Quit Higher and Provisions Have Gala Day.

CHICAGO. April 17.—Grain speculators, who innocently believed in the mythical stories retailed pesterday about drenching rains in the suffering wheat country, found out today that they had been caught napping. The result was one of the most excited buil markets the pits have seen since the recent upturn. Wheat led in the activity, making an early jump of almost 20. Heavy profit-taking brought recessions in all grains, but the buillish sentiment prevailed and May wheat closed 1½c higher, May corn 5%c higher and May oats 3½c up. Provisions closed 109;15c advanced.

Up to midday the trade in wheat was an anxious effort to undo the errors of yesterday. The bears, who plucked up courage to sell short heavily yesterday and pressed prices back, changed front at the opening, when it was learned that the rains reported yesterday were by no means sufficient to the needs of the winter wheat crop. Cables were lower at the start and morthwestern farmers were reported marrial outlook, however, was decidedly sullish and at the very start of the gong here was an exciting rush to buy. Provisions showed improvement after yesterday's liquidation. Strength in grains and the smell run of hogs influenced fair buying. Packers also supported. Scattered selling by local scalpers in the way of profit-taking took off some of the gain. May pork closed 15c higher at \$15.294. May lard 24c up at \$9.734, and May ribs 10c higher at \$9.25.

The Commercial Advertiser's London financial cablegram says: Stock market activity was greatly reduced today by a reported hitch in the peace negotiations. Interest centers in the new consol issue. It is understood the issue has been applied for twenty times over. The interest at one time was 5½, finally closed at 131-14. Betting at 3 to 1 that applicants will not get 5 per cent of the allotment. Southern Railway and Louisville & Nashville were flat and the interest shifted to the coalers, with Eric, Ontario & Western and Reading strong. New York sold the last named stock at the opening and then turned and bought. In the street the close was buoyant, notably Atchison and United States Steel. Canadian Pacific was very strong. New York is understood to be short of the stock. Copper was steady: money was very active on the consol subscription. The market borrowed 25,000.00. Paris is bidding 718 34d for gold, but it is doubtful whether it will succeed at that price. Silver is flat on New York's free sales, with no sign of any early turn.

with ready sale at good, steady prices, and in some cases sales were made that looked a little better. The medium grades and canners, though, did not sell any more than steady, as the demand for such kinds continues limited.

Bulls, veal calves and stags sold in just about the same notches they did yesterday. The desirable grades were easy to dispose of, but common stuff was negicated.

There was not very many stockers and feeders on sale today, so that although the demand was limited, the better grades sold without much trouble at just about steady prices, but when it came to the common kinds the market was slow and weak. There were twenty cars of stock cattle shipped to the country yesterday. Representative sales:

Very Valuable Document.

NEW YORK, April 17.—Henry C. Frick, the steel magnate, has deposited at the banking house of J. P. Morgan & Co. what is probably one of the most valuable pieces of paper in existence. It is a certificate for 100,000 shares of preferred stock in the United States Steel corporation, yielding Mr. Frick dividends of \$700,000 annually. It is stated that the deposit was made for the purpose of exchanging two-fifths of the preferred stock it represents into \$4,000,000 worth of bonds of the proposed new issue. The balance in the deal, \$8,000,000, will be repaid to Mr. Frick in the shape of a new preferred stock certificate.
