Strong and Vigorous.

It is a most regrettable fact, and a alamity, too, that our women, young and old, are numbered amongst the most unhealthy of females in the civilized world. For delicacy of beauty, intellectual capacity and for all graces that adorn the sex, they stand peerless; but it is doubtful if one in ten can be found who is functionally and organically well.

This absence of feminine health and vigorous vitality is due to a neglect of nature's unerring laws. Immediate reformation is necessary if our nation would have women who will become true wives and mothers with an offspring that will prove a strength to the country.

For the special weaknesses to which women are now victims, Palne's Celery tional executive board of the United Mine Compound is the surest and safest remedy Workers of America began a meeting in The wonderful strengthening and building this city today that promises to develop up properties of this marvelous prescription the policy to be pursued in the event of a devised by that eminent medical expert. 64 general strike in the great anthracite coal Prof. Edward E.
