

TO ADVERTISE THE STATE

Railroad Passenger Agents at Work on Bill for Legislative Action. REAL ESTATE ASSOCIATION BEHIND IT. Object is to Provide State Machinery for Collection and Publication of Statistics Designed to Induce Immigration.

From the functions of a railroad passenger office to those of legislative halls may be rather a long and unusual stride, but such a move in the state of Nebraska is now on foot by which three prominent railroad officials of Omaha will shortly figure as lawmakers. This is because the Nebraska Real Estate association has asked the general passenger agents of the big Nebraska railroads to frame for passage such a bill as they think will best lead to the widespread advertisement of this state not only in this country, but throughout the world.

General Passenger Agents Lomax of the Union Pacific railway, Francis of the Burlington road and Buchanan of the Fremont, Elkhorn & Missouri Valley railroad, have met the proposition with great enthusiasm and have plunged into it with zeal. They held their first conference on this subject yesterday morning in the office of Mr. Buchanan and will continue to meet frequently until their plans are fully developed, planned and ready for submission.

Real Estate Men Pleased. The Nebraska Real Estate association thinks it has exhibited exceeding craft in getting the general passenger agents of these three railroads into this matter for the proposition means as much to the trio in a selfish way as it does in connection with their interest in the welfare of the commonwealth; so they will have two incentives for wishing it. Meanwhile the three railroads think they are playing a fancy game in taking up the business because they can, while subserving all the time the very best interests of the state, yet be accomplishing simultaneously more real extensive results for the benefit of their own passenger departments than they could possibly obtain in so short a time by any other method. Every big scheme they unselfishly promulgate for advertising Nebraska means more business at the ticket window.

So it is a standoff. Each party to the agreement is glad it has secured the services of the other and the passenger men intend to let no grass grow under their feet before they have mapped out a scheme for heralding abroad the glories of Nebraska that will bring a string of settlers, immigrants and newcomers generally into the state by the railroad.

Object of the Legislation. The idea of the legislation, meanwhile, is to secure the passage of a law which will stimulate the gathering of statistics concerning Nebraska for a definite period which will at the same time detail definite method for such procedure. The railroad men are asked to turn the light of their vast advertising experience upon the problem and suggest the most feasible scheme for its solution.

If the Real Estate association has its way vast sums of money will be spent on this one scheme. A bill embodying the results of the railroaders' deliberations will be introduced at the next session of the state legislature. Mr. Buchanan said: "Nebraska is not well known in a business way. Politically much has been heard of it, but we want the world to know what we can do here with stock and agricultural products. I want to see the time when there will be a family of five souls on every quarter section in the state as far west as Long Pine, and one head of stock to every ten acres from there on to the border. A system of advertising will accomplish this as no other method can."

Our great business grows daily by pushing it with mighty bargains. Read about them on page 7. Hayden Bros.
