## COMMERCIAL AND FINANCIAL

Copious Rains in Nebraska and Kansas Send Prices Headlong.

DRY WEATHER BUGBEAPS IN HIDING

ears Dominate and Wheat Suffers Over Cent Drop, While Corn, onts and Provisions Also Close Below Saturday's Figure.

CHICAGO, May 5.—Acting on the belief that the drouth rules in grains are over, speculators pressed the market today and declines were the order in all the pits. It was clearly a day governed by the disappearance of the dry weather bogsy and at the close July wheat showed a loss of like, July corn %6% and July oats &c. Provisions closed a shade to be lower.

Hears started to dominate wheat at the sound of the opening gong. Hearish news was at hand in good array. Cables were lower, receipts were improving, but greatest of all factors was the heavy rains that had come to the relief of Kansas and Nebraska. Private wires had reports of crop damage as usual, but the trade came to the speedy conviction that all was not lost in the southwest. Estimates of the Kansas wheat yield that had been as low as 25,000,000 bushels. Moreover, statisticians were showing that with even that small yield the Kansas crop would be more than average. Under these influences some heavy lines of long wheat owned locally went overboard and St. Louis and Kansas City sold heavily both here and in their own weakening markets. The only governing bullish factor was fear of more rain in the oversoaked spring wheat country. July wheat opened 147%c to 167%c lower at 7544775/c, touched 75%c and then simped to 74%074%c. There was a large short interest in wheat and on the decline many of the offerings were absorbed to cover accounts. Prices for July railled to 750, but the close was weak and I've lower at 7546776c. Local receipts were 21 cars, 2 of contract grade; Minneapolis and Duliuth reported 234 cars, making the total for the three points 315 cars, against 253 last year and 418 a year ago. Primary receipts were 456,000 bushels, compared to 696,000 bushels last year. Beaboard clearances, in wheat and flour, equaled 164,000 bushels. World shipments were 8,608,000 bushels. The visible supply decreased 2,121,000 bushels. The visible supply decreased 2,121,000 bushels. The visible supply decreased 12,000 bushels. The visible supply decreased 12,000 bu

visible supply decreased 2,121,000 bushels. The seaboard reported 29 loads taken for export. Corn ruled weak on the influence of rains and the depression in wheat. The southwestern markets were selling liberally and were weaker, Kansas City being 2c off at one time, and at a discount under Chicago prices. Long corn was dumped freely in the pit, and traders everywhere argued bearishly because of the good growing weather. The rains have started farmers to giving up their corn stores more liberally. Rumors were current that some deal was on in this pit, but shorts continued to sell to some extent. Cables were weaker and influenced dips and receipts were more liberal. July corn started \$60\cdot corn. There was a raily to 61c on covering, but the close was weak, July \$67\cdot cover at \$64.050\cdot cover co

NEW YORK STOCKS AND BOND Early Anxiety in Financial World R

lieved Before Market Closes.

lieved Before Market Closes.

NEW YORK, May 5.—The disturbance and anxiety which were felt in the financial world this morning were much relieved before the close of the day on the Stock exchange. If known before the stock market opened that the hopes entertained on Saturday of securing means to tide over the firms threatened with embarrassment had failed and there was nothing for the houses but to announce their inability to meet their contracts. In two cases the failures were fullly expected, but the third came as something of a surprise.

There was heavy liquidation on the Stock exchange when they were announced, but the effective support offered the general market checked the indiscriminate liquidation and induced more sober reflections. There is no doubt there was considerable distrust felt of the fabric of credits generally, owing to the ignorance of the extent to which the collapse of the Webb-Mayer stocks had involved others.

There was the fear this morning that the results must be faced of similar operations of other pools in various specialties and even of munipulative advances in standard railway stocks; but the readiness with which offerings were absorbed quieted the nervous excitement and induced some buying back of stocks by hasty sellers. In fact, the day's net losses are found to be quite insignificant as a rule and not a few important stocks closed higher than Saturday. The reports of copious rains in the southwest and the effective breaking of the drouth conditions which have kept awake anxiety regarding the crops was a material aid to the recovery.

The persistent upward course of Louis-ville & Nashville was a sustaining influence.

Foreign Financial.

LONDON, May 5.—Gold premiums were quoted as follows: Buenos Ayres, 140.10; Madrid, 37; Lisbon, 28.50; Rome, 1.95. Discounts tended to be firmer. Business on the Stock exchange dragged. Kaffirs sagged on the absence of public support. There was continued demand for Metropolitan rails. Americans were undecided, but reflected the raily in New York, especially Union Pacific. Transactions were restricted. Prices closed irregular and quiet.

WASHINGTON. May 5.—Today's statement of the condition of the treasury balances in the general fund, exclusive of the \$150,000,000 gold reserve in the division of redemption, shows: Available cash balances, \$186,884,980; gold, \$94,525,876.

Cotton Market.

FIGS—California, new cartons, \$1; imported and the effective breaking of the drouts conditions which have kept awake and the effective breaking of the drouts conditions which have kept awake and the effective breaking of the drouts conditions which have kept awake and to conditions which have kept and to conditions which have been and as fright and conditions which have kept and to condition

NEW YORK, May 5.—COFFEE—Spot. Rio, quiet; No. 7 invoice, 5.7-18c. Mild, quiet; Cordova, 84,6912c. The market opened steady, with prices unchanged, and for the rest of the day was quiet; without important fluctuations. The foreign market news lacked special feature and receipts in the crop country were quite as expected. Toward the close light selling by importers and absence of speculative aupport allowed prices to sag somewhat. The close was quiet, with prices net 5 points lower. Total sales were 6,000 bags, including July, 5.1065.18c; September, 5.30c; December, 5.55c; January, 5.65c; March, 5.1566.80c. The world's visible supply figures for the month of April show an increase of 134,800 bags to 11,332,746 bags.

Sugar Market.

many cases did not bring much more than steady prices.

Bulls and veal calves sold at a little stronger prices this morning where the quality was at all good. Stags also improved in prices and as high at \$6.00 was at paid for a bunch.

Stockers and feeders were scarce this morning, but the demand showed an improvement over last week, probably owing to the rains, so that the prices paid looked right around a dime higher than Friday's quotations. It was the choicer grades, though, that every one wanted and common cattle did not show much improvement. On Saturday there were eight cars shipped to the country. Representative sales:

hogs here today for a Monday, and the market opened steady to strong on the heavy weights of good quality. The quality of the offerings, however, was not particularly good today, so that the bulk of the hogs sold in just about Saturday's notches. Trading was not active at any time, but still the most of the hogs were disposed of in good season. Toward the close when the better grades had been picked out trading was very slow and the feeling on the last end was weak. Packers did not want the common grades and sellers found it almost impossible to get even a bid on that class of hogs. The most of the good weight hogs soid from \$1.65 to \$7.15. The top was not as high today as on Saturday, but was owing to the lack of prime hogs. The medium weights soid from \$6.55 to \$7.15. The tone is steady for the general run of both cotton and woolen general run of both c
