excel. They lack, on the whole, originality. They are not attracted by unsolved problems, and in the inductive or "inexact" ectences they seldom take the lead. The "motor" side of their minds and hature is not strongly developed. They do not work for results as much as for the pleasure of study.

Question of Co-Education. Shall women be taught in the same plasses as men? This is partly a matter of taste or personal preference. It does no haim, whatever, to either men or women to meet the other sex in the same class rooms. Considerable has been said for and against the union in one institution of technical schools and schools of iberal arts. But I believe better men are made when the two are brought more closely together.

It is not true that the character of college work has been in any way lowered by co-education. The reverse is decidedly the case.

There is no question that a reaction has set in against co-education. The number of those who proclaim their unquestioning faith is relatively fewer than would have been the case ten years ago. This change in sentiment is not universal. It will be nowhere revolutionary. Young women will not be excluded from any institution where they are now welcomed, nor will the almost universal rule of co-education in state institutions be in any way changed or reversed.

MILWAUKEE, May 5.—(Special Telegram.)—Duffy's Creams were more than casy for the indians in the last game of the series. They started off with a fierce onslaught on O'Neill's curves and an error by the latter, which fitted in opportunely with four singles, gave Omaha a boost of four runs in the first inning, which they versed.

Trouble Over Charter.

The expected trouble over the charter Lowe handled with her customary power, have material for a pennant team. The further discussion was postponed. Mrs. Lockwood made her report as chairman of the committee, stating that congress had granted the Ganeral Federation a law char ter and that it was the last one signed by President McKinley.

The Audubon session led off with a re port by Mrs. John Illick of lows with an interesting report on the work undertaken for the preservation of birds.

The subject of the education value o bird study was given by Mrs. Charles Lobingier of Nebraska. The economic value of "Bird Life to Human Life," by Mrs. Eben Smith of Illinois, was discussed by Mrs. W. H. Bailey of Iowa.

The only serious new argument against co-education is that derived from the fear of the addition by universities of the woman's standards of art and science feather than those of men, the fear that amateurism would take place of specialization in our higher education. Only men, broadly speaking, are capable of objective studies. Only men can learn to face a fact without flinching, unswayed by feeling or preference. The reality with woman is the way in which the fact affects her. Original investigation, creative art, the "resolute facing of the world as it is," all belong to the man's world, not at all to that of the average woman. That women in college do as good work as the men, is beyond question. In the university they don't, for this difference exists, the rare exceptions only prove the rule, that women excel in technique, men in actual achievement. Instruction through investigation is the work of the real university, then in the real university they don't, for this difference exists, the rare exceptions only prove the rule, that women excel in again took advantage of a third opportunity, Calhoun leading off with a base on balls (his second walk, by the way), Dolan hit, sending Calhoun borne and Dolan to third fact cannot be and need not be denied. Meeting is Broken Up. VIENNA. May 5.—The congress of the German people's party held here yesterday evening was broken up by the followers of Herr Schoenerer. Pan-German, who immediately after Herr Wolff, the Pan-German leader, commenced the pending address bombarded the platform with lumps of sugar and paper balls. A free fight ensued between the different factions and the police with difficulty cleared the hall.

CLIMBED TO TOP. Grape-Nuts Food Gave the Strength.

It is a good thing to know of food that will add volumes to one's strength, for the strong can do things and accomplish work in this world while the weak must stand to

one side. A woman in Toronto writes: "I was in very poor health a long time and got so weak and run down that I would often stop at the foot of the stairs and wonder how I could get to the top.

"I began using Grape-Nuts and in a very short time that weak, broken down feeling entirely disappeared. I had formerly been forced to give up my breakfasts in order give my stomach a rest, but when I got hold of Grape-Nuts I could eat breakfast for the food seemed to help digest other foods, and soon I began to gain in weight and strength.

"I regularly use fruit and Grape-Nuts for breakfast and can work harder and for a longer time than ever before." Name given by Postum Co., Battle Creek, Mich.

ability to Meet Obligations.

Opens Under Apprehension of Pending Failures and Readily Gives Way When Sales for Suspended Houses Begin.

NEW YORK, May 5 .- The developments of the latter half of last week in Wail street, in connection with the stocks of the Dominion Securities company, the Rutland Railroad company and the Hackensack Meadows company, resulted today in the announcement in rapid succession of the suspension of Stock exchange brokerage firms.

The first firm to declare inability to meet obligations was Offenbach & Moore. Henry Bros. and Lockwood, Hurd & Co. followed rapidly. Offenbach & Moore were known principally as traders in what were known as "Webb-Meyer" securities, and the announcement was made Saturday that they had experienced some difficulty in securing loans to enable them to carry stocks for the interest which they represented. On Saturday afternoon, however, a statement was made in behalf of the firm to

the effect that temporary arrangements had been made and that it was hoped funds might be obtained today to pay off obligations and continue business. Today's suspension shows, however, that

these hopes were not realized. The offices of Offenbach & Moore were not opened for business at all today. Mr. Gordon of Henry Bros., whose suspension followed that of Offenbach & Moore, was a director of the Dominion Securities company.

Market Opens Weak. The stock market opened weak with the knowledge that a number of failures were imminent. Support was accorded the market and there were some failures, but when sales under the rule for suspended houses were made the market gave way again. The high-priced stocks which had been under recent manipulation were the severest sufferers. Rutland preferred dropped 14 points, Westinghouse Electric 15. New York, New Haven & Hartford 5, North American, 5%. Northwestern and Tennessee Coal 3. The coalers were affected in addition by fears of a miners' strike. Delaware & Hudson dropped 414, Reading 3 and others smaller amounts. Losses of 1 to 3 points were quite general throughout the list. Before the first hour had elapsed supporting orders were effective again and there were some substantial rallies.

On the curb where non-stock exchange securities are traded in there was an excited group of traders trying to make sales in "Webb-Meyer" stocks. Dominion securities, which sold last Friday at 1181/2 and on Saturday at 70, was offered today at 70, but the best bid was 20. Later it was offered at 50 and the bid declined to 10. Hackensack Meadows was offered at 40, with no

bid. On Friday it sold at 79. Dr. Seward Webb, president of the Rutland Railroad company, arrived here today from Shelbourne Palis, Vt. It was said at his office that a statement on his behalf would be issued some time during the day. Say They Are Solvent

Moore of Offenbach & Moore. Adriance Bush is the assignee for Henry Bros. and E. T. Perrine is assignee for Lockwood, Hurd & Co. Neither of the assignees has yet made a statement. Before noon call money eased off to 8 per cent. A canvass of the leading banks of the financial district indicates that these nstitutions have scarcely more than passng interest in the events of the morning. it is reported, however, that a number of New England banks hold Webb-Meyer securities as collateral.

Announcement is made that Dr. Webb as resigned from the International Power directory. President Hoadley said that the resignation will doubtless be accepted. Makes Authorized Statement.

Mr. Prall of the Stock exchange firm of Webb & Prall made this statement on the authority, he said, of Dr. Webb: All the Butland railroad's preferred stock sold by Dr. Webb last June, certificates of which are still in his name and amount to 12.500 shares, will be paid for in cash at 108 by J. W. Davis & Co. of 100 Broadway. Mr. Moore of the firm of Offenbach & Moore, when seen early this afternoon, said

that no assignee had been appointed for his firm and that the suspension would be only temporary. J. Edward Simmons, president of the Fourth National bank, made this comment: I consider this a good thing. It will result in conservatism instead of the continuance of wild speculation. I think the atorm has blown over.

President Hendrix of the National Bank of Commerce expressed himself in similar

& Co., said that on Friday they received an order to buy 4,000 shares of curb stock to be delivered to Offenbach & Moore today. The suspension of that firm prevented delivery and when the 4,000 shares of stock was left on the hands of Henry Bros. & Co. this morning it tied up their entire capital and forced them to suspend temporarily.

abuse the union army met after Appomattox. Chaffee, like Grant, is called a butcher. The country had ben told that the alleged barbarities in the Philippines were the most horrible in history. He declared that this terrible imputation without justice and without foundation. The senator from Utah had grossly exaggerated the situation in the Philippines It was a cource of bitter regret to him (Lodge) that any American officer or enlisted man enould have tortured any Fillpino, or that any order had been issued that on its face seemed revolting.

"But," said he, "there must be some reasons for these alleged crucities." then told of three American soldiers who were captured by the Pilipines. They were stripped naked and told that if they would cry "long live the Filipino Tepublic" they might run away into the bush as they were. One of the men stood there naked, amidst the hostile band and cried "Long live America."

Examples of Torture. The Filipinos tied him to a tree and the

women and children stoned him to death. The other two lost heart and cried "long live the Filipino republic," but notwithstanding this was cut to pieces with boles. After that it is no wonder the comrades of those men went into battle with cries of vengeance.

Mr. Lodge said it had been charged by Mr. Rawlins that General Chaffee and received his education "in savagery" in China. Against those cruel words he said he sent General Chaffee's official record. It was General Chaffee, the senator said, who in a conference of generals declared his purpose to march at once on Pekin to save the legations. The Japanese general expressed the hope that he might be permitted to accompany the American leader. The march was made and Chaffee had won lasting fame.

In the Philippines, he said, General Chaffee had conducted warfare in the most humane manner possible under the circumstandes.

McKinley Policy Carried Out.

He declared that President McKinley, 'one of the most humane of men," had directed the army to show the Filipinos the greatest generosity. That policy had been carried out in the main. From that policy the successor of President McKinley had not deviated. Within a few days orders had gone from the White House for the investigation of alleged cruelties and to punish any found guilty of atrocities.

Mr. Lodge made a warm defense of the ecretary of war, asserting that in the long list of distinguished men who had occupied that office there never had been an abler, more public-spirited or more patriotic man than Secretary Root. The secretary, he said, as a man of distinguished ability and high hohor, had done his full duty in probing to the bottom charges of cruelty or maladministration made to him. All he had provided for was that those against whom the charges were made should have fair play. "He means," said the senator, "to have justice done to efficers and men, and he will not condemn all planted.

Digests what you Dyspepsia Cure

Some people wonder why pepsin preparations don't help their dyspepsia. They probably suffer because they can't digest foods that pepsin does not affect. The reason is, pepsin digests only nitrogenous foods. while different substances are required to digest the variety of other foods necessary for proper nourishment.
Kodol Dyspepsia Cure contains all the digestants, and
is capable of completely digesting every kind of food.
That is why it digests what you eat and allows you to
eat all the variety you want; and that is why it cures indigestion, even after everything else has failed. As it is the only preparation of the kind known, the demand for it has become enormous. Its use affords in-

stant relief from all forms of stomach trouble. It can't help but do you good
