ORGANIZE AUTOMOBILE CLUB

Owners of Horseless Carringes in This Vicinity Get Together.

An automobile club, composed of the owners of the new style of vehicles, is in course of formation and so far the names of twenty-nine residing in Omaha, Council Bluffs and Fort Crook have been secured as candidates for membership. There was a preliminary meeting held Wednesday evening at the store of H. E. Fredrickson, who has fitted up temporary rooms where the people will meet pending the perfection of the organization.

The object, as stated by interested persons, is for the purpose of popularizing the new machines as adjuncts to recreation and excursions. The club will work to have set aside for the especial use of automobiles certain roads and boulevards in the city and county under conditions which will not be onerous to the communities. Relay stations, where refreshments can be opened in the course of time along these routes and it may be that especial routes from one town to another may be established. At first, however, the club will arrange a series of runs from the club rooms to parks in the neighborhood or to other towns.

The next meeting of the members will be held at the club rooms Wednesday, May 14, at which time it is hoped a permanent organization will be perfected, officers elected and committees appointed to prepare a program for the season.

Those who are taking an active interest in the matter are: F. N. Conner, G. W. Patterson, H. E. Fredrickson, John Coltman, B. L. Baldwin, A. I. Root, E. W. Lamoreaux, J. J. Deright, F. H. Borek, C. UTT WISHES THEM TO HURRY

Commercial Club Secretary Prods Those Intending to Join South Platte Excursion.

Secretary Utt of the Commercial club is anxious to receive applications from persons who will go on the trade excursion into the South Platte country on the morning of May 13. He says that so far the applications have been satisfactory, but he desires to close the matter with seventy-

five applicants as soon as possible. Several houses will send not only the principal member of the firm, but juniors and a number of traveling representatives. Others will send two members and there is every reason to believe that the list will be complete before May 7, the last date upon which applications will be received.

SHOOT THE EXPENSE UPWARD Coal Wagon Drivers Do So by Refus ing to Carry More Than One Chute.

Hereafter persons buying coal which is to be stored in rooms which cannot be reached from a wagon with a twelve-foot chute will be required to pay for having the coal carried into the storeroom. Heretofore there was no limit upon the length of chute which could be used, and drivers of wagons were compelled to carry at times four chutes of twelve feet each for the purpose of reaching the places where the coal was to be stored. At a recent meeting of the drivers' union it was decided that not more the consumers will hereafter have to arrange for storing their coal within twelve feet of where the wagon can be driven or pay the additional cost of carriage.
