COMMERCIAL AND FINANCIAL

Bullish Factors Are Overlooked and Weather Holds Prices Back.

PROVISION GAINS OFFSET LOSSES

Wheat Values Dip and Rise, but Finally Close Down and Figures in Corn and Oats Suffer Shrinkage.

CHICAGO, April 28.-It was bad weather

CHICAGO, April 28.—It was bad weather for the built traders in grains today. Although the reports indicated diminishing supplies of old wheat and offerings in corn were still light, the crops were receiving too much binefit from the seasonable weather to allow prices to hold advances. These variant factors, however, caused several rapid changes of sentiment. In the end July wheat lost 1gil-ke, July corn are an July sats 1gil-ke, July corn are an July sats 1gil-ke. Provisions closed 2ke lower to 2ke higher.

Trade in wheat was only fairly active, though the frequent change of front of the speculators made the tension somewhat marked. At the opening the news of general rains in the principal wheat states, except kansas, started wheat at a liberal decline from Saturday's closing prices. The southwest sold liberally and helped hold prices back. The situation, however, for some time seemed to favor the buils. Cables were higher, primary receipts were still light, showing rapidly decreasing stocks, and the northwest bought well of cash stuff and started an advance. Prices worked up a little and were helped considerably by the remarkable decrease in the visible supply-3,192,000 bushels. On the strength of this last influence July rose to 18-ke, after opening %25-ke to 1/2-ke lower at 78-kg/75-ke. The pit crowd, however, was considering the heavy world's shipments and the general weather situation and fought hard against the advance. When reports of more liberal offering: In the northwest by the farmers and of rains in Kansas arrived there was a renewal of the selling shovement that had weakened the market at the opening. Prices steadily declined, with active and heavy selling at times, until July reached 75c. A show of an improvement in receipts (though they are still small) had a bearish effect. July closed weak, 1gi1-ke lower at 75-ke. Local Minneapolis and Duluth reported 220 cars, making a total for the three points of 253 cars, against 237 last week and 357 a year ago. World's shipments were 8,85,000 bushels, gai and 7,794,000 a year ago. Primary receipts were \$25,000 bushels. Seaboard clearances in wheat and flour equalled 288,000 bushels. Trade in corn hinged on the action of the leading buil crowd. Influential buying prevented this cereal from following the course of wheat, although the break in the other pit eventually had its effect. At the opening prices were very steady and practically no attention was paid to the general rains in the southwest and to the unresponsive cables. Offerings were very small and were readily taken as prices advanced. The leading house that is supposed to be carrying twice the amount of corn in actual existence, did good buying and sent July prices from 63%c to 64%c. Trade was rather quiet the greater part of the session, but as wheat weakened there was some active short selling, and prices slipped off. The marked feature of the market was the good show of strength at the close in spite of the bearish weather conditions, September closing %c higher. July closed at 104 cars.

September closing %c higher. July closed ¼c down at 63½c. Receipts were improved at 104 cars.

Interest in May cats relieved the monotony of a quiet market and helped uphold the other options. There was fair buying of the bear option and prices advanced somewhat. The generous rains, however, have increased the prospects of the coming crop and as receipts grew larger and wheat and corn weakened oats receded. The cash article was in good demand, but there was something of a disposition to keep out of the market until the possibility of a corner in May is past. May gold to 45%643¼c and closed firm ¼c up at 42½c. July new closed ½d½c lower at 37c. Receipts were 193 cars.

The provision market was manipulated again by packers today for higher prices. The early tendency was to sell on the grain situation and for profits. Brokers at once began buying for packers, especially of lard and ribs, and prices fluctuated nervously. Offerings by scalpers, as well as by packers, became liberal after the price had been pushed up and on an absence of any urgent demand and the wheat break most of the early gains were lost. The hog market was strong. July pork closed 2½c lower at 37.02½, after selling at 37.17½. July lard 2½c up at \$10.10 and July ribs a shade higher at 33.43/479.50.

Estimated receipts for tomorrow: Wheat, 55 cars; corn, 115 cars; oats, 250 cars; hogs,

NEW YORK STOCKS AND BONDS

Speculative Interest Relapses and Prices Not Uniform.

NEW YORK, April 28.—Speculative interest in stocks shared considerable falling off today and the full day's transactions reached a million shares for the first time in two weeks. The feverish activity which has characterized the recent leadership of the market was decidedly lacking, if the rather leading dealings in Reading be excepted. The tone of the market was halting and the movement in prices was not uniform.

ing and the movement in prices was not uniform.

The predominant movement, while it failed to embrace the whole list, itself changed a number of times during the day. The failure of the conference committee of the miners and operators to agree on terms on Saturday was a dippointment and the tone of the comment of the parties to the conference created a disagreeable impression. Ti result was free selling of Reading in the open dealings, which affected the whole market. This weakness was overcome by a strong advance in some of the high-priced coalers.

The part played in the market by the high-priced stocks, of which the floating supply is very small, was notable and their wide movements resulted from a light volume of transactions.

As the upward flight of Delaware & Hudson and of New Jersey Central railled the Readings, as did the spurt in the Chicago & Northwestern stocks gave some strength to the Grangers and Pacifics. St. Paul was lifted two points over last night and there were gains of one to two points among the southwesterns.

The gains were not well held, however,

The gains were not well held, however, and there were constant relapses when the market was allowed to become quiet. New York, New Haven & Hartford was another of the high-grade stocks to move, but it saved only a point of its seven-point advance. advance.

Among the industrial specialties there were wide advances in Pullman, International Power, American Express, Pressed Steel Car Preferred, Railway Steel Spring and some others which are even more active. Cotton Oils, Virginia-Carolina Chemical and American Agricultural Chemical and some Cotton Oils, Virginia-Carolina Chemical and American Agricultural Chemical were advanced on talk of consolidation.
Colorado Fuel and Tennessee Coal were bid up late in the day as the local tractions had been earlier, but relapsed again without much effort on the general market.

without much effort on the general market.

The varying movement in the grain market was reflected from time to time in the stock market, but not in a decisive way. The usually active industrials were quite generally heavy.

United States Steel seemed to reflect disapproval of the bond issue. The firmness of foreign exchange reawakened discussion of probable gold exports, but the money market was unaffected. The market closed dull and easy.

The bond market was moderately active and strong. Total sales, par value, \$4,045,000. United States bonds were all unchanged on the last call.

The following are the closing prices on the New York Stock exchange:

Condition of the Treasury. WASHINGTON, April 28.—Today's statement of the treasury balances in the general fund, exclusive of the \$150,000,000 reserve in the division of redemption, shows: Available cash balances, \$183,540,849; gold, \$90,908,833.

Cotton Market.

NEW YORK, April 28.—COTTON—Spot closed quiet: middling uplands, %%c; middling guif, 10%c; sales, 600 bales. Futures closed very steady; April 2.69c; May, 9.59c; June, 9.67c; July, 9.63c; August, 9.29c; September, 8.56c; October, 8.57c; November, 8.58c; December, 8.59c; January, 8.27c.

The market opened steady with prices for near crop months 11 to 14 points higher and new crop months 9 to 10 points higher in response to strong Liverpool cables and builish information from domestic crop centers. Spot cotton was up another 1-22d. Port receipts were very ight compared with those of a year ago. Southern spot markets were described as strong and 1-15c to %c higher. Crop reports reflected a decrease generally in acreage a smaller use of fertilizers this year than last and a delay of albut two weeks in the season. Though profit taking around 2.69d for July for a time held the market in check the whole list stiffened up in the late session to a basis of 9.64d for July and to 9.40d for August on a fresh scare of shorts and brisk new buying. Trading was active all day with the close very steady at a net advance of 11 to 20 points.

ST. LOUIS. April 28.—COTTON—Firm. %c higher; middling, 9%c; sales, 1.086 bales; receipts, 127 bales; shipments, 1,262 bales; stock, 38.280 hales.

3,798 CATTLE—There was not a heavy run of cattle here today, as a decrease is noted as compared with last Monday. As compared with the same day of last year there is not much change. The demand was in fairly good shape, so that trading was active at fully as good prices as were paid at the close of last week.

Beef steers again made up the bulk of the offerings and the quality was good on the whole. The demand was liberal from local packers and also some outside packers were on the market. The desirable grades could safely be quoted strong and in some cases sales were made that looked, quite a little higher. It was only a shorf time before the bulk of the good cattle was out of first hands. The commoner grades of course did not move as freely, but still they sold for fully as much as the same kinds brought last week.

The cow market was not particularly active and could probably best be described by calling it steady. Buyers took their time about looking at the offerings, but as supplies were not large practically everything was disposed of in good season. The good stuff moved without much trouble, but the commoner grades dragged more or less the same as usual. As compared with the close of last week there was not enough change in the prices paid to be worthy of mention.

Bulls, veal calves and stags siso sold in just about last week's notches. There was a fairly good demand for the better grades, but the common kinds were no light demand and sold slowly at about steady prices. The common kinds were in light demand and sold slowly at about steady prices. The common kinds were in light demand and sold slowly at about last week's quotations. Representative sales: CATTLE—There was not a heavy run of cattle here today, as a decrease is noted as

BEEF STEERS.

tive sales;

HOGS-There was about a normal run

of hogs here today for a Monday, and as the demand was in good shape the market opened active and Sgioc higher. The quality of the efferings was pretty good, and the market on paper shows up in good shape. Packers all seemed to be anxious for supplies, and it was only a short time a before everything on sale was out of first hands. The good weight hogs sold largely from \$1.55 to \$1.50. The medium weights went mostly from \$7.05 to \$7.15, and the light stuff sold from \$8.85 to \$7.05. Today's hadvance carries the market to the highest point reached this year, as the loss of Saturday was more than regained today. Representative sales:

and Sheep Slow.

NEW FORK, April 28.—COFFEE—Spot Blo. quiet; No. 7 invoice, 8%c. Mild. duit; Cordova, 84%12c. The market opened steady, with prices unchanged to 5 points higher and worked an additional 3 points higher by mio-day on moderately active pull support, profit-taking by commission houses, which were short, and light support from reactionists. Importers and bear leaders sold at the higher prices and brought special pressure near the close, thereby forcing sales off 5 points. Receipts in Brasil were heavy and clearances from the crop country for the United States were large. The market closed steady, with prices net unchanged to 5 points higher. Total sales were \$6.000 bags, including: May, 48094-86c; June, 49024-86c; July, 5c; September, 5.2066-25c; October, 5.25 46.5c; December, 5.2066-25c; October, 5.25 March, 5.666-5.70c. Coffee Market.

up through the darkness. The boy was at first unable to talk. He would not give his name, but said he had entered the car at South Omaha several days ago, intending to steal a ride westward until hunger compelled him to get out at some station. The second Jay out of Omaha, he said, he attempted to get out of the car, but found all of the doors locked. He shouted and pounded with his fists, but he was unable to make anyone hear. The car was sealed up at Chicago and there is no record of these seals baving been broken or tampered with between Chicago and Cheyenne. If this is true the boy got into the car at Chicago and was without food or water for five days and nights.

SHEEP LOSS VERY HEAVY

More Than Twelve Thousand Head Perish in Storm in Wroming.

CHEYENNE, Wyo., April 28.-Reports received here from various sections of the state indicate that the unexpected storm of last week killed 12,000 or 13,000 head of sheep, the losses running from 2 to 10 per cent.

The heaviest loss occurred in Natrona county, where shearing had commenced The loss there is estimated at 3,000 early. head.

To Restrain Use of Wyoming Water. LARAMIE, Wyo., April 28 .- (Special.)-Local authorities will probably bring suit against the state of Colorado for appropriating and diverting water from the streams of Wyoming, which, it is claimed, rightfully belongs to this state by reason of prior use. The case promises to be very similar to that of the state of Kansas against Colorado. It is alleged that the Eaton ditch in Colorado, into which the rater will be turned in a few days, will take water from the Big Laramie river and its tributaries. Sand creek, which is dotted by many fine ranches, will suffer the most and many of the ranches, it is claimed, will be ruined. Nothing will be done in the matter until the actual diversion of

the water takes place. Soldiers to Have Rifle Range.

SIOUX FALLS, S. D., April 28 .- (Special.) The members of the two Sioux Falls companies of the South Dakota national guards are arranging to have a rifle range laid out on the Coats farm, situated southeast of the city, and conduct regular practice.
