LONDON, April 26.-4 p. m.-Closing:

CONDITION OF OMAHA'S TRADE

All Lines of Business Felt the Effects of Last Week's Unpleasant Weather.

PRICES FIRM WITH TENDENCY UPWARD

Extensive Preparations Being Made for Fall Trade by Local Jobbera and Liberal Advance Orders Now Coming Forward.

Most lines of business in Omaha and surrounding territory have not been as active for the last several days as might be The principal reason is doubt less the lack of pleasant weather, which has kept shoppers at home. When retail trade is quiet wholesale business is bound to be affected, so that jobbers as well as nanufacturers are looking anxiously for more pleasant weather. In a great many localities farmers are beginning to need rain badly and there is some tendency on the part of retailers to hold up their orders until they see more favorable conditions.

As a rule, though, merchants are not at all As a rule, though, merchants are not at all worried about the future, but, on the contrary, are looking forward to a very profitable and busy season. Taking everything into consideration, trade with retailers so far has been of very satisfactory proportions, and, that being the case, they naturally figure that when settled weather does arrive they will do a rushing business.

So far as the markets are concerned, there have not been very many changes in ruling quotations during the week under review. Prices seem to be firm all along the line and most of the changes that have taken place have been in the direction of advances. Everyone seems to be looking for firm, active markets for some time to come and on a good many lines there is a marked tendency, both among retailers and jobbers, to anticipate their wants far into the future.

Tobacco Tax Reduced.

Tobacco Tax Reduced.

Wholesale grocers are calling the attention of their customers to the fact that on July 1 the Internal revenue on plug and smoking tobacco, as well as on snuff, will be reduced 25-10c per pound. This reduction will bring the tax down to 5c per pound on all manufactured tobacco. The Continental and American tobacco companies announce that there will be no change in the style of their goods after July 1. but prices will be reduced 2c per pound. The United States government will protect holders of stocks that amount to 110 or more where the stock is in unbroken packages. In order for retailers to take advantage of this rebate it will be necessary for them to have a stock of about 29 pounds in unbroken packages. As the reduction in the price of tobacco after July I will amount to only 2c per pound, while the rebate from the government amounts to 36-10c, the profit to the trade will be 16-10c per pound. Jobbers report that retailers are already beginning to stock up heavily and an enormous trade is expected from this time until July 1.

The sugar market is in just about the same position it was a week ago. The market may be quoted strong at the quotations and an advance is looked for at most any time in view of the fact that the period of heavy consumption is now close at hand.

Dried fruits are moving out very rapidly and especially is that true of peaches. It is predicted that an advance will take place on almost the entire line. There is also a good lively demand for canned goods of nearly all descriptions, but there have been no changes in prices during the last several days.

days.

Owing to the high price of corn, syruphas again advanced and the market is firm has again advanced and the market is firm at the higher prices.

The rope market is still going up rapidly because of the advance in the raw fibre. The advances are affecting both sisal and Manila rope. The recent advances in raw cotton have also caused higher prices to rule on cotton lines and twine.

There is practically no change to report in the coffee market, as prices are just about the same as they were a week ago. The market is fluctuating back and forth through a narrow margin, but it cannot be said that the market is either higher or lower than it was a week ago. The demand for coffee is light, according to reports received from the cast.

Strong Cotton Goods Market.

Strong Cotton Goods Market. The cotton goods market still remains in The cotton goods market still remains in a very strong position. Orders are being placed freely by both jobbers and retailers for heavy cotton goods for later shipment. It is being freely predicted by those who are in a position to know that all lines of roles goods will be on a higher basis at no

plain goods will be on a higher basis at no very distant date.

So far as the trade situation is concerned local jobbers have no complaints to offer. House trade has, of course, been quiet, the same as usual at this time of year Mail orders have been light, but quite numerous. Betailers complain to some extent about the lack of pleasant weather to enable their customers to do some shopping and at the same time they want rain. The complaints, though, are not serious and practically everybody is looking for a brisk demand to set in within a very short time.

not serious and practically everybody is looking for a brisk demand to set in within a very short time.

In order to close out their stocks and many room for fall lines local jobbers have made some reductions in prices which have given them considerable immediate business in wash goods. Omaha retailers have taken advantage of this opportunity and have made some heavy purchases at the reduced prices.

Very extensive preparations are being made by local houses for fall trade and as a result they will have larger and more complete lines than ever before. Advance orders for fall on all lines of goods, including Cantons, Domets, blankets, hosiery, underwear and dress goods, have been larger and more numerous than ever before this early in the season and if the cutlons for crops continues favorable it is thought that sales will far exceed all previous records. The success that jobbers met with last year in handling cloaks has warranted them in carrying a much more extensive line this season than last and large orders are already being placed.

Good Demand for Hardware.

Hardware jobbers experienced a good brisk trade last week for all seasonable lines of spring goods and in fact they had about all the business they could comfortably handle. The demand did not run to any one line, but was general for all classes of staple goods. There is, of course, a scarcity in a good many lines, but Omaha houses are pretty well supplied in most lines so that they are able to give their customers good service.

The wind and dust of last week had a very bad effect on the paint trade and some dealers say that it cut a big hole in their business. This is the height of the paint scason, so that dealers feel the effect of the unfavorable weather to a marked degree. They think however, that they will do fully as much business in the end and that this is only a temporary lull. The market on all staple lines of hardware remains just about the same as it was a week ago. The feeling is firm all along the line, but there have been no quotable changes worthy of mention. No very sensational developments are looked for for some time to come and most jobbers predict just a firm, active market for an indefinite length of time.

Weather Too Cold.

Weather Too Cold.

There has not been enough warm weather as yet to make spring lines of footwear move out with much rapidity. Most people are still wearing their winter shoes, but retailers say that it will only take a couple of warm, pleasant days to make trade very brisk. The fact that low shoes will be worn more than ever before naturally has a tendency to delay buying, as men in particular will not put on a new pair of low shoes as early as they would a new high shoe. No complaints are heard though, for each week shows an improvement over the preceding week, and both jobbers and retailers are confident that the trade is coming and that is only a question of time. Sizing-up orders are coming more rapidly with jobbers and within ten days they predict there will be a big improvement in that line.

Fall orders are also coming in very freely and the way things look now jobbers will have more on hand this year than they did last and that is saying a good deal.

The rubber trade is, of course, quiet owing to the fact there has been so little rain. Jobbers are still houng for weather. Weather Too Cold.

deal.

The rubber trade is, of course, quiet owing to the fact there has been so little rain. Jobbers are still hoping for a week or two of rain, which will give retailers a chance to unload what stock they have on hand, as well as make them buy more. Fruits and Produce.

There has been a marked improvement in the demand for fresh fruits and vegetables during the last few days. The supply of green stock has increased a good deal, but the quotations have not been reduced much owing to the fact that consumption has increased about as rapidly as the suppir. Strawberries are selling at about the same prices they were a week ago. The stock that arrived last week was not very choice, but a big improvement is looked for this week.

ceek.

Green peas, wax beans, rhubarb, radiahes, ettuce and all such lines are in good supply and are selling freely at the quotations given in another column. siven in another column.

The egg market is in much the same position it was a week ago. Prices have invered right around it and fith cents and occasionally reached is cents. The poultry market has eased off a little in view of the limited demand and liberal supply. The

butter market has also taken a drop because of increased receipts. OMAHA WHOLESALE MARKETS

COMMERCIAL AND FINANCIAL

Bullish Factors Prevail and Grains Partially Gain Back Recent Losses.

PROVISIONS DEVELOP STRONG MARKET

Packers Support that Trade and Push Prices Up, but Cereal Business Loses Outside Patronage by Poor Wire Service.

CHICAGO, April 28.—Wheat experienced a hormal reaction from yesterday's bad slump and with numerous builish factors behind lent its strength to other grains. Trade was not heavy, but July wheat closed %c higher, July corn 'ac higher and July oats '40%c higher. Provisions gained 12%c to 15%c.

Deficiency of moisture in Kahsas and almost freezing temperatures in many parts of the wheat beit was enough to start wheat upward at a good pace at the opening of trade. To augment the strength cables were firmer than had been expected and receipts both primary and northwestern were small. Inasmuch as the shortage in receipts has been apparent for some time and comparisons have been made against a short-crop year, the bears became discouraged again and shorts covered freely. Excepting rains, every argument was in favor of the buils. Traders were of the opinion that it takes something more than a rain or two to make a harvest. After the initial upward impulse trade was quiet for a time prices fluctuated weakly. Concerning kansas Bradstreet's had a special report saying a three-fourths yield at the best and @ percent probable was to be expected. Weather forecasts had a bad effect. Frosts were predicted in many of the western states and in just the places where warmth is most necessary. Then came the report of seaboard clearances of \$15,000 bushels, exceptionally large and of a fair outlook for export business with France. Prices worked up, trade became more active and the greater part of yesterday's loss was regulated. July opened Mc to 4c higher at \$24,000 to 186 cars, against 181 last week and 348 a year ago. Australian shipments were only 152,000 bushels, against 576,000 bushels, compared to 446,000 bushels last year.

Brokers on corn reported the lightest trade in that pit for Saturday in many weeks. One explanation was the bad wire. CHICAGO, April 28.-Wheat experienced against 556,000 bushels last year. Primary receipts were 215,000 bushels, compared to 445,000 bushels last year.

Brokers on corn reported the lightest trade in that pit for Saturday in many weeks. One explanation was the bad wire service on account of the storms, which almost shut off outside trade. Another cause was the hard jolt speculators received yesterday and which they had hardly gotten over today. What argument there was favored the bulls. Wheat strength and firm cables aided in an early upturn, but prices were very narrow most of the session. Speculative offerings were very light and consequently there was little selling pressure. The cash demand was good and southwest was very bullish. St. Louis reported good cash sales and more desired than could be obtained. In general corn was without feature, save its strength. July sold between 645g0635c and closed firm, he up at 53%c. Receipts were 94 cars.

closed firm, \(\frac{1}{2} \) up at 63%c. Receipts were 94 cars.

After a firm opening in oats in sympathy with the strength in the other pits there was a momentary selling pressure due to the recent heavy rains and their effects on the sown oats. When this pressure was removed there was some response to light demand and prices advanced. July (new standard) sold between 37\(\frac{1}{2}\) 637\(\frac{1}{2}\) c and 37\(\frac{1}{2}\) c and closed firm, \(\frac{1}{2}\) 63\(\frac{1}{2}\) c are 13\(\frac{1}{2}\) 63\(\frac{1}{2}\) c. Receipts were 13 cars.

Trade in provisions was largely local because of wire service. At the start the grain improvement and a steady hog market reduced buying, which (even as hog prices weakened) continued to improve. There was a momentary disposition to sell on the hog situation, but a very good packers' support developed a strong market. Pork was in best demand, but lard was also wanted. Trade in general was dull. July pork closed 17\(\frac{1}{2}\) c higher at \$47\(\frac{1}{2}\) c in the 12\(\frac{1}{2}\) c up at \$10.07\(\frac{1}{2}\) and July ribs 12\(\frac{1}{2}\) c higher at \$47\(\frac{1}{2}\).

Estimated receipts for Monday: Wheat, 25 cars; corn, 125 cars; oats, 205 cars; hogs, 32,000 head.

140 Small Hopes
Standard

METALS—Trade in all departments was slow today; prices were unchanged. Tin on spot closed at \$27.90; copper was steady, with lake on spot at \$11.5052.20; standard copper for ffmediate delivery was quoted at \$11.00521.25; for June and July delivery at \$11.50512.50; lead was steady and unchanged; spelter ruled steady at \$4.424; Iron was firm and unchanged. LONDON, April 25.—Money was at 24/2 per cent today. There was a better supply and the demand was less pronounced. Business on the Stock exchange was quiet, and there was a cheerful undertone. The settlement was concluded without any discipance of difficulties. Public interest in most departments seems to have broadened. High class securities were easier. Americans opened irregular and grew firmer. Southern railway was the feature. Rio tintos, with copper, were generally hardes. Kaffirs were nrm, with fair inquiry. It was eaid the big houses were taking all the shares offered. Gold premiums are quoted: At Buenos Ayres, 143.16; at Madrid, 27.67. The amount of bullion taken into the Bank of England on balance today was £75.69.

NEW YORK, April 26.—Today's stock market was rather quiet and gave very little evidence of the activity of the large speculative forces which have kept up the animation of the market during the week. New York was the only sympathetic influence on the stocks of subdiary or allied companies. The 12 point rise in New York, New Haven & Hartford was supposed to have some connection with the stocks. 75,000. PARIS. April 26.—Three per cent rentes, PARIS. April 25.—Three per cent rentes, 1007 90c for the account. Exchange on London, Br 1835c for checks. The officia? list of stocks on the bourse weakened today. Kaffirs were firm throughout. Italians henefitted by a good demand, resulting from the news that the Italian Chamber of Deputies approved the issue of a new 25 per cent stock. The private rate of discount was 23 per cent.

BEBLIN. April 26.—Prices on the bourse today opened weak, influenced by lower Vienna prices and the British war secretary's statement regarding the peace pros-There were sharp advances in a number of industries and specialties which had no apparent connection and were not explained by any news development. no apparent connection and were not explained by any news development. The bank statement proved closely in accord with yesterday's preliminary estimates and was accepted as favorable, but the attempt to make realizing sales on the expectation that demand for stocks would be attracted by the statement found a yielding market and prices were carried downward in many important stocks to below night's level. Yesterday's support for the United States steel stocks was lacking and those stocks were heavy throughout. The grangers seemed somewhat affected by the firmer tone of the grain markets. There was no sequel to the late spurt in Southern railway and that stock sagged until the close. The closing generally was active and easy.

The session of the committee having in hand the attempted settlement of the anthracite miners demands was a repressive influence on speculation, but the tone of the market seemed chiefly due to the disposition of operators to take a whole holiday instead of a half day after the considerable activity and excitement of the week.

Speculative and convertible bonds have been very active, moving in avanced. Vienna prices and the British war secre-tary's statement regarding the peace pros-pects in South Africa, which helped to depress prices. Toward the close there was a firmer tendency on bear covering in view of the week-end.

Bank Clearings.

OMAHA, April 26.—Bank clearings for the week ending today show an increase of \$355,980.00 over those for the corre-sponding week of last year. The daily figures are:

* Indicate Sunday. YESTERDAY'S SHIPMENTS The following list shows the number of cars of feeders shipped to the country yes-terday and their destination: Cars.

Car
N. D. Howell, Newcastle, Wyo.—B. & M..
Fred Larson, Pender, Neb.—M. & O...
C. Bwanson, Pender, Neb.—M. & O...
C. Swanson, Pender, Neb.—M. & O...
C. C. Maryott, Bancrott, Neb.—M. & O...
J. G. Fiarrington, Waterloo, Neb.—U. P..
C. J. Hysham, Georgia, Neb.—F. E..
C. W. Grunke, Beemer, Neb.—F. E..
Charles May, Fremont, Neb.—F. E..
O. Mosher, Walbut, Ia.—R. I...
Edward Handke, Underwood, Ia.—Mil.
George Pugsiey, Woodbine, Ia.—I. C...
The official number of cars of stochrought in today by each road was:
C. M. & St. P.
Cattle, Hog Cattle, Hogs.

C., M. & St. P..... O. & St. L.
Missouri Pacific
Union Pacific System

The disposition of the day's receipts was as follows, each buyer purchasing the number of head indicated:

Cattle. Hogs, Sheep.

The Company of the Co

SHEEP—There were no sheep on sale this morning, so that a test of the market was not made. For the week the receipts have been exceedingly light, a big decrease being noted both as compared with last week and also with the corresponding week of last year. The demand has been in good shape all the week, so that prices have advanced. The better grades of both sheep and lambs may safely be quoted 102180 higher and that applies to both clipped and wooled stock. The top on clipped lambs for the year was \$6.40, paid this week, and clipped wethers sold as high as \$6.25, which is also the top price of the year. While some of the offerings were choice the great bulk of the receipts on several days was of rather inferior quality.

Very few feeders are coming forward, but whenever a bunch does arrive it sells at very satisfactory prices.

Quotations for clipped stock: Good to choice lightweight yearlings, \$6.007.55; fair to good, \$5.7506.00; good to choice wethers, \$5.006.20; fair to good, \$5.7506.15. Wooled stock Sells about 2506.00; good to choice cwes, \$5.006.25; fair to good, \$5.7506.15. Wooled stock Sells about 2506.00; good to choice Colorado wooled lambs, \$4.506.00; fair to good, \$5.506.50; good to choice colorado wooled lambs, \$4.506.00; fair to good, \$5.506.50; good to choice Colorado wooled lambs, \$4.506.00; fair to good, \$5.506.50; (sof to good, \$5.506.50; fair to good, \$5.506.50; foir to good, \$5.506.50; fair to good, \$5.

CHICAGO LIVE STOCK MARKET.
