1}{2} however, is as well supplied as any in the country, so that wholesalers in all cities are experiencing the same trouble.

The talked of advance in wire and nails to take effect April 1, failed to develop, and no immediate change in the market is looked for.

FLOUR—Quiet and unchanged; red winter patents, \$3.50g3.80; extra fancy and straight, \$3.30g3.40; clear, \$3.00g3.15.

FLOUR—Quiet and unchanged; red winter patents, \$3.50g3.80; extra fancy and straight, \$3.50g3.80; extra fancy and

There was a fairly good demand last week for fruits and vegetables, though there was not as much call for the high-priced lines as there was just before Easter. Buch vegetables as radishes, lettuce, green onions and spinach are coming on the market a little more freely, but the demand is fully equal to the supply, and prices have not changed materially, though the tendency is downward. Strawberries are also coming in, and by the middle of the month it is thought the stock will be in shipping condition. As yet practically nothing has been sent to the country trade. In another column the prices at which the staple lines of both fruits and vegetables are selling will be found.

Receipts of eggs were quite liberal last week, but the demand was about equal to the occasion, and although prices fluctuated back and forth there was not much change as compared with a week ago. Poultry has been scarce all the week and the demand active, so that prices are sood and frum. Butter has also been in light supply, and the market strong, and it is thought that receipts will continue light for two or three weeks more.

Green fish is expected on the market some time this week.

Dry Goods Market.

NEW YORK, April 5.—DRY GOODS.
The market for the present week closed quiet and unchanged. Prices are very firm and sellers are predicting an advance in prices on staple lines. An increase in the demand only will bring this and the majority are at present awaiting developments of this order.

Cotton Market.

NEW YORK, April 5.—COTTON—Opened steady, with prices steady, lgd points higher, a response to bullish Liverpool news. After the call the list sank back to 8,32c for July, under heavy profit-taking by the commission house contingent and large house. Room traders later came of the support of the market, which, however, worked higher in a manner so sluggish as to make the more timid holders uneasy. Port receipts for the day were estimated at 9,000 bales, against 15,625 the same day last year. Private advices from the south again described firm spot markets. As the self-ing July in a quiet way. All the foremonth the market was hesitant. The market was hesitant. The market was the standy: April 5.—COTTON—Firm, Sac.
