WIND STORM WORKS HAVOO

Strikes Omaha. EX-MAYOR BEMIS HAS ONE LEG BROKEN

Thirteen-Year-Old Boy Seriously Injured and Numerous Minor Acetdents Reported from All Sections of City.

The wind that swooped down from the northwest Friday afternoon was in many respects phenomenal, and brought varieties of weather ranging all the way from sunshine and balmy air to snow, all in the space of about six hours. At 12 o'clock thermometer stood at 75 degrees and then declined at an almost uniform speed until 6:45 it stood at 36 degrees a fall of 39 degrees. The wind rose until its speed rate reached forty-six miles, This was accompanied by rain and spitting snow. At 5:45 o'clock the snow fell for a few minutes in big flakes, although not thickly enough to cover the ground. At 8 o'clock in the evening the strength of the wind declined and the rain stopped failing.

The cause of it all was that centering in Omaha was an area of low barometer the reading being below that in any other part of the United States. The fact that Omaha was in the center resulted in the comparatively warm and bright weather in the forenoon. This area of low pressure moved northeastwardly to the lakes, and it was after the center had passed into eastern Iowa that the high wind began to make its force felt and the rain increased in volume.

Catches People Enroute Home.

Not a great deal of attention was given to the storm until in the late afternoon when the sidewalks were crowded with people going to their homes. Then everyone realized that the gale was not a laughing matter. Umbrellas were jerked to pieces, hats went sailing high in the air, and people discovered they could not walk without danger of being thrown down. Signs were blown down and loose objects of various kinds were hurled through the air, making walking a hazardous undertaking to those who felt strong enough to force their way

In many parts of the city tin roofs were torn up and hurled in great rolls to the street. Plate glass windows in a number of stores broke with a crash, littering the aidewalk.

The electric wires began breaking from their fastenings at a large number of places and the telephone and telegraph lines were special sufferers. In a number of instances it became necessary to place omcers to guard the live wires. The police alarm system all over the city was disabled.

Several People Injured.

The first accident occurred on Military avenue. The wind turned over a large section of the plank sidewalk and struck Robert Maxwell, aged 13. He re-ceived a deep cut over the left eye and his front teeth were knocked out. He was insensible when picked up and carried to the house of Louis Jonkowski, at 1420 Military street, with whom the boy lived. When examined by the physicians it was found that the blow on the head had caused serious injury. Young Maxwell was taken to Clarkson hospital this morning and the physicians expect him to recover.

Lawrence McTaggert was injured abou 5:20 on Thirteenth street between Harney the police station and he was sent home. His injuries were not serious.

Nineteenth a large biliboard gave way, slates were blown from the roof. Mr. Bemis tried to run across the street but had taken only a few steps when the falling debris caught him, pinning him down. He was released by several men and carried into Hahn's drug store, where it was discovered his left leg was broken. He was severely bruised. He was later taken to the Clarkson hospital.

Show Windows Blown In.

Two large, plate-giass windows in the front of the People's store were broken into small pieces and considerable damage done to the stock displayed. Plate-glass windows in Schaefer's drug store, corner Sixteenth and Chicago; in front of the Mawhinney & Ryan company at 201 South Fifteenth street were broken by the wind. The fire alarm system was disabled but the breaks will not be located until today. Two alarms were sent in by telephone during the storm. One was at 4:20 o'clock, a small blaze caused by hot ashes at 525 Pine street, in the dwelling of Allen Sergeant. The services of the department were not needed. An alarm at 6:40 was due to the crossing of two electric light wires at Sixteenth and Davenport.

One of the large covered wagons of the United States Express company was overturned by the wind at the corner of Tenth and Jackson streets. No damage was done either to the two horses or the wagon. At 7:15 a large electric light sign, weighing about a half ton, fell with a crash upon the portico of the Orpheum theater and only the iron girders which span the roof erable shape. The heavy rain put it in prevented the sign falling through it to perfect fitness. The water went right into the pavement. It was a double sign, costing originally \$400. Whatever may have been the delinquency of the city council last January in the way of sending out notices to the corporations ns to the t'me and place of hearing cofplaints against their assessments, no such charge can lie against it this time. Comout of the city cledk's office yesterday, Stenwere busy copying them in letter files for record and deputies were busy serving them ASKS FOR AN ACCOUNTING The documents are divided into two classes -"notices" and "subpoenas." The notices set forth the nature of the complaint and the hour and place of hearing. At least three general officers of each of the five public service corporations, as well as Relators Morton and Shriver, receive these. The subpoenas are formidable documents, so explicit in detail as to be almost ironical, and are couched in legal phraseology.

GROCERS' COMMITTEE BUSY Arranging to Stop Sale of Soap at Cut Rates by Retailers.

While the committee of the Grocers' association charged with the arrangement of a plan to stop the sale of soap at cut prices made no report on Friday afternoon, as was expected, the members have done considerable work, their attention being turned in the direction of the soap manufacturers. Some of the manufacturers have signified a willingness to cease supplying soap to the cut rate houses, alleging as a cause for this that they have lost considerable money by the failure of firms which have sold goods below cost. The committee is still in conference with persons responsible for the existing condition and hope to have the matter in shape to handle within a week.

As George Ade says, in his new opera, "Ki-Ram:"

A fur overcoat on your tongue; "hair on your teeth;" a taste "as if a cat had littered in your mouth;" nerves a-tremble; aching hair; a "bust-head of splitting agony;" appetite - none; movement of the bowels - not a sign; present (unwelcome visitor), Gen. R. E. Morse. Never do it again, eh? Oh yes, you will. Remember

"The Devil was sick; the Devil a monk would be "The Devil got well; the Devil a monk was be."

and a Cascaret three times on the day of misery will make you well. But, for goodness sake, be wise, up to the century, and the next time you go out with the boys, eat too much, drink too much, irritate your stomach, block your bowels, don't forget that you can prevent the "morning's mourning" by taking a Cascaret Candy Cathartic before you go to bed. They work while you sleep and make you awake bright as a new dollar in the morning. Always carry a box in your pocket, and have another on your dresser and another on your night table. Also one

"In your grip-on a trip,"

lest you forget.
