

SOCIETY WAKES UP A LITTLE

Opening of Outdoor Season Sends New Life Into Smart Set.

COUNTRY CLUB CENTER OF ATTRACTION

Down Town Affairs Small, but Many and Enjoyable During Last Six Days, with Few Things Scheduled.

The quietude of the last week in social circles was broken on but very few occasions, and these by small gatherings, all of which were of a most informal nature.

Every one has been looking forward to the formal opening of the Country club with a great deal of interest and expectation. Of this the greatest pleasure of an event is in the anticipation of it, but not so in this happening, for the realization of the reception, dinner and dance given last evening at the clubhouse was most perfect in its appointments and more than gratifying to the club members, their guests and efficient house committee.

Golf held sway during all the day yesterday at the Country club. Groups of women dotted the links from early morning until luncheon. Then in the afternoon came the handicap game for men in the eighteen-hole course for the Bidwell trophy and Cartan cup. The women's handicap is set for May 7.

The first dinner was a brilliant affair and partaken of by about 150 guests. A large number were unfortunate in not getting places, not having registered in time. An excellent program of music by an orchestra was given during the dinner and later in the evening furnished the music for the dance, which was attended by about 300 or 400. The affair was a successful and lovely affair, the gowns of the fair being dainty and exquisite summer creations.

Among those who entertained dinner parties are: Harry Cartan, H. L. Cumings, H. T. Lemist, A. N. Bens, H. C. Cheyne, A. G. Benson, M. T. Barlow, S. T. Stewart, Jr., Dr. C. A. Howe, Harry Wilkins, Miss Ellen McShane, J. J. Dickey, E. A. Cudaby, Ellen Millard, T. W. Talfierro, H. H. Baldrige, W. S. Blackwell, J. E. Baum, F. A. Nash, Jr., E. V. Lewis, E. P. Peck, A. D. Kinsler and Wallace Lyman.

In Mr. and Mrs. Talfierro's party were: Miss Harris of Chicago, Mrs. Forest Richardson, Miss Nannie Richardson and Dr. Jonas. Mr. and Mrs. J. J. Dickey had as guests Mr. and Mrs. Scobie, Mr. and Mrs. Henry Lyman and Mrs. L. M. Lyman.

CROWDED SALESROOMS

Results of Hospe's Cutting of Piano Prices.

With the many pianos we have sold, we made room for those that were packing our warehouse. The instruments at the depots were transferred to the warehouse, many a family is made happy in the last two weeks with a reliable, fine, high-grade bargain that was secured at the biggest Piano Stock Reduction Sale the west has ever seen.

Our second mark-down has now reached the bottom, as the prices are lower than ever before. When you take into consideration that there is no reserve, that everything is reduced down to factory cost, some things are reduced down to one-half former prices, two-thirds down to one-half former prices, putting it stronger—from \$50.00 to \$100.00 lower than the lowest cut prices made in this city.

It is no wonder the pianos kept moving, and Monday, May 5th, will see another grand exodus of pianos out of our many ware rooms on Douglas street—the famous Knabe, the beautiful Krantz & Bach, the renowned Kimball, the substantial Hallett & Davis, and the other many high grade pianos which this house has handled more or less in the last twenty-eight years.

A great number of the \$200 to \$250 pianos are sold for \$95, \$115, \$135, \$145 to \$175. We are going to beat these prices this week and on those easy payments of \$10 cash and \$5, \$6, \$7 and \$8 per month. There is still a great number of the \$200 to \$250 pianos which were sold at \$200, \$215, \$245, \$287, \$297, \$334, likewise on small payments of \$15 to \$20 down and \$10 to \$15 per month. See what we will do on these this week. If you are interested you will get pianos cheaper than ever before. Some pianos in mahogany, rosewood, butternut, Black Sea walnut, French walnut, quartered oak, ebony, in fact, the greatest variety of cases, large and small, that have ever exhibited anywhere.

Stools and seats go with the pianos. Every instrument fully warranted; every instrument marked in plain figures; no more will be asked, no less taken. Our easy selling plan enables a small salaried man to procure a fine piano without interfering with his regular expenses.

There is a fine lot of organs at bargain prices, on payments as little as 50c per week. These organs are sold at \$19, \$15, \$18, \$22, \$25, \$31. New organs \$18, \$22, \$48, \$52, \$54, etc. We will clean these organs out, and will sell them for less than we advertise. What more do you want? To prove our statement you must investigate in person. Those who cannot do this address us by mail, and they shall have the best of the bargains, for this stock must be still further reduced.

New Style Turkish Baths.

The new style Turkish baths given at The Bathery are becoming very popular among the ladies of Omaha. The plan in operation is entirely different from the old style, only one room or cabinet being used for the several stages of the bath, thereby avoiding much inconvenience and eliminating all chances for contracting colds while going from one room to another, as is the usual custom. Without an exception, those who have tried the new plan pronounce it far superior to the old way. Not only is there a vast improvement in methods, but every appliance is strictly up to date and nothing has been neglected or omitted which might add to the comfort, convenience or well-being of patrons. It is also worthy of mention that none but the finest of cold creams are used at the Bathery. A small item, perhaps, but it illustrates the thoroughness and attention to detail in every department. The massage and electric treatment, known as the Renstrom system, is guaranteed to relieve the worst cases of rheumatism and nervous troubles.

The massage and electric treatment, known as the Renstrom system, is guaranteed to relieve the worst cases of rheumatism and nervous troubles.

The new style Turkish baths given at The Bathery are becoming very popular among the ladies of Omaha. The plan in operation is entirely different from the old style, only one room or cabinet being used for the several stages of the bath, thereby avoiding much inconvenience and eliminating all chances for contracting colds while going from one room to another, as is the usual custom. Without an exception, those who have tried the new plan pronounce it far superior to the old way. Not only is there a vast improvement in methods, but every appliance is strictly up to date and nothing has been neglected or omitted which might add to the comfort, convenience or well-being of patrons. It is also worthy of mention that none but the finest of cold creams are used at the Bathery. A small item, perhaps, but it illustrates the thoroughness and attention to detail in every department.
