Hard to Secure Machinery in Which Steel Forms Large Part.

FORCED TO REFUSE MANY GOOD ORDERS

Western Jobbers' Business Curtained as Result of Present Large Demand for Product of Steel Mills.

When the condition first developed in February, at the time the filling of advance orders began, the dealers both in the west and in the east were forced to refuse many good orders.

Loss of Last Year Unknown. Probably no accurate estimate will ever be made of the loss to the implement dealers caused by the dry weather of last year.
