Advancement of General Auman Particularly Pleasing on Account of His Services at Battle of San Joan.

in Minor Positions.

At army headquarters here the recent

appointment of general officers by the president is received with pleasure, not only be cause the men so advanced are deserving of every honor which can be conferred upon them, but because the appointments indicate that the president is doing what he can under adverse laws to reward men who have faithfully and well served the government in minor positions, and that, while restricted in the number of appointments, he will provide for retirement at higher rank than at present held by men who are especially deserving.

This opinion is based upon the fact that of the men appointed to be brigadier gen erals all will retire under the age limit within a year, the one having the longest term to serve being General Simon Snyder, who will retire next February. General Bird will be the first to retire, his term of service expiring by limitation June 17 of the present year, while General Auman will retire in October.

The veteran officers at headquarters are

While they are accumulating knowledge on the profound sciences, are often so ignorant of their own natures that they allow local disease to fasten on them to the ruin of the general health. Backache, headache, nervousness, point to a disordered or diseased local condition

which should have prompt attention.
Dr. Pierce's Favorite Prescription may be relied upon as a perfect regulator. It stops enfeebling drains, heals inflamma-tion and ulceration, and cures female weakness. It makes weak women strong

and sick women well.

There is no alcohol in "Favorite Prescription" and it is entirely free from im, cocaine and all other narcotics. "Your letter just received," writes Miss Rose Rilfether, of 41 West Sharpunck St., Germantown, Philadelphia, Penna. "Words fail to express how thankful I am to you for your advice. I must confess that for the length of time I have been using your medicine I have found it to be the most wonderful and hesi remedy for female trouble that I ever have tried. Sorry I did not know of your 'Favorite Prescription' years ago."

Shift System.

THINKS IT WOULD IMPROVE SERVICE May Recommend the Change to Fire

and Police Board and City Council After Investigating it Further.

introducing the three-shift system in the Omaha police department, instead of having the two shifts, as at present. The new system would mean eight hours a day work for the men instead of twelve, as at present, and the chief believes the change can be made without increasing the present force. He is at present investigating the question more fully, and in a short time will bring it before the board and the city council. The three-shift system is in vogue at Denver, Nashville. Milwauker and Buffalo and has lately been adopted at

Minneapolis and other cities. Under the present system the men go to work at 7 o'clock in the morning and work until 7 in the evening, with an hour and a half for lunch, the night men going on at are fairly insisting upon her accepting a The work will for the present be supervised 7 in the evening and reporting off, except by the vice president, Mrs. Wheelock, whose six men who do dog-watch duty, at 4 is the morning, these men being allowed forty minutes for lunch. The chief believes that by the eight-hour plan more efficient work could be done and the men would be in a

Works Well Elsewhere.

and have since written to several chiefs of police who have worked under both systems, and all who have tried it seem bet ter satisfied with the new plan The chief of police at Denver wrote that the service under the eight-hour system was much better and the men were in better condition for work. I received the same reply from Nashville. I believe it can be done with the same number of men. The first shift and quit at 4, the second work until 13 and the third until 8 in the morning. The men would be allowed fifteen or twenty minutes for lunch. All the men would be available for emergency duty.

hours in the hot sun in the summer time he feels very little like coming back for an hour's work in the gymnastum. The new system would mean another captain and possibly another surgeant, but it could be done with very little extra expense. I am going to attend the national convention of chiefs at Louisville, Ky., in May, and will find out more about the efficiency of the new system. If there are no unfavorable reports at the convention I shall bring the matter before the board and council.

AND IF YOU HAVE IT, SMITH'S GREEN MOUNTAIN RENOVATOR WILL CURE YOU OF IT.

Why be sick when we guarantee this

medicine to help you? Some people are aptly described as "always grunting." They never seem to feel just right, and if one thing isn't the matter with them another is. These are the people that we always feel like crossing the street to avoid meeting. They are always more or less ill because they refuse to adopt a sensible course. When they feel some particular symptom they dose themselves with various things which are supposed to be good

for what that symptom indicates. There is no use in pursuing such a course as this. The only way to get cured and stay cured is to find the root of the trouble and pull that root out.

Now, everybody knows that weakness or diseases of the stomach, liver or kidneys and consequent impure blood is responsible for more than ninety per cent. of the ills that flesh is heir to.

The only sensible thing to do is to take Smith's Green Mountain Renovator. That doesn't waste any time chasing around for this symptom or that symptom, but goes right to the vital organs, cleans them out and strengthens and upbuilds them, and purifies and enriches the blood. Just as soon as this is done you get well, and just as long as you keep yourself in proper condition by the use of this famous old medicine you are going to stay well.

There isn't any guesswork about this. In its native New England home, where it is the standard household remedy for old and young, rich and poor, Smith's Green Mountain Renovator has been effecting the most wonderful cures for a great many years, and it will do for you just what it has done for

"My husband has already told you how wonderfully he has been benefited by taking SETE'S
GREEN MOUNTAIN RENOVATOR, and now I want
you to know the rest of the story.

"For years I have been a frail woman. My
household duties and cares of a family wore so
much upon me this winter that I was afraid of a
severe liness. When I saw what the RENOVATOR did for Mr. Schott, I decided to try it. It
does not seem possible, but in four weeks I have
changed into a healthy, rested and vigorous
woman. Your medicine is the best remedy for
tired out people that I have ever tried. I have
no more backache, headache or nervousness.
The RENOVATOR cured me."

(Signed) Mas. HENRY SCHOTT, 510 S. Senate St., Indianapolis, Ind.

March 1, 1901. Try this medicine. If it fails to help you, come back to us for your money.

lieutenant colonel. The chief quartermaster of the department has received orders to purchase eighty-four horses for the battalien of engineers now stationed at Fort Leavenworth. The officers who have held the position of quartermaster at this headquarters are very well acquainted with the horse and mule barns at Lathrop. Mo., which are now said to be used by the British government in defiance of the rights of neutral nations.

Said one of these officers: "The mule depot at Lathrop is one of the most complete in the west. Mr. Guyton, the principal owner of the business, is one of the men who sell large numbers of horses and mules to the American government and to other countries as well. At the present time he has a contract with the British government to feed the horses and mules brought to that depot by their purchasing agents. His contract calls for the feeding of 5,000 antmals daily and he draws pay for that number whether they are fed or not, but he says that frequently there are as many as 10,000 animals fed for the British government and that the number seldom falls be-

low the minimum of 5,000." The chief quartermaster has received or ders to advertise for bids for the construction of two detached lavatories at Fort Robinson, with steam heat and sewers complete, for the accommodation for four com-
