Wheat and Corn Quit Higher, but Oats End Unchanged - Provisions Have Strong Day Generally and Close with Gain.

CHICAGO. April II.—Conflicting interpretations put on the government crop report of the condition of winter wheat on April 1 set grain speculators to guessing today and resulted in active and irregular markets. In the end the buils easily prevailed and aided by a rapidly developing situation for corn in the southwest everthing ruled firm. May wheat closed 8 winds to 5c higher.

Prices in wheat had a good upturn early, as a result of the crop report and strong cables—the latter probably reflecting foreign interpretation on the crop report. Traders had expected a bearish report yesterday, but the curb action had prepared them for an early buige. May started 3c to 3c higher at 75%724c, but as is customary on report days, the crowd sold and May dipped to 11%c. Speculation was rife as to just what was a price on the trade of the condition at 75.7, as compared to 11.7 a year ago. This condition, with three exceptions in fifteen years, is the lowest. The yield suggested by the report was 415,000.00 bushels. The department set for a provisional estimate in December of 32,000 acres. The department that not revise the acreage from the eyes to revise the acreage May 1, and with the knowledge that Kansas has plowed up 1. 60,000 acres and the probability of at least half as much more in Texas and Oklahoma, traders figured that probably the acreage harvested this year would exceed by only a small margin that of a year ago. This condition put on the report by the country. After the early selling by the report will be only about 355,00,000 bushels. This evidently was something of the interpretation put on the report by the country. After the early selling by the report will be only about 355,00,000 bushels. This evidently was something of the interpretation put on the report by the country. After the early selling by the report will be only about 355,00,00 bushels. This evidently was something of the interpretation put on the report by the country. After the early selling by the report was a spuried to the built hand helped in

year ago.

Early trade in corn was much the same character as that in wheat. Prices were higher on cables and the wheat strength but there was an easing off as wheat reacted. About the time wheat began to adacted. About the time wheat began to advance energetically, however, corn developed a lot of bullish news of its own. St. Louis and Kansas City were bullish and were very strong. The latter point was predicting a big bull movement on the cash situation. Stocks everywhere seemed to be rapidly vanishing. In the west they are almost nil and receipts do not supply the demand. There was a good cash demand today, the outside set to buying and at no time were offerings liberal. The large interests that were in the market recently began buying September freely, shorts covering and prices turned up again to 60c. May jumped from low mark at 58%c and touched 60c. Late profittaking depressed prices and May closed %c higher at 58%c. Receipts were only 40 cars.

taking depressed prices and May closed \$60 higher at \$50%c. Receipts were only \$10 cars. Oats differed from the other pits and was rather a surprise to traders. May was offered in liberal quantities which lent an air of mystery to the trading. Some speculators thought the big holders was selling out; others it was merely "tailers." On the lower prices receiving and commission houses bought in and the market assumed a better tone than for some time. The strength in corn and wheat aided. There was excellent buying in September, which sent prices up well. There was a little reaction before the close and May after having advanced from 41%c. to 42%c. closed unchanged and steady at 41%c. Receipts, 78 cars.

Provisions were strong all day until just before the close, when profit-taking took off some of the gain. Grain strength, the highest prices of the year for hogs and commission house buying for the outside account were the factors in the early upturn. Scalpers sold; shorts covered. The pit was not particularly active, but showed a fair amount of energy. May pork closed to this or a shade higher at \$2.67%. and May ribe a shade up at \$5.57%.

Estimated receipts for tomorrow: Wheat, 10 cars; corn, 65 cars; oats, 160 cars; hogs, 14.000 head.

NEW YORK STOCKS AND BONDS.

Sec-Saw Movement Apparent with Activity of Louisville & Nashville.

NEW YORK, April II.—The fears of a corner in Louisville & Nashville were somewhat abated today, which seemed to be the principal factor in the tendency toward recovery in the market. Speculative sentiment showed itself sensitive, however, to the movements in Louisville & Nashville. Thus when very large buying appeared in other parts of the market and when Louisville & Nashville ran off 1/4 last night, there was a raily elsewhere in the market. The see-saw process was more or less conspicuous all day, especially at periods when Louisville & Nashville was particularly active. The market for that stock continued very bearish on an enormous volume of deadings, but the fluctuations were by no means so wild as yesterday. There were indications that the money powers back of the movement were disposed to handle it more tenderly out of consideration of the effect upon the rest of the market.

The stock touched 122½ at the top and closed with a net gain of 1½. As for Southern Railway, it fell back to a position uniform with a number of other active stocks in the market and moved narrowly. The strength which the market showed as a whole was by no means universal or evenly distributed. The government crop report caused some depression here and there among the grangers, which was overcome.

Amalgamated Copper was consistently strong and rose nearly 3 points at the last. The return to the city of one of the principal stockholders and directors was imputed as the cause of the movement. Monon ran off sharply 5 points on the declaration of only a 1 per cent dividend, as there had been hopes of a most liberal distribution. The stock made a feverish recovery of part of its decline.

United States Steel stocks were heavy on rather free selling, attributed to dissatisfaction with the bond issue and the large proportion of cash to be realized which will go to the bankers as commission.

The generally credited report that the purchase of the Choctaw, Oklahoma &

LONDON, April 11.—Money was in increased demand today for settlement requirements; discounts were maintained. On the Stock exchange little business was transacted, but the feeling was more cheerful owing to the conference between the Boer leaders. Consols were strong; Grand Trunks were steady; Americans were lower on realizations, but closed firm; Kaffirs generally advanced. Gold premiums are quoted as follows: Buenos Ayres, 147.40; Madrid, 35.2; Lisbon, 27. The amount of buillon taken into the Bank of England on balance today was £150,000. The sum of £30,000 gold was withdrawn for shipment to South Africa.

PARIS. April 11.—Three per cent rentes, 100f 36c for the account; exchange on London, 25f 16c for checks; Spanish 4s, 78.90. Prices opened firm on the bourse today, South African peace rumors having a favorable influence. Kaffirs were the subject of inquiry. Later a few realizations were effected. Brazillans and Argentines were in good demand. The close was calm. The private rate of discount was 25-16 per cent.

The trivate rate of discount was 2-12 per cent.

BERLIN, April 11.—Prices were firm on the bourse today. Home funds and internationals were in good demand. Coal and from shares were favorably influenced by satisfactory reports from the manufacturing districts. Canadian Pacifics hardened on the traffic return. Exchange on London, 20m 4/pfg for checks; discount rates for short bills, 2 per cent; for three months bills, 1% per cent.

HOGS—Receipts of hogs were not heavy this morning, and under the influence of a good local demand and favorable reports from other points, trade ruled active and 5gilloc higher than yesterday. The advance, however, was confined almost entirely to the better grades, while the common and light weight stuff was neglected and harder to sell than usual. Packers were out early and bid freely on the good weight stuff. Heavy hogs sold largely from \$6.50 to \$7.06. The top today was 5c higher than the high point reached last Soptember, The bulk of the medium weights went from \$6.50 to \$6.50, and the lighter loads sold from \$6.50 to \$6.50, and the lighter loads sold from \$6.50 down. All the good weight stuff was disposed of in good season, but as packers did not care whether they got the light hogs or not, the close of the market was slow and weak, and it was rather late before anything like a clearance was made. Representative sales:

SMEEP—There was a very light run of sheep and lambs this morning and in fact only three cars were offered, so there was hardly enough to make a fair test of the market. Buyers took hold freely and paid

hardly enough to make a fair test of the market. Buyers took hold freely and paid good, strong prices for what was offered and in some cases sales were made 50 higher than the same stuff sold for yesterday. In view of the light receipts everything was out of first hands at an early hour.

Feeders have been very scarce all the week and commission men have been unable to fill the orders they have on hand. It is safe to say that anything at all desirable, cither in sheep or lambs, would command good, strong prices.

Room shorts and Europe bought here in the first few minutes, but commission houses took advantage of the higher prices to secure profits. Soon after the call the whole market made a down turn under prospects of very large port receipts and increased estimates for this week's insight. Rear pressure still agitated the unleading movement. For the balance of the forenoon the market was weak and irregular, with May off to \$\frac{1}{2}\text{Re}\$; July to \$\frac{1}{2}\text{Re}\$; and claims that spot cotton was easily maintaining its position at top figures of the season were supporting influences in the southern market, but made little impression on local sentiment. The afternoon market was quiet and narrow after a light rally occurred in small estimates for tomorrow's receipts. The close was barely steady, with prices net 1 \$\frac{1}{2}\text{S}\$; Oolins lower.
