Feverish Performance on Grain Stage, with Corn Leading Actor.

MUCH GUESSWORK BY SPECULATORS

Prices Take Sport in Early Market, but Ease Off Later, Corn and Oats Closing with Gain, but

CHICAGO. April 14.—Speculators in grains had a teverish time of it today, corn shorts were badly scared over the continued bulges in the southwest markets and fearing possible manipulation of the market by bulls in its present peculiar condition, bid prices up zc. Wheat had an early bearish tendency, but had to follow the corn lead and jumped ic. All pits experienced marked activity and prices fluctured erratically. After the early excite ment conditions became somewhat normal and say wheat closed a grains. At the start there was an inclination to sell stuff because of the easy feeling in wheat. It took only a few spurts of the St. Louis market, however, to create a strong demand by the unfortunate early sellers. The naturally bullish situation in the corn trade with continued reports or create a strong day of all prominents the shorts badly, as or a shade of the shorts badly, as ye created were the description of the shorts badly as an advance of about 6c over the low price on the decline of a week or ten days ago and of almost 4c Saturday morning. St. Louis was buying here, supposedly to finish the covering the big short line began Saturday. Offerings were not enough to supply the demand. Trade was guesswork as a started was a good demand for cash articles, which, together with strong cables, helped in putting a buillish interpretation on every bit, of news. Trader in all pits were talking of the remarkable outlook for speculation and manipulation in corn. News continues to arrive of farmers recording the with seeding. The violet of trade was continues to arrive of farmers in all pits were talking of the remarkable outlook for speculation and manipulation in corn. News continues to arrive of farmers proceeding with seeding. The violet of the continued reports of the substance of the particles, which, together with strong cables, helped in putting a buillish interpretation on every bit, of news. Trader was guesswork and the covering the big short line began St.

pretation on every bit, of news. Traders in all pits were talking of the remarkable outlook for speculation and manipulation in corn. News continues to arrive of farmers proceeding with seeding. The visible supply decreased 1,900,000 bu.—now 7,500,000 bu., against 22,000,000 bu., a year ago. The country traders Saturday must have corn, and there is little of that. After the advance May corn sold off to 61%c, but ralled again and closed strong, %c up. at 62%c. Receipts were only 55 cars.

Wheat started out steady on unresponsive cables and rains in the southwestern wheat country May opened %c to %c lower at 72%p73c, but at once felt the influence of the soaring corn market. In a very short time covering and an investment demand sent May to 73%c. As corn began its decline after the opening buige wheat cased off. Then a big line was sold for a leading buil professional and as the "tailers" filed in to sell, the market slumped off below Saturday's close. The southwest sold here and those markets were lower. Commission houses were on both sides of the market but principally slumped off below Saturday's close. The southwest sold here and those markets were lower. Commission houses were on both sides of the market, but principally sold. Liquidation for profits was very popular. The visible decrease of 1,80,000 bu. was a little more than expected, but had no effect. Trade was active. May closed weak at its lowest point, %c off, at 72%c. Local receipts were 25 cars, 2 of contract grade. Minneapolis and Duluth reported 183 cars, making a total for the three points of 298 cars, against 287 last week and 400 a year ago. Primary receipts were 308,000 bu., against 503,000 last year. Seaboard elearances in wheat and flour equaled 271,000 bu. The British budget today imposing an import duty equal to about %c a bushel on wheat and an equivalent duty on flour was a weakening influence. World's shipments were 8,062,000 bu., compared to 10,186,000 bu. last year. On passage, breadstuffs decreased 507,000 bu.

Trade in oats was fair and on the corn influence prices advanced. May and July were bought liberally by receivers. Offerings were small. The crowd usually in oats devoted much of its time to corn. The prospect of more liberal receipts caused some selling. May started unchanged to %c up at 42%2%c. Sold to 43c and closed %c up at 42%2%c. Receipts were 151 cars.

Provisions had a fair general trade. Hogs were steady, but the demand for products was good and packers supported. Commission houses were good buyers. The tone was stronger all day, but realizing on the advance produced in some of the grains. May pork closed 6c up at \$16,82%. May lard a shade lower at \$2.7% and May ribs 5c higher at \$1.2%.

Estimated receipts for tomorrow: Wheat, 50 cars; hogs, 1,000 head.

NEW YORK STOCKS AND BONDS. Day of Varying Sentiment, with Fe-

verish and Excited Close, NEW TORK, April 14.—There was a feverish and excited close in today's stock market, after a day of varying sentiment. The early strength was not maintained in spite of wide advances in a few stocks and the course was gradually downward until the late dealings, when there was a general break all around. Prices had arisen again after the sagging tendency under the stimulus of the extraordinary advances in some of the grangers and northwesterns. But the perception of realising under cover of this strength, and the sensational advance to 133 in Louisville & Nashville unsettled sentiment again and led to the general unloading in the final dealings. There were some feverish and spasmodic railies, but the market closed feverish and irregular with a weak undertone.

closed feverish and irregular with a control with the Louisville & Nashville situation, and the disposition to be made of its control, which is now without dissent understood to have escaped its long-time holders. Some hope is entertained that a community of interests among the southern trunk lines will be worked out as a result of the new control which seems to have been acquired of interests among the southern trunk lines will be worked out as a result of the new control which seems to have been acquired without any large railroad policy in view, but simply for speculative profits. It is patent that financial and railroad interests are now striving to readjust the situation from the standpoint of railroad policy, which necessitates a settlement to the satisfaction of the interests which have secured the control almost by chance. The action of the stock today did not indicate any very definite prospect of settlement, the feverish flight of the stock indicating rather profound unsettlement and uncertainty of the speculative mind.

The remarkable rise in northwestern grangers was without explanation, unless it was the result of pure manipulation to further profit-taking at other points. The Chicago & Northwestern stocks, St. Paul & Omaha and the St. Paul stocks were marked up in a short period of trading from 2% to 13 points.

St. Paul relapsed as suddenly to below Saturday and fluctuated at the last almost as wildly as Louisville itself.

The money market was appreciably easler as a result of the stronger condition.

taik that a new issue of from £25,000,000 to £30,000,000 will be announced in tonight's budget.

Americans were more active, but there was not much local buying. The shares opened well above parities. Then New York came a general buyer, and as a result the close was at the top. Louisville & Nashville was again the feature. The stock opened at 12½, which was nearer parity than since the beginning of the present upward movement. The price advanced to 12½ and in the street the price bulged to 125½. There is no definite news about the stock over here, but the buying seems to be by Kuhn, Loeb & Co. for the Rock Island. Hardly a share is being offered on this side. Big houses short and jobbers are chary about dealing, but arbitrageurs are bolder on the arrangements for future deliveries. Other features of the day were Union Pacific, Atchison, Baltimore & Ohfo, Southern Pacific, all on New York order.

Rio tintos were ½ up and copper up to £53 3s 4d the ton, Anaconda ¼ down to 5% on sympathy with Amalgamated Copper. The government is disbursing funds. Silver is flat and looks lower on New York realizations.

NEW YORK, April 14.—COTTON—Spot closed quiet, 1-16c lower; middling uplands, 41. 23-16c; middling guiflands, 97-16c; sales, 16. 3.20 bales. Futures closed steady; April, 8.94c; June, 8.96c; July, 8.94c; August, 8.77c; September, 8.36c, October, 8.16c; November, 8.08c; December, 8.07c; January, 8.08c. The market opened steady, with prices 2679 points higher, the near months leading the rise. This improvement was due largely to a fright of ring shorts, who had anticipated weak Liverpool cables. Contrary to expectations, the English market started out quite steady in tone, with prices about a point better than anticipated. Again further lalk of peace in South Africa helped to alarm bears here Nevertheless, soon after the call, heavy Wall street and commission house seiling, chiefly of July and August; weakened the whole market. The decline which followed the turn to sell was accelerated by a sudden sharp break in the Liverpool market and by foreign selling orders.

ST. LOUIS, April 14.—COTTON—Steady; sales, 106 bales; middling uplands, 8 15-16c; receipts, 1,143 bales; shipments, 1,519 bales; stock, 42,466 bales.

66 steers...1295 & 15 1 steer....1400 5 00 HOGS—There was a very light run of hors here today for even a Monday and in fact there were hardly enough on sale to make a morket. Packers did not take hold with much life, as there was not enough to make a good killing for any one house. The general market was slow, but about stendy with Saturday. The light hogs were very hard to dispose of, the same as they have been all along, and in some cases sellers could not even get a bid on their light hogs. The range of prices was just about the same as on Saturday. The bulk of the good weights sold from \$6.20 to \$7.05. The medium weights went largely from \$6.20 to \$5.05. The medium weights went largely from \$6.20 to \$7.05. The medium weights went largely from \$6.20 to \$7.05. The medium weights went largely from \$6.20 to \$7.05.

BOSTON, April 14.—WOOL.—The Commercial Buletin will say in tomorrows inside of the wool trade; An improvement in the demand is reported by some dealers, More buyers have been on the market. Labor troubles, however, are still alight. Prices are steady and show no change, Full rates above the eastern partity continue to be paid in Nevada and other sections for the new cilp. Foreign markets are firm and the prospect of ording the Boer war has a strengthening influence. The receipts of wool in Boston since January 1, 1862, have been 64,191,964 pounds, against 28,437,300 pounds for the same period in 1801. The Boston shipments to date are 54,20,944 pounds, against Shipments of 66,075,625 pounds for the same period in 1801. Coffee Market.

NEW YORK, April 14.—COFFEE—Spot. Rio. nominal; No. 7. invoice. 14c. Mild. dull; Cordova, 8512c. The market opened steady, with prices 5 to 10 points lower and for the rest of the day was very heavy, under fairly active liquidation and bear pressure, groupfied by weak cables from European markets, heavy receipts in the crop country and bearish private advices from abroad. Smaller local holders were thoroughly disheartened by this further manifestation of weakness and at the new low record level unloaded their staple. There was little sign of a rally at any time during the rest of the day. The market closed steady, with prices net 5 to 10 points lower. Total sales were 27,500 bags, including May at 5,50c; July, 5,1565.25c; August, 5,30c; September, 5,40g5.45c; December, 5,65c; January, 5,75c; March, 5,85c.
