Ex-Senator Wants Democrats to Close Breaches and Work in Unison.

ORATOR AT A JEFFERSON ANNIVERSARY

Other Prodigats Return to the Party Nursery in New York and the White Emblem is

Unfurled.

NEW YORK, April 15 .- The members of the Democratic club today commemorated the birth of Thomas Jefferson by a reception at the club house. It was looked upon among the democrats of the city and the state as a harmony meeting. David B. Hill, who had not visited the club for a number of years, was the chief orator of the evening, and in his speech he called on democrats to unity is harmony. Perry Belmont, whose differences with Mr. Bryan and Mr. Croker, have kept him away from the club for three years, was also there Lewis Nixon, the new leader of the Tammany Hall, introduced Mr. Hills

After referring to Thomas Jefferson as the recognized "patron saint of democratic government, which is based on the principles of liberty, equality and popular rights,' Mr. Hill defined the theories of government as contemplated by the Jefferson and federal parties and went on to speak of the question of combinations of capital. He

To Apply Jefferson's Theories.

One of the great problems which is now presented to the people for their solution is how shall Jefferson's sentiments be utilized for the prevention of the evils which he foreshadowed? It is not a question for political jugglery. It is not a question to be lightly dismissed. It is not for the true interest of any compunity that a few men should be the employers and that the great body should be imployer or servants.

employers are servants.

It is perhaps difficult to predict how Jefferson, if he were alive today, would meet the difficulties which we encounter. We venture to suggest that he would insist upon some reasonable limitation upon the amount of corporate capital which might be invested in a single corporation.

We may well believe that Jefferson, who was equal to every smergency in the early we may well believe that Jenerson, who was equal to every emergency in the early history of our country, would, if he were in power, find some appropriate and adequate remedy to curb the rapacity and restrict the dangerous power of these gigantic Patron Saint Against Colonies.

On the subject of colonial extension, Mr.

Hill said:

It is safe to believe that Jefferson would never have favored an expansion of our jurisdiction, which did not carry with it the provisions of our constitution, to which he was so devotedly attached and which he defended so vigorously with his voice and pen. He would unquestionably have viewed with abhorrence the establishment of a permanent American colonial system, whether continued under military rule or under military suthority appointed by the central government at Washington. His theory was unquestionably the democratic doctrine of today—that this government has no more authority to create a permanent colonial system than it has the right to create a king.

Jefferson, as the friend of popular rights,

fferson, as the friend of popular rights, ored a provision in the federal constitu
for the election of United States senaby the people of the respective states,
temporarily yielded his views rather
imperii the adoption of that instru-

ment.

These considerations materally lead to the suggestion that it is peculiarly our duty, as it should be our pleasure at the present time, to invite democrats of character, standing and influence to identify themselves with organized movements for party success for the promotion of the true principles of Jeffersonian democracy and the elevation of the standards of the public service.

s the part of wisdom for the democracy ish to the front the issues upon which is substantial unanimity and ignore in regard to which there are such us and honest differences of opinion part to fafal to practical success. as must be fatal to practical success.

The administration of President Rooseveit is all at sea. It has no fixed policies
and no conscientious convictions. It wobbies upon every public question with which
it assumes to deal. He has no policy in
opposition to that of congress and is prepared to approve whatever congress does.

If any relief whatever to Cuba shall be secured from the present administration it will be due to the decided stand taken by the democrats in congress in insisting that justice should be done. The policy of the administration in the Philippine islands is a disgrace to civilization. The attempt with regard to these possessions to imitate the foreign policy of England has proved a dismal failure.

The administration will send its special representatives to witness the coronation of a king, but it has no words of sympathy to express for the brave farmers of South Africa who are herolcally struggling to maintain their republics.

In conclusion, Mr. Hill said: Ready to Claim Credit.

In conclusion, Mr. Hill said:

Fellow democrats, on this day, devoted to the honoring of the memory of one who has been frequently styled the "wisest and truest democrat of his times," let us resolve to renew our allegiance to the principles which he inculcated and the policies which he advocated.

Our opponents have only succeeded in refer tyears by unfortunate divisions among ourselves. Let our faces now be toward the common enemy.

It is a time for unity, for organization, for wise counsels and for aggressive action.

Ornamental Housesmiths Meet.

PITTSBURG, April 15 .- A convention for pittsburg, April 15.—A convention for the formation of an international association of ornamental and architectural house-smiths began here today, with about 100 delegates in attendance, representing locals in Philadelphia, New York, Chicago, Cleveland, St. Louis, Cincinnati, New Orleans and Canada. The national association is being formed for the purpose of rendering mutual assistance, fixing a uniform scale throughout the country and providing a fund for use in promoting the union. Before adjournment officers will be elected and national headquarters chosen.

When Rheumatism settles in the bones and muscles of the legs, it is safe to predict that the victim will eventually become helpless and crutch-bound. The corrosive irritating matter that is deposited in the joints and muscles causes the most intense pain, the knees and ankles swell, and when the natural oils and fluids that lubricate these parts are completely destroyed the joints become locked and the muscles drawn and stiff, and crutches a necessity,

The acid poisons that produce rheumatic pains form in the blood, and are distributed through the system, and lodged in the arms, shoulders, hands, back and feet, or other parts of the body-resulting often in total disability. A permanent cure of Rheumatism can be effected only by a complete cleansing of the blood, and no other remedy so surely accomplishes this as S. S. S. It neutralizes the acid effects, purifies and invigorates the stagnant blood, and the gritty cor-
