District.

The feature of the second day's session of the district conference of the Methodist Episcopal church was the laying of the cornerstone of the Monmouth Park Methodist church, which took place at 11 yesterday morning. The funeral of the late Rev. James Haynes caused a rearrangement of the program. The presiding elder, Dr. J. W. Jennings, and the pastors of the Omaha churches attended the funeral, so the management of the laying of the cornerstone of the church was placed in the hands of Rev. A. A. Luce, the pastor.

A large number of the members of the conference went to the grounds where the services were held, and Mr. Luce, officiating, read the ritualistic service. Addresses were made by Dr. Claudius B. Spencer of Kansas City and Dr. H. C. Jennings of Chicago. Then followed the formal laying of the stone. In the stone was placed a box containing the names of the paster and the official board of the church and copies of the religious papers of the current date. on the site of the one destroyed by the ity Methodist church, Rev. Library Board Waits for City Council to Issue Bonds.

WANTS AMOUNT OVER PRICE OF SITE

Funds from Mr. Carnegie to Put Up the Building Are Expected in Near Future-Magie City Gossip.

The propositions before the new council are numerous. Among some of the important ones is the action on the request of the City Library board. The members of the old city association yesterday turned into the treasury a little over \$2 in cash and a lot of books. These books have been removed from Stott's to a room in the Murphy block. Now the board wants the city council to go shead and fix up its bonds so that there will be a little leeway over the purchase price of the site. A fund of \$500 is asked for. This is to be used, so it is asserted, by President McCulloch to lay a permanent walk and sod the grounds about the building, when it is completed. More than likely the new council will grant the request of the board for the additional issue of bonds, as it comes within the limit voted by the people last November. It is further asserted that the bonds can easily be sold for 5 per cent, even

though they be of so small an amount. There seems to be a desire on the part of the people to get busy and secure a library Long school at Twenty-sixth and Franklin since the donation from Mr. Carnegie is streets was toppled over at 3 o'clock just ready and waiting. Wants Brick Building.

In case the fire hall in the Fourth ward is rebuilt Mayor Koutsky favors the erection of a brick building. This he considers a better investment than putting quite a sum of money into a frame structure. Insurance adjusters have been over the property destroyed and the opinion among them seems to be that the fire was of incendiary origin. There is a possibility that the insurance company will request the privilege of restoring the building. This matter, it is understood, will be taken up with the city authorities at an early date. While the city carried \$1,500 insurance on the building the adjusters figure that the city is not entitled to more than \$1,000. It may be that the city officials will prefer curred at the Hanseem Park Methodist to take this amount of money and use it thurch at 11 yesterday morning, in the toward the construction of a substantial presence of a crowd of friends and rela- brick building of smaller size than to pertives which taxed the capacity of the audi- mit the shaky walls still standing Rev. After the city council had, at its meeting Monday night, designated the three national banks of the city as depositories, Frank Koutsky turned over the books of the city to Mr. Howe. Immediately following this action a letter was sent to the surety company, and a reply is expected today. The funds are ready to turn over at any time. There will not be so much money in the city box, as when Broadwell turned over the funds to Koutsky, for the reason that from Phelps to Central boulevard, and one the Kelly administration was reputed to be extravagant and spent more money than is Twenty-fourth street, from Vinton north the allotted portion. Only about \$15,000 drill was the whole show. At the meeting of the hus city funds, while there is little if any money avenue, from North boulevard west, and to turn over on account of the school disof bond.

Koutsky Establishes Headquarters. Mayor Koutsky, when he turned the pooks of the city treasurer's office over to the newly elected treasurer, yesterday, ancounced that he would establish his office in the building where Former Mayor Kelly had his. These rooms are on N street and convenient to the city offices. They have been used by two former mayors and are considered the most desirable quarters available at this time.

Attorney Murdock Stavs.

City Attorney Murdock has given it out that he will retain the offices he occupies at present in the Glasgow block. He has been authorized to employ a stenographer and will be supposed to look after the legal interests of the city from this time on regardless of the cases he has against the nunicipality. It is understood that the refusal of the council to confirm the appointment of Leigh, as assistant city attorney, was because Mr. Murdock desired that Mr. Lambert finish up the cases in court

Building Operations Delayed While a great deal of building is contemplated in South Omaba this summer, there is a delay in commencing operations on account of the scarcity of brick. Just now brick in the local yards are held at \$8.50 per thousand. It is stated that by the middle of May, when the new crop is ready for delivery, that the price will be reduced

to about \$6.50. Those who are planning to

erect buildings say that they will not commence work until the price of brick comes down.
