Little Animation in Grain Pits and Crowd Seems in Doubt.

WHEAT AND CORN MAKE SLIGHT GAINS

Oats, However, Receive Little Support and Prices Limp Down, but Provisions Upheld by Packers, Though Pork Closes Lower.

Though Pork Closes Lower.

CHICAGO, April 29—Grain traders seemed in doubt today what side of the market to espouse. Had there been anything worth while to the outside buying the bullish influences at hand might have pushed prices up for a good advance. As it was the professional speculator was too prominent to allow a broad market and July wheat closed only 40% up. July corn 40% chigher and July oats &c lower. Provisions closed 2% higher to the lower. Provisions closed 2% higher to the lower. Wheat was firm and higher at the opening. Liverpool cables did not show a decided response to the break here yesterday, receipts were still small and Kansas was still sending in woeful reports of her crop condition. Both the northwest and southwest contradicted the report that farmers deliveries were more liberal and said wheat was as hard to buy from first hands as at any time. Reports from North Dakota said ponds covered many of the fields and that acreage will be reduced and that the ground would not be in fit condition to plow until the middle of May. On the other hand, rains were copious in most of the Ohio valley. There was a little spurt of buying at the start, but as yesterday this turned to a selling pressure later and early gains were lost. Professionals, however, continued to buy in the dull market and prices reacted slightly. July opened 4c higher to unchanged at 75% 75% and closed firm, 40% up, at 75% 75% c. Receipts were 72 cars, 1 contract; Minneapolis and Daluth reported 135 cars, a total for the tree points of 286, against 286 last week and 329 a year ago. Speculative Interest Drops Off and Prices Irregular and Confused. Prices Irregular and Confused.

NEW YORK, April 29.—The movement of prices was confused and irregular all of today and there was evidence of a diminishing speculative interest. The wide movements in high priced stocks continued a feature, but the influence of the advances was impaired by some equally notable relapses in stocks where attempts were made to take profits. A case in point was that of New York, New Haven & Hartford, which fell violently 9 points on an attempt to market a small amount of the stock because of the emphatic discialmers from both Pennsylvania and New York Central authorities of the rumors of purchase of control. The decrease reported in Reading surplus arnings for March was an untavorable influence. The very heavy decreases in net earnings of the Southern Railway for March was certainly not a stimulating influence, although it was accounted for largely by the notable increase in operating expenses.

March was certainly not a stimulating influence, although it was accounted for largely by the notable increase in operating expenses.

The western railroads, on the other hand, were benefited by the crop news and by the weekly crop builetin of the weather bureau which was considered very favorable, not only regarding the condition of winter wheat, but as to the progress made in seeding corn and spring wheat. The grain carrying railroads also were helped by the special strength of the Northwestern stocks, which rose 10½ and 5½, respectively. Rock Island gained an extreme 5½ but lost over 2 of it. The strength of the Wabash stocks and of the Wheeling & Lake Eric stocks was evidently due to the apparent certainty that the bid of the syndicate representing the Gould interest for the Western Maryland will be accepted. The industrials were marked by quite as great irreguiarity as the railroads and changes there were constant and variable. A further advance in the foreign exchange market and a drop in the rate of sterling at Paris both contributed to narrow the margin still remaining from the gold export point.

The money market, however, was still undisturbed. Much attention was attracted by action of the clearing house authorities requiring that institutions which shall be admitted hereafter to the privilege of clearing through members must first be established for a year, and must maintain in their own vaults the same percentage of cash reserves as required of the members themselves. They will be required also to furnish weekly statements of averages for publication. This action is calculated to put a restraint upon the multiplication of trust companies. It is carefully explained that the requirements are not retroactive, which is to say that they do not at all apply to the condition of the trust companies from any requirement and criticism, owing to the freedom of the trust companies from any requirement of publicity as to their loans and reserves.

The bound market maintained a firm tone today. Total sales, par v

Coffee Market.

Coffee Market.

NEW YORK, April 29.—COFFEE—Spot Rio, quiet and steady; No. 7 invoice, 57-16c. Mild, quiet; Cordova, 84-612c. The market opened steady, with prices 5610 points higher and displayed a tolerably firm undertone during the rest of the session, with bull leaders, and Wall street prominent buyers. Better foreign market news and light foreign demand here prompted the support thus rendered. Importers and several prominent bears sold at the higher prices, in view of continued heavy receipts in the crop country. The market closed steady, with prices net unchanged to 10 points higher. Total sales were 23,500 bags, including: June, 5c; July, 5.10c; September, 5.25c; October, 5.25c; November, 5.35c; March, 5c.

Wool Market.

Wool Market.

BOSTON. April 29.—WOOL—Very few buyers have troubled the wool market here this week and the business is dormant. The strike in the wool mills in this section does not tend to improve the market, and although there is a tendency to weakness to be seen here and prices are practically unchanged. Territory wools, choicest staple, are quoted on the scoured basis as follows: Fine, 506502; fine medium, 450480; medium, 450. The ordinary grade of territory is quoted: Fine, 486500; fine medium, 436450; medium, 396400. Fleece wools are quoted: XX and above Ohio, 2762740; X. 246050; No. 1, 2562840; Michigan X and above, 116220; No. 1, 256260. Australian wools are featureless.

Dry Goods Market.

NEW YORK, April 22.—DRY GOODS—Continued firmness, with a moderate amount of trade in course of transaction, has again characterized the dry goods market today. The depreciation in the value of silver, which has acted as a handicap to export business, has been counterbalanced by the higher cotton market, resulting in an average amount of business.

HOGS—There was a big supply of hogs here this morning, and in fact receipts were the heaviest since April 15. In view of the liberal offerings packers started in from the first to hammer the market, and they succeeded to quite an extent. The general market was about 5610c lower, but trading was fairly active at the decline. A good many hogs were bought and shipped to points where the receipts were not as heavy, which helped out the market here to some extent. Some of the local packers held out and would not buy anything unless they could get it a flat liot lower, and for that reason the last end of the market was slow and right around a dime lower. The bulk of the good weight hogs sold from \$1.0 to \$1.25, and medium weights were exceptionally hard to dispose of this morning owing to the liberal receipts of heavy hogs. It was late before anything like a clearance was made. Representative sales:
