CITY COUNCIL PROCEEDINGS

Backs Up Its Committee in Demand for Sixty Per Cent of the Road Fund.

The city council last night authorized Alderman Lougee as chairman of the streets and alleys committee to effect a settlement with the Board of County Supervisors if possible of the controversy over the portion of the 1 mile road fund levied within the corporate limits of the city.

Alderman Casper called attention to the report of the city engineer, J. W. Rodefer, on the city property, amounting to nearly \$4,000, shall be expended on the roads within the city at its direction.

At the direction of Alderman Lovett, the city marshal was instructed to take steps to prevent the carrying up of streets in the northwestern part of the city.

The street supervisor was instructed not to issue receipts for poll tax to any person unless the work performed by such person had been under his direction and supervision. This is to forestall persons receiving receipts for poll tax on claims of having cut weeds.

J. W. Rodefer applied for the appointment of weighmaster at the city scales at Main and Pearl street and permission to wear a star as policeman while acting as mayor. The application was referred to the mayor.

On the petition of abutting property owners to have Ross street graded the city engineer was instructed to draft the requisite ordinance. A petition to have the water mains extended on Third avenue was referred to the committee on street water works. A petition to have a hydrant located at Third street and Fifth avenue was referred to the same committee.
