#### lowa's War Claims.

The belief is general in Iowa that depite the fact that the auditing department of the treasury audited lowa war claims amounting to nearly \$500,000, congress will not appropriate for any such sums, for that would lead some other states to reopen their claims on a different basis. The letter of Secretary Shaw to Governor Cummins transmtted the certificate of the War department on the question of war claims, which stated the situation plainly as follows:

"I certify that I have examined and settled the claim of the state of Iowa in conformity with the principles announced by the comptroller of the treasury in his decision rendered in the 'Indiana case,' dated April 14, 1902, and find that there is due from the United States the sum of \$455 .-417.89 for refundment of moneys paid as interest from July 1, 1861, to July 1, 1881, and for discounts suffered and other expenses incurred in procuring funds to sup press the rebellion during 1861 to 1865. Said allowance being based upon the decision of the comptroller of the treasury, dated April 14, 1902.

"Appropriation: 'Refunding to states expenses incurred in raising volunteers.' To be reported to congress under section 2 of the deficiency appropriation act of July 7,

1884. "Payable to the governor of the state of Iowa, Des Moines, Ia., when an appropria-

tion shall have been made. "I further certify that if this claim had been settled in accordance with the principles appounced by the court of claims and followed by this office in the settlement of the claims of the states of Maine, Pennaylvania, New Hampshire and Rhode Island, already allowed and paid under the findings of that court, there would be due the state of Iowa from the United States on the above claim the sum of \$229,699.62."

Corruption in Police Force. As the result of the dismissal of two members of the police force for confessed corruption and "grafting" and subsequent accusations by them against the entire new police force, it is probable that some investigation will be made at once. discharged men acknowledge that they were engaged in getting money by extertion from innocent persons and that they took the money from a strange young woman who was a guest at one of the hotels of the city. But they also allege openly that the same system of extortion is prevalent among the officers on the police force and is countenanced by those in authority. They refuse to make specific charges, but place the entire new police force under susmade for a general investigation. Most of the men on the force are new men, placed there within the last month by the

new mayor, but very few being held over from the previous administration.

Mrs. May Webb, President Woman's Kaffe-klatch Club, Menasha, Wis., is Advised by Her Doctor to take Lydia E. Pinkham's Vegetable Compound for Inflammation of the Womb, and is Cured. She says:

"DEAR MRS. PINKHAM: - How little we appreciate health until it has left us; then it appears as the most precious gift to mankind. I enjoyed good health until four years ago when I caught a severe cold at the menstrual period. I thought little of it at that time, but when nine weeks after I found it had settled into inflammation of the womb, I wished I had been more careful. I suffered agonies for months; lost my happy disposition, and nothing seemed worth having if I could not have my health. My good old doctor, after prescribing several worthless remedies, was good enough to say 'Try Lydia E. Pinkham's Vegetable Compound, several of my patients have been cured through its use.' I did so; I had great expectations, and it did not disappoint me. Before the first bottle was used I felt relief; I took it faithfully for nine weeks, and that blessed Compound surely cured me. It seemed to build up all the weak parts, allayed the inflammation, and brought blessed health back to me. I know how to appreciate it, and I know also that it was due to Lydia E. Pinkham's Vegetable Compound only."-Mrs. Mary Webb, Menasha, Wis.
