Over Four Thousand Dollars in Home Mission Fund to Be Divided Among the Thirteen Churches Receiving Ald.

the Pronbytery of Omaha met in the Presbyterian church in Tekamah Monday evening. April 14. The sermon was preached by Rev. Winthrop Allison, retiring moderator. Twenty-two ministers and seventeen elders were present. Rev. J. J. Lampe, D. D., was elected moderator. The Prasbytery convened Tuesday morning and was led in devotional exercises by Rev. E. Aston. At 9 s. m. the Presbytery was opened with prayer by the moderator, Rev. J. J. Lampe, D. D.

The regular order was suspended twenty minutes in order that the Presbytery might be addressed by Rev. Thomas L. Sexton. D. D., synodical superintendent, on the of "Home Missions," Rev. There was \$4,175 at the disposition of this committee and there was but one change made in the appropriation to the thirteen churches receiving aid from the board. The home mission committee was commended for efficient services and desirable results from their work. Rev. Braden stated in this connection that the state clerk of the general assembly had declared that the best report in the whole church came from the chairman of this committee, Rev. R. L. Wheeler, D. D. The following churches came to self-support: Grand View, Plymouth and Webster, Munroe, Oconee, Zion, Clifton Hill, Divide Center, Sliver Creek

Rev. R. M. Braden was elected pastor-atlarge for the coming year. A very interesting report was presented on Sabbath school work by Rev. J. B. Currens, synodical missionary.

The following were elected as commissioners to the general assembly: Ministers, Rev. J. J. Lampe, D. D., and Rev. D. R. Kerr, D. D.; alternates, Rev. R. L. Wheeler, D. D., and Rev. Greeder; elders. W. C. McLean and Warren Switzler; alternates, Charley Millar and J. J. Kessler. The hope was expressed that Rev. D. R. Kerr, D. D., would be elected as moderator of the next general assembly, and the commissioners will work with this end in

A letter was received from the synodical committee in reference to synodical selfsupport. This was referred to a committee, consisting of Rev. Drs. Moore, Jenka and Stevenson and Elders Perine and Switsler, to report at the fall meeting of the Presbytery. The Presbytery endorsed and highly commended the bible school, which meets in Bellevue in August next. After prayer by Rev. R. L. Wheeler, D. Revolting Testimony in Case Against Man Charged with Attacking Cripple.

Judge Estelle has relieved Judge Baxter of the criminal docket during the contest proceedings now before the latter, and yesterday took up the state's case against Plorence. The girl told her story on the stand, giving details too revolting to print. Her aged mother followed, testifying that the girl is not mentally capable of learning any other than purely mechanical accomplishments.

MRS. GILLASPEY WINS SUIT Jury Decides that Man Whom She Charges with Assault Must Pay.

A jury in Judge Estelle's court has given Mrs. Maud Gillaspey a verdict for \$525 in her suit against Bryn Hopper, whom she charged with beating her when she resisted his attempt to take from her a buggy he had sold her. The buggy, it appears, had been given for a cow and a note for \$15, the latter secured by a mortgage on the vehicle, which mortgage Hopper attempted to foreclose unceremoniously.

Superintendent of Parks Adams is already at work making various minor improvements in Hiverview park. A number of unsightly bluffs along the main ravine driveway are being sloped and when this work is completed shrubbery will be set out to prevent surface wash. Another lake will be formed in the ravine, thus making attractive one of the most picturesque sections of the park. In a short time the lower and larger lake will be filled to a depth of about seven feet. Water is rather scarce, the flow of the arresian well having fallen off more than half. The driveway between Riverview and Hanscom parks has been improved by the planting of trees and shrubs on either side nearly its entire length. The list follows: William Tracy, Charles Akoffer, P. J. Hannigan, William Rowley, J. M. Fitzgerald, Richard O'Neil, James Krecek, F. B. Burness, Peter Cockrell. It will be seen that the tax commissioner manages to get along with nine deputies, while the county assessors need twenty-four.

This assessment of city taxes will commence on May I and the commissioner is allowed by law forty-five days in which to complete the work.

Following the making of the assessment, which will be greatly simplified this year on account of the making out of the field books during the winter and spring, the Board of Review will pass upon all complaints. This Board of Review is composed of the tax commissioner, a member city treasurer.

In this year's assessment it is expected that with a new administration the valuation will be raised. If this is not done by the tax commissioner the Board of Review has no power to make changes in valuation. Last year the valuation was likely be a change. Increasing Food Prices

"You will have to take a plece of tough steak today," said a well known restaurant man to a regular customer yesterday. This is because the price of meat has gone so high that we cannot afford to purchase the same grade we formerly did." Now the steak comes on with the elasticity of a horse hide and about as thick. When it comes to a slice of roast beef the portion Smock, charged with assault on served at any of the restaurants is about Emma Roach, a crippled girl, aged 14, of as thin as an expert carver can cut it and almost as tough as sole leather. Few vegetables are served at restaurants or the hotels on account of the high prices. While so far there is no agreement among restaurant men, they have all with one accord boosted prices and cut down the amount of

food furnished patrons. Council Meeting Tonight.

The city council is billed for a meeting tonight. In case the recount of the ballots in the McIntire-O'Connor contest is not completed the chances of a meeting are slim. It is expected, however, that the count will be completed sometime today and that the city clerk will be in a posttion to issue certificates to either one or the other of the contestants. In the event of O'Connor's election the deadlock will be broken, but with McIntire in the situation will remain the same.

Library Board Paying Rent.

The recently organized library board is low paying rent in two places. Rooms were recently rented in the Murphy block for the use of the secretary and in order to have a place for holding meetings. So far no effort has been made to remove the books belonging to the association from the room on Twenty-fourth street formerly occupied by the postoffice and the hoard will have to pay \$10 a month for this room until the books are moved. The board has about \$500 at its disposal now, but this will doubtless be used up before the 1902 levy is made. It may be that the council will not make a levy for library purposes this year, as the members may want to see the color of a building before levying an additional tax upon the people.

Providing Fire Escapes. It is understood that before the present Board of Education goes out of existence that fire escapes for the Central school will be provided. Bids will be asked for and it is expected that a contract will be let between now and May 1. The deputy state labor commissioner ordered this work done months ago, but the board pleaded lack of funds. Now that there is over \$80. 000 in sight from liquor licenses, the fire

escapes will be built. Drops Dead on Street.

Samuel Spencer, who said yesterday that the Southern railway had no interest in Louisville & Nashville, also called to see Mr. Perkins. He had nothing to add to his statement of yesterday. A semi-official statement credited to a member of J. F Morgan & Co., to the effect that Louisville & Nashville is now a Morgan road and that its policy will be dictated by Mr. Morgan, was discussed by one of the latter's partners this morning.

"Morgan & Co. will act as trustees of the Louisville & Nashville road," said this party. Efforts to get a definite statement from the Gates interests regarding this phase of the situation were futile.

One of the latest versions of the Louisrille & Nashville situation is as follows: The Gates holdings have been divided into three parts, J. P. Morgan & Co. taking one-third and Mr. Gates and associates the remainder. Morgan takes this part on agreement that it be operated in harmony with Morgan interests in the same section of the country.

Yesterday's move in Southern rallway is attributed to Mr. Gates' interest to secure an interest in that property. He is reported to have been informed that the best way to get it was to go into the open market, which he and his followers are reported to have done to the extent of about 200,000 shares.

Spencer Explains the Case. ATLANTA, Ga., April 16.-President Samuel Spencer of the Southern railway sent the following telegram today to S. M.

and a member of the executive board:

Imman, one of the directors of the Southern

and a member of the executive board:

The Louisville & Nashville situation is simply this: Mr. Gates and his associates, apparently without any consultation with any railroad interest in the south or elsewhere, and entirely on their own account, bought in the open market large blocks of Louisville & Nashville stock and claimed now to be a clear majority.

By reason of a large short interest, growing partially out of the sale by the Louisville & Nashville company of 50,000 shares—an authorised additional issue of treasury stock—which was not listed and not, therefore, a good delivery on the exchange, a serious corner was imminent. J. P. Morgan & Co. were appealed to to use their influence to prevent such a disastrous condition. After two days negotiations this has resulted in an agreement by which the Gates stock will be deposited with and placed under the control of J. P. Morgan & Co. as bankers and not as representing any railway interest, and with no purpose except to conserve in the best possible way the general financial and business situation and avoid the serious complications which have threatened. The president-elect received official notice from Postmaster General Payne that ranged and had been forwarded to him

the general financial and business situation and avoid the serious complications which have threatened.

The Southern Railway company has not had and has no intent, directly or indirectly, present or prospective, in the purchase of the stock, or in its deposit as above with J. P. Morgan & Co. There is no contest for the control of the Louisville & Nashville by any other railway company and not likely to be—certainly not by the Southern. Here are two very high tenpin scores made by two of Tekamah's women bowlers: Mrs. Ed Stapleton on March II made 3%, the highest acore. April 15 Miss Frank Thomas made 2%, the second highest score. Tekamah has two women's bowling clubs and there are several exceptionally good bowlers among them.

BALTIMORE, April 16 .- It was learned oday from a semi-official source that the Seaboard Air Line railway figures in the general understanding reached in connection with the Louisville & Nashville sale. This, it is stated, assures the continuance of the friendly relations existing between the Seaboard and the Louisville & Nash

Wallace Cox, aged 25, who says he is from Kansas City, was arrested last night on a charge of stabbing Daniel Dever, porter in the Delione hotel. Dever was cut twice in the left side and once in the arm. The cutting took place in the hotel lobby. The wounds are not dangerous. Cox, who is generally known as "Bert" Wallace, was arrested at 1818 Howard street. Charles McDaniels, Henry Purcell and Frahk Steen were also arrested. They were with Cox when the cutting took place. They were all locked up. It is understood that conferences have been held between the Morgan interests and representatives of the Seaboard, President John Skelton Williams of the latter and President Samuel Spencer of the Southern railway were present at these conferences. It has been expected that some understanding would be reached with the Seaboard with the idea of securing its cooperation with a community of interest

There is a disposition is local circles close to the Seaboard to think that the Gates party contemplated making a bid for the Seaboard and that the Morgan plan to secure a general understanding intervened and stopped this move.

BELMONT STILL IN FIGHT MALARIA Invisible

Means had air, and whether it Enemy to Health of the country, or the fifthy sewers and drain pipes of the cities and towns,

its effect upon the human system is the same These atmospheric poisons are breathed into the lungs and taken up by the blood, and the foundation of some long, debilitating illness is laid. Chills and fever, chronic dyspepsia, torpid and enlarged liver, kidney troubles, jaundice and billiousness are frequently due to that invisible foe, Malaria. Noxious gases and unhealthy matter collect in the system because the liver and kidneys fail to act, and are poured into the blood current until it becomes so polluted and sluggish that the poisons literally break through the skin, and carbuncles, boils, abscesses, ulcers and various other eruptions of an indolent character appear, depleting the system, and threatening life itself.

The germs and poisons that so oppress and weaken the body and destroy the life-giving properties of the blood, rendering it weak and watery, must be overcome and carried out of the system before the patient can hope to get rid of Malaria and its effects.

S. S. S. does this and quickly produces an entire change in the blood, reaching every organ and stimulating them to vigorous, healthy action. S. S. The Best Office Building

Spring Time Moving Time

Moving is not pleasant to think about except when the prospect of a handsome office is in prospect. You have to get up a certain amount of steam to move, even when you are driven to desperation by poor janitor work, wretched elevator service and offices that have been long in need of paint as well as soap and water.

The Bee Building always looks fresh and attractive because

it is never allowed to get out of repair. This together with efficient junitor service make it a pleasant place to do business. Besides this the rents are no higher than in other buildings.
