PAINT FOR SHERIFF'S OFFICE

Commissioners ringte and O'Keeffe Consider it Unnecessary, but Connelly Differs.

"The sheriff's office is positively filthy. It's an outrage to ask the public to transact business there. Pig pens may be all right for pigs, but not for people." This was the declaration of Commissioner Connolly in the course of the debate by the

county board yesterday on his resolution calling for bids for painting and oiling the offices of the sheriff and the register of

Harte had opposed it as unnecessary, but O'Keeffe, as usual, was the one who touched off the Connolly pyrotechnics. The entire matter was finally passed to a later time. County Surveyor Edquist's request for authority to employ two chalumen at \$2 per day whenever he shall need them for the spring work was granted. County Treasurer Elsasser's request for a counter clerk to handle the rush from April 16 to July 1 was referred to committee of the whole, as was also the proposition of Thomas S Crocker to sell to the county and install at the hospital for \$750 an acetylene gas lighting plant, which, he claimed, will light the place for one-third the \$1,416.91 that was paid for lights in

The board unanimously adopted the resolution introduced by Ostrom instructing the county clerk to dispense with the ordering of duplicate tax books and the writing of the same for the year 1902, or in any future year, until otherwise ordered by some board. It was this set of books that served the member from South Omaha as a red flag does a buil, and which has, it is admitted, consumed much time in posting, with no better recompense than proving something of a convenience to these who nationally and the study of vocal music, and expects to leave on Monday next with Dr. Levers for their home in Wyoming. Southwestern trade reports continue of a cheerful rature. At industrial centers in the south iron, coal and coke production is active, and while the backward weather conditions are credited with limiting demand in agricultural sections the strength of cetton prices leads to a more hopeful feeling there.

Despite the lowering in the general average of wheat as a result of the dry weather of last fall and the early winter, indicated by the government report, white weather of last fall and the early winter, indicated by the government report, white weather or prospects are still for a crop in excess of 400,000 basels, and about equal in fact to the indicated final out-turn last year. A large acreage is indicated in oats and that crop seems to be progressing well. As to the corn crop, little doubt exists that a large area will be planted.

Cotton has continued to lead the staples in the matter of builtsh feeling. Cotton for the realization of the fact that increased wages for 75,000 employees involve higher prices for the finished product.

Wool has tended to weaken, owing to the spread of the strike of weavers to other mills of the leading literest. Outside manufacturers are said to be profiting by the world's stocks being nearly 4,000,000 bags, or 50 per cent larger than a year ago.

again. The same is also true of allver prices.

Among the industries, iron and steel are still exemplars of activity. Prices of Bessemer pig iron have moved up on the announcement that very large sales for delivery between October, 1902, and April 1903, aggregating 103,000 tons, have been closed. Foundry and forge iron are also firmer. Finished products note few changes in price, but no diminution of activity of demands. Rails, no orders will be accepted for delivery during the balance of the year. Large orders for spikes have been refused. The building trades, and therefore lumber, hardware and the multitude of other lines dependent thereon, report undiminished activity is noted in boots and those. The general appearance of the leather trade is one of quiet.

Cereal prices moved within narrow limits early, pending the publication of the government report, some strength being imparted by reports of better export demand and cold weather interfering with the growing crop, but this strength disappeared later, and the report itself, though taken of the control of the contro

The first of this morning's fires consume a barn containing several horses. St Patrick's church came next and was destroyed before the firemen could reach it. Scarcely had they reached the church when they were called to fight a dangerous looking fire at Willard Sons & Bell Forge works. After a hard fight here the flames were checked. Meanwhile the warehouse of the Washington Ice company had caught fire and before the flames were subdue \$5,000 damage had been done. The Calumet theater came next, sustaining \$10,000 damage before the fire was extinguished. A four-story structure having a feed store on the ground floor and dwelling above was discovered to be burning before the theater fire was put out. Two families escaped in their night clothes. The building was de-stroyed. Meanwhile Nicholas Schroeder's

The total loss of this morning's fire is put at \$50,000. As the buildings were not near each other the firemen declare that the fires were the work of an incendiary The people of South Chicago were greatly alarmed by the rapid work of the firebug and a careful watch is being kept today. The financial loss in the fires of yester-day aggregated \$20,000. Evidence of incendiarism was so convincing, however, that citizens joined the police in patrolling the streets in an effort to guard property and capture the incendiary or incendiaries. In spite of the extra precautions, however, today's fires were started. Citizens were bewildered at the attack and daylight was

KANSAS CITY, April 12.—(Special Telegram.)—The Western league magnates did not hold a meeting here today to elect a president as was expected, but it is practically certain that the question will be decided either by a mail vote or at a meeting of the executive committee here some time next week. It was thought that Charles D. White, former president of the Western association, had been practically decided upon for the position and that the vote would be taken by mail, but it now seems that M. H. Sexton, president of the "Three-I" league, is still in the race. W. T. VanBrunt of St. Joseph and W. L. To Prove What the Great Kidney Remedy, Swamp-Root, Will Do For YOU, Every Reader of The Bee May Have a Sample Bottle Sent Free By Mail.

T F. McHUGH, ESQ Tacoma, Wash., Nov. 29th, 1901.

DE. XILMER & CO., Binghamton, N. Y. GENTLEMEN:-It gives me great pleasure to add my twilmonial to that of hundreds of others regarding the wonderful curative properties of Swamp-Roct. I had a lame back three years ago before leaving North Dakota for the ceast. Soon after my arrival in the Puget Sound country it became very much worse. I felt certain that the coast climate had given me acute rheumatism and came to the conclusion that I could not live in this climate. Later I became convinced that what I really had was kidney trouble, and that the rheumatism was due to my kidney trouble. The lameness in my back increased rapidly and I had other symptoms which indicated that I would soon be prostrated unless I obtained relief quickly. Noticing your offer of sample bottle of Swamp-Reot, free, I had a friend write for one and began taking it immediately. Within three weeks the lameness in my back began to disappear. During that fall and winter I took three one-dollar bottles of Swamp-Root with the result that I became completely cured. I no longer have pains in my back and can excercise violently without feeling any bad effects. I have recommended Swamp-Root to several of my acquaintances who were similarly affected and without exception they have been greatly benefitted by its use.

Lame back to only one symptom of kidney trouble-one of many and Nature's timely warning to show you that the track of health is not clear. If these danger signals are unheeded, more serious results are Bright's Disease, which is the worst form of kidney trouble, may steal upon you.

The great kidney remedy, Dr. Kilmer's Swamp-Root, is used in the leading hospitals, recommended by physicians in their private practice, and is taken by doctors themselves who have kidney allments, because they recognize in it the greatest and meet successful remedy for kidney, liver and bladder troubles.

EDITORIAL NOTE Gwamp-Reet has been tested in so many ways, and has proven so successful in every case, that a special arrangement has been made by which all readers of The Bee who have not already tried it may have a sample bottle sent absolutely free by mail. Also a book telling all about Swamp-Root and containing many of the thousands upon thousands of testimonial latters received from men and wemen who owe their good health, in fact their very lives, to the wonderful curative properties of Swamp-Root. In writing, be sure and mention reading this generous offer in The Omaha Sunday Bee when sending your address to Dr.

Kilmer & Co., Binghamton, N. Y. If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar size bottles at the drug stores everywhere Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Bighamton, N.
