Asserts the Grant to Andrew Rosewater Interferes with His Plans.

PROBABLE CLEMENCY FOR MURDERER RHEA

United Moderns Denied Privilege of Conducting Fraternal Insurance by the State Insurance Commissioner.

(From a Staff Correspondent.) LINCOLN, April 21.-(Special.)-James Riley of Plattsmouth has protested to the secretary of the State Board of Irrigation against the allowance of the application of Andrew Rosewater of Omaha for permission to use the water of the Plattamouth river above Ashland for power purposes. Mr. Riley is the promoter of an enterprise. His wife was the complainant in the trial. somewhat similar in nature, which, were it carried into operation, would use the water near Plattamouth, or below the point of Mr. Rosewater's claim. Several days ago the secretary of the board acted favorably on Mr. Rosewater's application, and now Mr. Riley demands a hearing, to the end that a full and free discussion of the situation may be had.

The power plant contemplated in the plans submitted by Mr. Rosewater is by has prevailed in this locality for two days far the largest and most extensive ever and no rain has fallen. formally proposed in this state. It would have a capacity of 50,000 horse power, would utilize 5,000 cubic feet of water per second, and would cost \$5,000,000 to build. The system would include a reservoir of 36,000 acres, extending from a point four miles below Valley, to within four miles of Ash-At the lower end of this reservoir would be a dam six miles across. The water would be stored in this immense basin and taken as needed through a canal to another reservoir about midway between Ashland and Richfield, where the power machinery would be located. The water would be returned to the river, undiminished in quantity, except as by evaporation and natural waste, at a point nearly below

Basis of Riley Protest.

Mr. Riley has filed a protest, in which be says: "I beg leave to call your attention to the fact that the appropriation of water at that point involves the construction of a dam to impound it, the height of which will probably be about forty feet, and the length of it about six miles. I would inform you further that it would involve the construction of a tunnel leading into Buffalo creek, the length of which will be two miles.

New Wrinkle in Insurance.

A new idea in insurance was brought to the attention of the state insurance department today and a decision was given to the effect that it could not be put into operation in this state, as requested, under the fraternal insurance law. E. M. Johnson of Denver, supreme charcellor of the United Moderns, asked permission for his company to enter the Nebraska field. The company issues policies on the old-line basis, but is organized as a fraternal order. In other words, it is of the stipuated premium class of companies with the Yraternal feature attached. Mr. Babcock. eputy insurance auditor, says the company may be licensed in the stipulated class, but cannot be termed a fraternal order.

In writing to the insurance department Mr. Johnson says the idea is used merely to attract persons who favor the fraternal orders because they furnish social amusement and association

NEW YORK, April 21.-Clement Ar Griscom, head of the international Navigation company, which is to enter the steamship combination, organized by J. P. Morgan, was in this city today and conferred for a long time, with some of Mr. Morgan's partners. Mr. Griscom's attention was called to a statement of Charles H. Cramp, the Philadelphia ship builder, who is reported to have declared that the consolidation of English, German and American steamship companies on the lines planned by Mr. Morgan would work harm to American ship builders. "Then let the American ship builder awake up and do something," said Mr. Griscom. "There is plenty for him

WOOD'S COMPANIONS JAILED TRIAL FOR GENERAL SMITH DID NOT KNOW SHE HAD KIDNEY TROUBLE

Thousands Have Kidney Trouble and Never Suspect It.

Gertrude Warner Scott Cured by the Great Kidney Remedy, Swamp-Root.

Gentlemen:-In the summer of 1898, I was taken violently ill. My trouble be-

gan with pain in my stomach and back, so severe that it seemed as if knives were cutting me. I was treated by two of the best physicians in the country, and consulted another. None of them suspected that the cause of my trouble was kidney disease. They all told me that I had concer of the stomach, and would die. I grew so weak that I could not walk any more than a child a month old, and I only weightd sixty pounds. One day my brother saw in a paper your advertisement of Swamp-Root. the great kidney remedy. He bought me a bottle at our drug store and I took it. My family could see a change in me, for the better, so they obtained more and I contin ued the use of Swamp-Root regularly. I was so weak and run down that it took considerable time to build me up again. I am now well, thanks to Swamp-Root, and weigh 148 pounds, and am keeping house for my husband and brother, on a farm. Swamp-Root cured me after the doctors had failed to do me a particle of good.

Gertrude Warner Scott (Gertrude Warner Scott.) Women suffer untold misery because the nature of their disease is not correctly understood; in many cases when doctoring, they are led to believe that womb trou-

ble or female weakness of some sort is responsible for their ills, when in fact disor-dered kidneys are the chief cause of their distressing troubles. The mild and extraordinary effect of the world-famous kidney and bladder remedy, Dr. Kilmer's Swamp-Root, is soon realized. It stands the highest for its wonderful cures of the most distressing cases. A trial will convince anyone-and you may have a sample bottle sent free, by mail.
