Hot Windy Weather Incites Grains to Brisk Rupture at Opening.

PROVISIONS DRAGGED IN DOWN HILL RUT

Close Weaker Than for Many Days and Corn and Oats Also Loze, but Wheat Quits with Slight Gnin,

CHICAGO. April 21.—Weather reports ruled the grain pits again today. Hot, windy conditions in the winter wheat country started grains with a smart updurn, but predictions of relief by showers worked against the buils and May wheat closed only a shade higher. May corn 146% to lower and May outs 14c down. Provisions closed 106file depressed.

Trade in wheat had a nervous strain. At the opening there was a rush toward the weather map, and when only a few scanty showers were shown to have fallen since Saturday there was an opening buillish spurt. Yet most of the professionals hesitated about plunging in on the builside for fear that some small showers might be magnified in the minds of the bears into a big rain and a break of several cents ensue. Considering the fact that the entire wheat belt was dry—even dryer than before—the early trade was tame. May opened \$60.00 higher at 750744c; then came predictions that the hot and unseasonable blasts would have some small relief by showers, and selling set in. Gossip had it also that the Wall street crowd was selling heavily in order to create an impression on the Stock exchange that the wheat crop was in no danger. May wheat fell off 160% before the decrease of 2,370.000 bushels in the visible supply came to the relief of the buils and started covering. Weather reports, as of late, were conflicting and favored both sides of the market. This kept the talent guessing and held business down. The feeling was mixed; May late in the day had a raily and closed steady, a shade up at 74% page 150.000 bushels of contract grade; Minneapolis and Duluth reported 209 cars, making a fetal for the three points of 237 cars, against 257 last week and 390 a year ago. cars, three of contract grade; Minneapolis and Duluth reported 209 cars, making a batal for the three points of 237 cars, against 257 last week and 390 a year ago, Primary receipts were 295,000 bushels, compared to 348,000 bushels last year. Seaboard clearances in wheat and flour squaled 589,000 bushels. World's shipments yere 7,479,000 bushels, against 8,000,000 bushels last week and 8,286,000 bushels a year ago. Breadstiffs on passage intreased 264,000 bushels. Corn trade was small and had no prominent features. The market was inclined

Corn trade was small and had no prominent features. The market was inclined to follow wheat and prices advanced at the opening. Stocks continued to decrease, but the prospects of an easier wheat market irduced selling. Cables were unexpectedly firm, but soon lost their influence. May corn opened 48% to a shade up at 874,9674c and sold off to 61%; later there was some covering as wheat railled and some of the loss was recovered. Near the end of the session, however, the market turned heavy and selling ascribed to the bouthwest brought an easy close; May, 4,0% lower at 61%. Receipts were 106 cars.

There was a fair-sized flurry in oats at the opening, based on the fear of damage to sown oats by the dry weather. There was a good commission house demand, but later selling by receivers eased prices considerably. When the hopes that the drouth stories would create a strong demand were not realized there was a further rush to unload and the market suffered. May sold from 40% down to 40% and closed easy, but down at 47%. Receipts were 147 cars. Provisions suffered a further decline and closed weaker than for many days. Hogs arrived in larger numbers than estimated and stock yards prices were weaker. Added to this bearish factor was the fear that newspaper comment of excessively high prices for meat would retard consumption. Selling in all products was liberal, both by packers and the scalping trade. May pork closed 17% clower at \$3.97%. NEW YORK STOCKS AND BONDS. Marked Activity in Stock and Silver Slump Minimum.

NEW YORK, April 21.-This was another NEW YORK, April 21.—This was another day of very active and varied speculation in stocks, but 'he campaign for the advance received a rather severe check. The day started off with indications of a repetition of the successful tactics adopted last week of heavy buying at some new points to offset realizing at others.

It so happened that the stocks in which realizing was attempted, namely, the western and Pacific stocks, were acutely depressed by threat of harm to the crops and by the leave granted to the state of Washington to file a suit in the supreme court against the Northern Securities company.

Washington to file a suit in the supreme court against the Northern Securities company.

The leaders of the campaign for the advance recovered their position to some extent late in the day by a vigorous borrowing movement in Southern Facific up to 6% and in Reading and Manhattan, which were lifted 2½ and 3% over Saturday. This induced a general covering movement in the whole market and in substantial rallies which materially reduced the losses, but still prices were generally below Saturday. The steamship merger was accepted as additional indication of the confidence of large capital in continued prosperous conditions. The results of the day's operations in the market showed the importance of the outcome of the crop situation.

An incident of the day was the demoralization in the silver market, which carried silver builtion to 60% can ounce, compared with the previous low record of 51% c on September, 18%, when Japan adopted the gold standard. The slump is said to be due to selling by China as a necessary incident to the payment of the indemnity to the strength of Reading and Manhattan.

the powers.

The strength of Reading and Manhattan was due to buying by the same brokers who were heavy sellers of Union Pacific and St. Paul. There were rumors of absorption of Reading in Pennsylvania interests. scrption of Reading in Pennsylvania interests.

The market closed active and about steady. New York Airbrake, International Power, the Electric stocks, Keokuk & Des Moines and Nashville, Chattanooga & St. Louis made sensational and unexplained advances.

The heavy selling of Union Pacific convertible bonds was the feature of the bond market. Total sales, par value, \$6,585,000. United States bonds were all unchanged on the last call.

Foreign Financial.

LONDON, April 21,—Money was in good supply and in fair demand today. Discounts were steady. On the Stock exchange the tone was generally favorable and a moderate amount of business was transacted. Silver reached the lowest price on record. Consols fluctuated. The new issue eased off on profit-taking. Home rails were well supported. Canadians were strong. Americans were firm and buoyant. Union Pacifics advanced in response to New York and closed below the best price of the day. Kaffirs were quiet and irregular. Gold premiums are quoted: Buenos Ayres, 143.30; Madrid, 36.35; Lisbon, 27.50; Rome, 2.35. The amount of buillon taken into the Bank of England on balance today was £62,000.

WASHINGTON, April 21.—Today's statement of the treasury balances in the general fund, exclusive of the \$150,000,000 gold reserve in the division of redemption, shows: Available cash balances, \$182,122,684; gold, \$92,085,652.

Cotton Market.

The marlet opened firm, with prices 36c: points higher, and during the forenoon The mariet opened firm, with prices 36:0 points higher, and during the forencon was decidedly builtsh in general appearance. Shorts were greatly disturbed by this further rise and covered eagerly during the first hour. The south, Europe, New England spinners and room bulis were prominent buyers throughout the early cession, but commission houses had few orders other than those to sell for profit. Fresh buying gave the market a steady close, with prices off to 10 points, but fresh buying gave the market a steady close, with prices net 6 points higher to 1 point lower. Generally favorable crop and weather news tended to hold the late months from sympathizing with the strength of the near positions.

Chicago was quoted a dime lower packers tried to take off that much here, and succeeded to quite an extent. Sellers did not like to take off very much from last week's prices, and a slow, weak market was the result. The general market was right around a dime lower, though some sales looked worse than that, while others were better. It was rather late before anything like a clearance was made.

The cow market was not very active, but still packers did not take off much. A good many salesmen succeeded in getting just about steady prices for desirable stuff, but in some cases it was impossible to get quite last week's quotations. The situation could, perhaps, best be described by calling the market steady to a shade lower. Buils, veal calves and stags sold at about steady prices, where the quality was satisfactory, but where the quality was poor the market was slow and weak.

The stocker and feeder trade was rather slow and weak. The hot, dry weather of today and Sunday it was feared would interfere with the demand from the country, and as a result speculators were a little cautions about getting too many cattle on hand. Anything on the common order was extremely slow and lower, but the best grades sold at right close to steady prices. Representative sales:

Coffee Market.

NEW YORK, April 21.—COFFEE—Spot, Rio, quiet; No. ? invoice, 5.1-16e; mild. quiet; Cordova, Sgilže. The market opened steady, with prices 5 points higher, and throughout the afternoon displayed a tolerably healthy appearance. Prices at one time were net 5gile points lower, with shorts the leading buyers. The improvement was more a covering movement than a response to foreign strength. Receipts were again very large, spot demand was tame and clearances for the United States were surdensome. Later in the day the market had a partial setback, with the close steady and net unchanged to 5 points higher. Total sales were 23,500 bags, including: May, 4.85@4.90c; June, 5.00c; September, 5.25gi.30c; October, 5.36c; December, 5.25c; January, 5.50c; March, 5.70c
