

ON TRAIL OF BEEF TRUST

William A. Day, Assistant to Attorney General Knox, Arrives in Chicago.

INUNCTION IS NOT READY TO FILE

Matter Placed in Hands of District Attorney Betha and Methods of the Packers to Be Subject of Inquiry.

CHICAGO, April 26.—William A. Day, assistant to Attorney General Knox and special counsel to the Interstate Commerce commission, arrived in Chicago today to confer with District Attorney H. H. Betha relative to taking action against the so-called beef trust.

Mr. Day said he did not bring with him the application for an injunction which the attorney general has ordered filed against the packing firms of Armour & Co., Swift and Company, Nelson Morris & Co., the G. H. Hammond Packing company, the Cudahy Packing company and the Schwarzschild & Sulzberger company.

Further he said no bills would be filed by him today. The matter of the investigation, he said, had been placed entirely in the hands of District Attorney Betha.

Attorney Day said: "I want to correct a misconception of my position in this case. I am here merely as the representative of Attorney General Knox. District Attorney Betha is to have sole charge of the prosecution. I have no authority to direct any action, but merely to convey to him certain instructions of his superior in Washington as to the outline of the bills.

He also has brought some additional evidence which I secured in New York. This will be used by him and will be used to supplement his proof of the existence of the trust. I do not think the bills will be drawn hurriedly, for they must stand the severest scrutiny of some of the best corporation lawyers.

Care Will Be Taken.

For this reason care must be taken to withstand the assaults of a demurrer. I have no authority to say anything concerning the evidence I have secured. It is sufficient to state that the attorney general has approved of the proofs secured by Mr. Betha and myself and unless he can obtain the evidence in Washington as to the application for injunction under the Sherman law, he will not have ordered the prosecution started at this time.

As soon as the bills are ready for filing notice will be sent to the defendants. Thirty to fifty days will be allowed to file answers or demurrers. It is stated authoritatively that the center of the government's action against the packers will be Chicago and if any bills are to be filed at New York it will be later.

WASHINGTON, April 26.—Second Vice President J. A. Hoffman of the Retail Butchers' and Meat Dealers' Association of America, said today that the officers of that association will be called to Washington to assist in any investigation the government may desire to make in the beef trust question. He said the attorney general can get all the information against the beef trust he wants without going beyond the city.

CARMACK ON ANXIOUS SEAT

Tennessee Senator Displays Solicitude for Filipino in Attack on Administration.

FINALLY COMPLETES HIS SPEECH

Hopes Philippines Will Have Better Government Than United States Had After War and Therefore Offers Amendment.

WASHINGTON, April 26.—Mr. Carmack of Tennessee, in the senate today, completed the speech on the Philippine government bill which he began yesterday. He continued his exceedingly caustic criticism of the administration's policy and the ultimate end to which it would lead, and concluded by expressing the hope that the administration would turn from the "bloody gospel of the strenuous life" to the path of peace.

The earlier portion of the session was devoted to routine business. Mr. Jones of Nevada, chairman of the committee on contingent expenses, reported favorably the resolution of the committee on relations with Cuba, providing for an investigation by that committee of the alleged control of the Cuban sugar crop and sugar lands in Cuba. Mr. Teller of Colorado, who had introduced the resolution, said it was not what he wanted entirely and was not what he thought ought to be passed.

Teller Corrects Report.

Mr. Teller said that he desired to deny that he had ever said that the Colorado sugar producers were willing to have the duty taken off sugar. He made this statement in view of such a remark having been attributed to him by a witness before the ways and means committee. He would not object to a reduction of the duty on sugar, he said, if there also were a proper reduction on other things.

Platt Reports on Exclusion.

Mr. Platt of Connecticut presented a conference report upon the Chinese exclusion bill, asking that the senate disagree with the report and insist upon a further conference. He explained that the only point of difference between the conference of the senate and the house was that the house conferees asked the senate conferees to eliminate from the substitute passed by the senate that portion which provides that the present Chinese exclusion law be extended through the life of the present treaty and remain in force until another treaty shall have been negotiated.

Mr. Platt's motion that the senate insist upon its amendment was agreed to. Messrs. Platt, Dillingham of Vermont and Clay of Georgia were named as conferees on the part of the senate.

Bills were passed to authorize the issue of three duplicate gold certificates for \$10,000 each to the collector of customs of Hawaii in lieu of three similar certificates lost in the wreck of the steamer Rio de Janeiro; to provide that the circuit court of appeals of the Eighth judicial circuit shall hold at least one term of court each year at Denver, Colo., or Cheyenne, Wyo.

Carmack Renews His Attack.

At the conclusion of morning business Mr. Carmack resumed his speech on the Philippine government bill, which he began yesterday. By the terms of the pending bill he said the collector of customs of the Philippines, who lived and browsed there in order to raise wool for others to wear, and mutton for others to eat.

"If the carpetbag government you propose to establish in the Philippines," he cried, "is not a thousand times better than that which you established in your own country after the civil war, Lord God have mercy on the people of those islands."

In the course of his remarks he called attention to a report that an American her trees in Mindanao was raising rubber for the datus for slave labor and he had read an amendment, which he proposed to offer, prohibiting the granting of any franchise to persons or corporations which proposed to employ slave labor. He asked Mr. Lodge if the amendment would be agreeable to him.

"I cannot speak for the committee," replied Mr. Lodge. "For myself it is perfectly agreeable." He then gave notice of an amendment.

he would offer to prevent the entry of the Philippines as states in the Union, and asked for Mr. Lodge's opinion, but the latter declined to reply, categorically saying he would answer in his own time in his own way.

Mr. Dooliver of Iowa asked Mr. Carmack to define his own opinion, having first intimated against holding the islands in "perpetual despotism," and being now so solicitous lest they be admitted as states. Mr. Carmack responded that his own position was clear. While the carpetbaggers and advisers of the administration were getting control of the islands, he said what the government provided in this bill would be just what they wanted. When they had everything they wanted he said they would clamor for American markets and American statehood.

WASHINGTON, April 26.—The house today, after devoting an hour to the passage of bills, by unanimous consent suspended public business and for the remainder of the afternoon listened to tributes to the memory of the late Representative Stokes of South Carolina, who had introduced the alleged control of the Cuban sugar crop and sugar lands in Cuba.

Worthy of Consideration. An editor's opinion is always worthy of consideration, for he is accustomed to giving a matter due consideration before expressing his ideas of it. David R. Forbes, editor of the Sun, Quarryville, Pa., says: "The name Chamberlain is synonymous with everything that is good. Chamberlain's Cough Remedy I can particularly endorse, having used it myself quite frequently with the best results, whenever bothered with a cold."

JURY BRIBING CASE IS UP

Indictments Are Filed Against Seven Men Charged with Conspiracy.

PROMINENT ATTORNEYS AND OFFICIALS

Bills Are Returned in Judge Dunne's Court as Result of Alleged Corruption in Transfer Warfare.

CHICAGO, April 26.—Indictments for conspiracy in relation to the jury bribing scandal in the transfer warfare in Justice Wood's court against the Union Traction company were returned against seven men today in Judge Dunne's court. Among the more prominent men against whom true bills were voted are Patrick H. O'Donnell, public administrator and attorney in the transfer case for the traction company, and James T. Brady, his law partner.

The other men indicted are: John O'Donnell, brother to Patrick H. O'Donnell and special agent in the traction cases; Sam L. Lawrence, member of the jury which decided a transfer suit in favor of the traction company in three minutes; Herbert Rothery, venemur, called for jury service in Justice Wood's court and excused; William Gallagher, promoter, and Cyrus S. Simons, alleged "go-between" in the selection of jurors.

Bills also were returned against the following named men for co-conspiracy, although they are not named as defendants and will only serve as state's witnesses: Homer Michaels, juror; W. F. Sheridan, juror; Clark Rolfe, W. R. C. Jones, constable.

The evidence on which State's Attorney Dunne secured the indictments was first brought to the notice of the Municipal Voters' league by Herman Greene, who alleged that Gallagher approached him with a view to bribing a jury. The Union and Consolidated Traction companies were to be sued for not granting transfers into the suburb of Austin, as had been filed by another court. Over five hundred suits were started, of which two have been tried and decided in favor of the companies.

Greene's story told of several meetings between the men who have been indicted, of pins stuck crosswise in the laps of the coats of the men to be selected by the constable and of quick and corrupt verdicts.

Victory rests with the employees, who are conceded all their principal demands. The United Railroads have granted an advance in wages, a ten-hour day and in a measure recognized the carmen's union.

On the question of unionism the agreement provides that the company will maintain such regulations as will enable full attention to be given to all complaints to be made directly by its employees will cause prompt investigation to be made of such complaints, and when it discovers the same to be well founded will rectify any wrongs found to exist. It will not, however, deal in matters involving the management of its own affairs with other than its own employees or committees thereof. The company recognizes the right of every person to belong to or refuse to belong to a labor union and it will discharge no employee because of his connection with such a union.

The company agrees to pay a flat rate of 25 cents an hour or 23 1/2 cents an hour, together with a bonus for long service as that which it has been paid. A rate of 50 cents per hour will be paid for overtime. All runs are to be finished within fourteen hours from the time of commencement. The employees are to be allowed full liberty when off duty.
