Prices Revive After Wednesday's Slump and All Pits Close Up.

BIG GAINS IN PROVISION MARKET

Cash Situation Strong, Cereals Freely Bought and Bearish News Ignored -Corn Shows Strength with Little Stuff Outstanding.

CHICAGO, May 8.—It was buyers day in the grain markets today. There was much hesitation early on weather conditions, but the situation did not warrant fresh pressure; cash business was good and prices made good advances. July wheat closed 12½c to 30c higher.

Hears who had been hammering wheat prices on favorable weather conditions found too many buil factors arrayed against them today. The weather was good over nearly all the wheat belt and statistical journals issued bearishly favorable crop news, but receipts were very small and the cash situation was very strong. Cabies also were comparatively firm when the depression was taken into consideration. After an early see-saw in prices buils took hold firmly and worked advances. The cash situation has gradually developed a strength that the traders say probably will influence speculation for some time. Elevators have all the wheat in sight, the country is offering little and the elevator people have sold much of their holdings at July prices rather than at the lower May prices. The result has been a scarcity of cash wheat at the recently current May figure. Today's prices in outside markets advanced above July and at one time here almost equaled them. Added to this was a good corn atrength, Good cash sales were made late, fourteen loads being taken for export here. Shorts covered freely and July, which opened 46%c to 44%c to 44%c, sold up to 74%c and closed 46%c up at 75%c. Receipts, 23 cars, none contract; Minneapoils and Duluth reported 101 cars, a total for the three points of 124 cars, against 253 cars last week and 230 cars a year ago. Primary receipts were 180,000 bushels, compared to 852 cars last year. Seaboard clearances equaled 334,000 bushels.

Corn ruled strongest of the grains today and made good advances. The slump was not responded to by the foreign markets and although all outside news on the crop situation was exceedingly bearish, everything on the situation favored the bears. There is little corn outstanding, receipts continue small and the leading bull house is credited with holding twice as much long corn as there is old stuff visible. After hesitating for a time at the opening "tailers again took the bullish view of the market and bought liberally shorts covered and then the bull leaders sent prices up further by taking in stuff in good quantities. Traders generally regarded the position of the bull party as such that at any open buying by it the crowd quickly follows. July early sold as low as 60%c, advanced to 61%c and after some liquidation for profits closed firm, %6%c up at 61%s in the crowd by the prominent out operator in May options started a buying movement. July sold early at 35%c. Receipts, 135 cars.

Provisions were influenced for good ad-35 cars. Provisions were influenced for good ad-

Provisions were influenced for good advances by a continuation of the demand that has marked the pit for several days. The hog market was strong and packers gave the pit good support. Liquidation was in the shape of outside profit taking. Corn strength also helped in the upturn. July pork closed fic higher at \$17.25; July lard, 12½c up at \$19.22½, asd July ribs 12½c higher at \$9.65.

Estimated receipts for tomorrow: Wheat, 12,000 head.

NEW YORK STOCKS AND BONDS,

Recuperation in Stocks and Bonds Recover Sympathetically.

NEW YORK, May 8.—Stocks recovered from yesterday's weakness today, although there was considerable uncertainty manifest in the prevailing sentiment. A more cheerful feeling over the anthracite outlook is responsible for considerable rebuying by short sellers of yesterday, professal confidence last night that a strike could not be averted. The active coalers reflected no misgiving for the announcement of the miners' officers to arbitrate, but they fell into comparative duliness. The high-priced coalers offered the anomaly of the early trading, while the Readings were advancing and a strong recovery, owing to the demand for Readings had largely died out. NEW YORK, May 8-Stocks recovered

out.

The whole market fell into duilness in the latter part of the day, while waiting for the announcement of the reply of the anthracite operators to the offer of the miners. The result is that the day's transactions are not more than half those of yesterday.

miners. The result is that the day's transactions are not more than half those of
yesterday.

Outside the Readings the principal activity was in St. Paul, Union Pacific, the
iocal tractions and Southern Railway.
Union Pacific and St. Paul were bought
heavily for western account, the attraction being attributed to crop conditions.

The referee's decision upholding the constitutionality of the New York franchise
tax law induced some active liquidation of
the stocks of New York public utilities,
but they were well supported and railied.

The advance in Louisville & Southern
Railway met realizing. Reports of an apparent contest between the two interests
for control of coal lands increased the disposition to sell. Illinois Central became
strong in contrast to its weakness yesterday, while the other two stocks were advancing.

There were evidences of strength among

strong in contrast to its weakness yesterday, while the other two stocks were advancing.

There were evidences of strength among various minor stocks, which are supposed to be the subject of manipulation by speculative pools, although various rumors continued to circulate of their prospective absorption and merging. Tennessee Coal and Colorado Fuel were under pressure. The last named, however, recovered to well above last night. International Power fell 9 points below the last sale price, but fully recovered. There was a sale of St. Lawrence & Adirondack at 52, compared with the preceding sale at 133%.

This sale was before the collapse of the Webb-Meyer stocks. The incidental statement by Dr. Webb that he had sold the road to A. L. Meyer was news to the public this morning.

Money went to 9 per cent again today, but sterling exchange turned weak and New York exchange at Chicago recovered from 20 cents discount to 10 cents premium. Money brokers report offerings of large sums for lending in New York from various quarters of the country. The loss already this week to the subtreasury of over £2,000,000 is to be reckoned with in considering the money market situation.

The bond market recovered today in sympathy with stocks. Total sales, par value, £1,150,000. United States 3s and the new 4s declined ½ per cent on the last call.

LONDON, May 8.—The amount of bullion taken into the Bank of England on balance today, £5,000. Gold is quoted today at Buenor Ayres, 139.69; at Madrid, 36.77. The weekly statement of the Bank of England shows the following changes: Total reserve, decreased, £276.009; circulation, increased, £119.009; bullion, decreased, £157.482; other securities, decreased, £24.444; other deposits, decreased, £278.000; government securities, increased, £278.000; government securities, increased, £278.000; The proportion of the Bank of England's reserve to liability is 48.61 per cent. Last week it was 44.88 per cent. Rate of discount unchanged at 3 per cent.

LONDON, May 8.—Money was somewhat easier today and the demand was fair. Frices on the stock exchange were moderately firm and there were few transactions, pending the settlement tomorrow and the mining carry over. Glit-edge securities were in some demand. Americans were dull at the outset, due to the irregularity of prices in New York; grew firmer to somewhat above parity, strengthened later and closed firm. Kaffirs were firmer on the war news.

PARIS, May 8.—This was a holiday on the bourse.

Condition of the Treasury. WASHINGTON, May 8.—Today's statement of the treasury balances in the general fund, exclusive of the \$150,000,000 gold reserve in the division of redemption, shows: Available cash balances, \$187,818,607; gold, \$95,643,911.

highest price paid here this year. They were fancy, though, and weighed 1,330 pounds.

The cow market was active ond strong this morning all around. The better the quality the bester the demand, but still even the medium and common kinds sold without much trouble at steady to strong prices. As noted yesterday, the trade is very uneven owing to the rapid fluctuations that have taken place within the last few days, so that some sales look a good deal higher than others. It is a good deal of a catch-as-catch-can market.

Buils, veal calves and stags of good quality all commanded steady to strong prices today. quality all commanded steady to strong prices today.

There were only a few stockers and feeders on sale this morning, and anything desirable soid at just about steady prices as compared with yesterday. The demand from the country is not rushing, as is shown by the fact that there were only 13 cars of cattle shipped to the country yesterday, Representative sales:

It is stronger trading at this point started out on a bisis of about a &c advance and closed loc higher than yesterday's general market. The market was active, so that the bulk of the offerings was disposed of in good season. The advance was general on all classes, though, of course, the lightweight stuff and common grades were neglected and hard to sell, the same as usual. The bulk of the good weight hogs sold from \$7.66 to \$7.00 and the medium weights went mostly from \$6.96 to \$7.00, while the light stuff sold from \$6.96 down.
