Seasonable Fashions.

4054 Tucked Blouse Waist, 35 to 40 Bust. 356 Tucked Skirt, 22 to 30 Waist.

A Dainty Afternoon Gown—(Woman's) Tucked Blouse 4054—Tucked Skirt with Plouge 3526—Embroidered albatross with among the season's novelties and makes charming gowns for afternoon wear.

The waist is made over a snugly fitted lining and closes at the center back, the front is tucked at the upper portion to give a pointed yoke effect, and again at the waist to simulate a pointed bodice, but the backs are tucked for their entire length and give a tapering effect to the figure.

The skirt is cut in seven pieces and is laid in three narrow tucks at each front and side seam, the fullness at the back being laid in an inverted plait. The flounce is tucked at the upper edge, but falls in graceful folds as it approaches the hem.

To cut this gown in the medium size 14 yards of material 21 inches wide, 13 yards 27 inches wide, 10 yards 32 inches wide or 7 1/2 yards 44 inches wide will be required. To cut the waist along 2 yards 21 inches wide, 2 1/2 yards 27 or 32 inches wide or 2 yards 44 inches wide. To cut the skirt along 1 1/2 yards 21 inches wide, 10 yards 27 inches wide, 8 yards 32 or 5 1/2 yards 44 inches wide.

The waist pattern, 4054 is cut in sizes for a 32, 34, 36, 38 and 40-inch bust measure. The skirt pattern 3526 is cut in sizes for a 22, 24, 26, 28 and 30-inch waist measure.

For the accommodation of the Bee readers, these patterns, which usually retail at from 25 to 50 cents, will be furnished at a nominal price, 10 cents, which covers all expense. In order to get any pattern enclosed 10 cents, give number and name of pattern wanted and bust measure.

NEW DIVISION IS PLANNED

Rock Island Lines West of Missouri River to Be Reorganized.

It was learned yesterday that the present eastern division of the Chicago, Rock Island & Pacific railroad west of the Missouri river is to be divided into two divisions, the change to date from May 10.

That means a new division, the plan for the extra division, and this place will probably go to Mr. Burling at Fairbury, Neb., now assistant superintendent of the present eastern division under Division Superintendent Jones at Horton, Kan.

The eastern division comprises the line from Council Bluffs to Philippsburg, Kan., from Kansas City to Topeka, from St. Joseph to Harrison, Kan., from Horton, Kan., to Fairbury, Neb., from McFarland, Kan., to Belleville, Kan., and from Fairbury, Neb., to Nelson, Kan.

The new division will embrace all the lines named except that between Council Bluffs and Philippsburg and between Fairbury and Nelson. The reason for the change is that the present size of the eastern division makes it unwieldy. No change in any operating headquarters is anticipated.

MILLER RETAINS MAJORITY

Has Thirty-Eight More Votes Than Unit at Close of Second Re-count.

H. C. Miller, the democratic incumbent, was unofficially announced to have a majority of thirty-eight when the second re-count of ballots cast at last fall's election for county clerk was completed in Judge Baxter's court yesterday. The official returns gave him a majority of thirty-two over Charles Unit, republican, and the first re-count, which was in county court before Judge Vinsonhale, gave him twenty-five. As the Unit's attorney has excepted to the counting of forty-eight votes cast by voters whom Unit alleges are non-resident and made false affidavits. There will be evidence and argument on this Monday and Tuesday.

CO-OPERATIVE HOME BUILDING

Program for Meeting of State Building and Loan Association League at South Omaha.

A program of seventeen numbers has been prepared for the eleventh annual meeting of the Nebraska State League of Local Loan and Building associations, which will be held in South Omaha on Tuesday next. The meeting will be held in the city council chamber, beginning at 2 p. m. Among the papers prepared for the meeting are: "Co-operative Homes," by Hon. E. Royle, secretary of the State Banking board; "Should Building and Loan Associations Advertise?" by C. W. Brinkman, Grand Island; "Mutual or Trust Savings Banks," by L. Hall, Lincoln; "Torrans System of Transfers," G. M. Nattinger, Omaha; "Term Life Insurance Pol-

icies as Collateral," Howard Kennedy, Jr., Omaha; "Rogus Home Companies," T. J. Fitzmorris, Omaha; "Some Late Building and Loan Decisions," Hon. A. H. Murdoch, South Omaha.

Some of these papers cover topics of immediate interest to association people, and will doubtless provoke considerable discussion. Much routine business will come up for action, including the election of officers and the selection of delegates to the July convention of the United States League. Reports of delegates chosen to attend the meeting insure a representative gathering of homemakers. The meeting will be open to the public.

HEAVY INCREASE IN MONEY

Over Three Millions Gain Reported for the Week by Gotham's Associated Banks.

NEW YORK, April 26.—The New York Examiner this week says: The official statement of the New York associated banks for last week showed an increase of \$3,255,506 in cash, of which \$761,600 consisted of specie and \$2,553,900 legal tenders.

This increase of cash is only \$811,200 below that which was estimated from the traceable movements of money during the week, the estimated sum being \$4,131,600. In the previous week there was a difference between the estimated and the official gain of \$1,173,900, the latter being \$660,100, while the former was \$2,134,000. This wide difference, it was then believed, indicated that the statement was made on rising prices, which belief it now appears was most likely correct. Therefore it would seem that the bank returns of last week reflected actual conditions as regards cash more closely than has been the case.

The cash movement was well distributed throughout the week, money coming from nearby points in fair amounts each day, attracted by the opportunities for employment in the New York market, and it seemed to be evident that the monetary tide had quite decidedly set toward this center not only from neighboring cities, but from all parts of the country. The loans were decreased \$1,097,300, making \$13,825,300 since April 12, inclusive, during which period stock transactions were in large volume.

The reduction in loans last week appears to reflect continued conservatism of a part of the banks. The requirements of stock commission houses have been largely met with offerings from country bankers in the West, who have loaned the balances with their New York correspondents, also stock exchange borrowers have been enabled to obtain all the money they needed elsewhere than from the local banks or trust companies.

The deposits were increased last week \$7,112,400. The statement is therefore out of harmony, the gain in cash less the loss in loans calling for an increase in deposits of \$2,228,200. The required reserve was augmented by \$443,100, which amount, deducted from the gain in cash of \$3,255,500, leaves \$2,882,400 as the increase in surplus reserve. This item now stands at \$9,461,050, against \$8,759,775 at the corresponding date last year.

The cash changes by individual banks were comparatively small during the week. Nine Wall street institutions showed a net gain of \$12,200,000, two of this number indicated an increase of \$4,100,000 and one showed a decrease of \$1,400,000. The net changes for the week were nearly \$2,000,000, an increase of \$399,710,010.

CONSPIRACY IS CHARGED

Suit Filed Throwing New Light on Colorado Dynamiting Out.

DENVER, April 26.—A suit has been filed in Hinsdale county, which, it is said, throws new light on the dynamiting outbreak, near Lake City, in March, 1899.

T. J. O'Donnell and George D. Barkwell, attorneys for the Hidden Treasure Mining company of Hinsdale county, are the plaintiffs and P. F. McCarthy, defendant. Damages in the sum of \$50,000 are demanded, the allegations being, in brief, that McCarthy instigated the riot and strike and concealed the state's arms, in a conspiracy to force Charles E. Deery and company in the Hidden Treasure Mining company to part with their interests at less than their real value.

STEAMER INDIANA BURNS

Threatened with Destruction by Fire in Its Dock at Milwaukee.

MILWAUKEE, Wis., April 26.—At 2:40 p. m. the steamer Indiana of the Goodrich line was discovered on fire at its dock here. Three alarms have been turned in and the fire is threatening.

FOR TWO MILES OF SEWER

Board of Public Works Gives J. P. Connolly Five-Thousand-Dollar Contract.

The Board of Public Works has awarded \$5,000. A part of this is twenty-inch main sewer on the line of the proposed Central boulevard, and will extend from Thirty-fifth and Leavenworth streets south to Mason street, thence east to Thirty-fourth, thence south to Poppleton avenue.

Sanitary sewers, made up of twelve, ten and eight-inch pipe, will be laid in sewer districts 274 and 270. In the first named district the sewer will extend from Dorcas street to Castellar on Eighteenth street, and in the second north on Twenty-fourth street from the north line of the viaduct to Marcy street.

Work on these improvements will begin as soon as the contractor has perfected his bond. The three contracts will involve about two months' work.

Railway Notes and Personals.

Martin Maud, traveling passenger agent of the White Star line at Chicago, is in Omaha.

G. W. Entrikin, division freight agent of the Washburn road, has returned from a trip to the north end of the line. The principal part of the ground of southwestern Iowa and northwestern Missouri in perfect shape for the wheat and stock raising industry in that section.

A group of prominent Chicago & North-western officials went through Omaha Friday with the New England club women, to inspect the new passenger car, designed by J. L. Ferguson of Chicago, Northeastern Passenger Agent J. E. Britton of Boston and General Eastern Agent H. A. Gross of New York City.

Illinois Central train No. 1, westbound from Chicago, was three hours late in Omaha yesterday because of a freight train which was stuck in a mud bog, just the other side of Freeport. When No. 1 reached there at 9 o'clock Friday night it found the track blocked and was compelled to wait over some hours before the line was open. The train is due here at 4:30 p. m., but did not arrive till 11 o'clock.

Friday night's storm caused great distress and much delay in the different railroad yards here. It endured during the period when many trains were made up and it was almost impossible to accomplish anything till it had stopped. The engine-traction were compelled to wait and again to seek the engine and to make up the train, the stalling wind and rain. One engineer was killed and three men were injured, which he helped to make up during the storm and which took an hour and a half to get together.

Superintendent Pearce reports "pinkeye" as quite prevalent in the city schools. The cases, far from being serious, are easily cured, especially if the patient is kept in bed and the eyes are kept open. The principal symptoms of the disease are red, inflamed eyelids and eyeballs, accompanied by an irritation of the lacrimal glands.

The insurance company in which the city recently insured the emergency hospital for \$50,000 was asked to pay the policy, giving as reason that it never insures pesthouses, because people living in their vicinity are prone to burn them down. The name "emergency hospital" deluded it into writing the policy.

J. B. Hummel, street commissioner, was busy yesterday gathering up wrecked umbrellas and battered hats with which the streets were strewn by Friday night's gale. He says he collected a wagon load of such refuse between Eighteenth and Tenth streets and Harnett and Dodge. There were nearly as many women's hats as men's.
