lower. Heavyweights in particular were weak. As there was nothing strictly prime on the market, the top prices do not look very high on paper. Most everything, though, was sold in fairly good season. CATTLE-There was another very light run of cattle here today, which makes the supply for the first half of this week ex-ceedingly light, both as compared with the last several weeks and also with the same days of last year. The demand was fairly good, so that the general tendency of prices was upward on the better grades. Packers started out fairly early this morning and bid a little stronger prices on the good to choice beef steers. The very best grades sold about 5600c higher and cattle answering to that description are about 1625c higher than they were at the close of last week. The less de-sirable grades did not sell any higher today than they did yesterday, but still they are a little higher than they were last week. The demand, though, is very light for the common grades and sellers found kinds today at satisfactory prices. Prac-tically everything, though, was out of first hands in good season. The cow market was also fairly active today owing to the light receipts, but the activity was principally on the better grades. The good to aholce kinds were yesterday, but the medium and common grades showed very little change from yes-lierday. As compared with the close of last week the prices paid today for the best grades were just about 15625c higher, but still the market is very uneven and com-mon grades in particular sell very un-evenly, but on the average prices are a little higher than they were last week. Buils, veal calves and stags also strengthened up to some extent today in sympathy with the advance of stock-ers and feeders in the yards this morning. sales:

sympathy with the advance of steers and cows. There were only just a few cars of stock-ers and feeders in the yards this morning, and the market was a little stronger. Any-thing good sold a little higher, but, of course, the commoner grades were more or less neglected, the same as usual. Yester-day there were 22 cars of cattle shipped to the country. TAKES RUTH EWART WITH HER

Mrs. Dodder Gets Court's Permission for Child to Go to California.

Ruth Ewart, whose father, J. S. Ewart of Kearney, brought on habeas corpus proceedings in district court here by seizing her and carrying her to Council Bluffs in a somewhat sensational manner one Sunday morning last winter, had her name in court again yesterday morning.

In disposing of the proceedings Judge Baxter had ordered that the little girl be left in the care of her grandmother, Mrs. Ruth N. Dodder of Omaha, for most of the

year, and that she was not to be taken out of the state without an order from the court The child's mother, Mrs. J. S. Ewart, is now reported to be so seriously ill in Cali-

fornia that Mrs. Dodder must go to her and she (the grandmother) has secured Judge Baxter's permission to take the child along for a six weeks' stay.
