## COMMERCIAL AND FINANCIAL

Balloonish Tactics in Wheat and Corn Pits After Early Slump.

RICES PAUSE ON SUMMIT AT FINISH

darly Market Possesses Depressing Attitude, but Bullish News, with

8

Gigantic Stride in Wheat,

Sends All Lines Up.

be upset for some time owing to the the neasure. After the weakness in corn wore iway somewhat and the fair weather re-soris were offset to some degree by crop lamage reports, heavy buying set in. Bradmirect reported a decrease of 3.344,000 bushels in the visible supply. Commission houses had good orders and shorts cov-ited freely. The general sentiment turned rery builish and the opinion prevailed that the slight wettings the winter crop is get-ting at times helps if but little. Late lamage reports scared the crowd badly ind in the half hour before the close May was showed up 2c from its low price for he day and brought 74c. May closed itrong, 156015c higher at 737874c. Local receipts were 44 cars, one of contract grade; Minnenpolis and Dulut reported inly ninety cars, making a total for the three points of 134 cars, against 215 last week and 434 a year ago. Primary receipts were 251,000 bushels, compared to 380,000 pushels a year ago. Seaboard clearances he wheat and flour equaled 282,000 bushels. Corn shorts were subjected to hard queezing today. There was plenty of stuff for sale early on the break of 2c at st. Louis. The situation was almost the pposite of yesterday. Kansas City denied a report of a sale of 300,000 bushels cash and the southwest turned weak generally. Although cash stocks were practically gone at the two southwestern markets, there was not sufficient demand to keep prices up. The market was nervous most of the day, but gradually bears plucked up couralge and began selling short. Then came the bulge in wheat and prices jumped upward again as the shorts tried to cover. Action was very irregular, but the business transacted was not heavy. over. Action was very irregular, but business transacted was not heavy, y corn opened 14c higher to 14c lower 2014 to 65c, slumped to 6134c, then ad-aced to 65c, where it closed strong, 14c her than yesterday's close. Receipts

vanced to 63c, where it closed strong, 196 inghor than yesterday's close. Receipts were 52 cars. Oats held to better prices in sympathy with other grains. There was fair buying of May and the new grade of July. Com-mission houses helped in a small advance, 1 Local bears were not sellers, but trade was only moderately active and the larger re-scipts and better conditions for sown oats retarded advances somewhat. May sold between 42%c and 4%c and closed firm, 4cc algher at 4%c. Receipts were 22 cars. Provisions were strong early on the bull-ish hog situation. Packers were large buyers of pork and ribs and the outside bought liberally for investment. Offerings, such as they were, came out principally 'or profits and were quickly taken up. To-ward the close prices eased somewhat, but the tone was generally strong. May pork sold at \$17 and closed 10c up at \$16,93%, May lard closed a shade higher at \$0.75% p.77% and May ribs 507% cup at \$0.75% Estimated receipts tomorrow: Wheat,

Changes in Available Supplies.

NEW YORK, April 15 .- Special cable and

cifics and in Pennsylvania and Baltimore & Ohio. Amalgamated Copper advanced at one time over a point, but did not hold it. There were notable advances in special-ties here and there. International Power rising nearly 12 points. But there were also points of weakness and outside of the congested centers of activity there was notable demand for stocks. There was some stiffening of the rate again, but the continued calmness of the money market throughout the day relieved the apprehension that was fell lest the enormous speculation should develop a stringency. The easing of the exchange markets was freely resorted to. General considerations received little attention. The market closed irregular under realiz-ing.

ing. The bond market was irregular. Total sales, par value, 4.029,000. Bonds were all unchanged on the last call. The following are the closing prices on the New York Stock exchange:

 CATTLE—There was a good average
 Tuesday's supply of cattle here today, and while the market was not what would be called brisk, still there were no very radical changes in prices, and the bulk of the desirable grades of both killers and teeders sold at right around steady prices as compared with yesterday.

 There was about the usual proportion of beef steers included in the receipts this morning, and the quality was quite satisfactory. Packers did not take hold with as much life as they generally do, and the trade was rather slow. Sellera were holding for steady prices and would not cut loose until they were bid right close to what they considered steady prices. The situation could probably be best described by calling the market slow, but nearly steady.

 The cow market was also slow and the tendency was to pound the market wherever possible. In some cases the more desirable grades sold at steady prices, but as rule sellers found it a hard proposition to get yesterdas''s quotations. The common and medium grades, in particular, were hard to move at steady prices, and the morning was well advanced before a clearance.

 Weat alves of good quality sold at steady prices, but the feeling on buils and stags was alittle weak. The market was also rather devoid of activity. Good to choice prices, but the same as has been the cases alit along, the undesirable grades were very and to move at any price, and the tendency of prices is undoubtedly downward. There has been very little trade from the country so far this week, and yard traders prices, but the same as has been the cases think that farmers are too busy with t
