

## CLOSE DOWN MINES

### Some of Operators in Hasleton Field Decide to Make It a Lockout.

### INDICATIONS LONG FIGHT IS EXPECTED

### Men Hold Meetings in All Towns to Select Delegates to Convention.

### RETICENT ABOUT INSTRUCTIONS GIVEN

### Many Leaders in Scranton Field Opposed to Calling General Strike.

### POINT OUT OPERATORS ARE NOT WORRIED

### Temporary Suspension Hits the Railroads Hard and Those Handling Coal Lay Off Train Crews.

HASLETON, Pa., May 11.—Anticipating the action of their employees, two of the individual coal companies in this region have practically locked out their men. This step was taken last night when Cox Bros. & Co., operating the Beaver Meadow colliery, and Calver, Pader, Sons & Co., owners of the Lattimer mines, notified their employees that they need not report for work until ordered to do so. This order does not apply to engineers, firemen and pump runners, whose services are necessary to keep the mines free from water. These companies, it is believed, expect long struggles and their supply is strengthened by the fact that as Lattimer work has been suspended on the rebuilding of a fanhouse that was burned last week, the reconstruction of which was necessary to prevent the accumulation of gases in one part of the slope.

### Miners Hold Meetings.

Meetings of the United Mine Workers' locals were held in most of the mining villages in the Hasleton district today and delegates were elected to the convention which meets here on Wednesday for the purpose of deciding whether or not to make permanent the strike which was organized yesterday. It is impossible to ascertain the attitude of the locals on the strike question. The meetings were secret and the delegates were ordered not to divulge their instructions until they got into the convention.

The district headquarters of the United Mine Workers here were closed this afternoon and the leaders, who have just arrived from Scranton, were out among the men explaining the exact condition of affairs. Seventy-five per cent of the men employed in the various collieries in this (Lehigh valley) district are organized and operations throughout the region will be stopped until Wednesday at least.

### Plan to Run Breakers.

It was reported today that an effort will be made to start up the scrubber breaker, operated by A. Pardee & Co., with non-union striking men, so that all the coal that was not sent to the surface on Saturday may be prepared for market. A pool of the striking men in a supply, would indicate that this would be difficult to do if attempted. These men say that they will continue at work at the steam shovels, but under no conditions would they take the places of strikers at the mines.

Samuel Nedrey, a representative of the American Federation of Labor, who arrived here tonight, said the federation would render all possible aid to the miners in their struggle.

### Hard Blow to Railroads.

SCRANTON, Pa., May 11.—There will be no coal mined in the Scranton end of the anthracite region tomorrow. Even though the strike order was not certain of being religiously obeyed, there would be no mining at the company breaker and a meeting of the general managers and superintendents Saturday that no attempt would be made to operate.

Some of the companies, however, propose to keep a few, at least, of their washer-rollers, and the supply of fuel for locomotives, hoisting engines and the like. The companies will not admit that the agreement to refrain from an attempt at operating is eventually to resolve itself into a lockout, should events at Hasleton make such a thing necessary.

The strike has already made itself seriously felt in other lines of work. The railroads have laid off four-fifths of their train crews, in all about 100 men, and the Erie shops at Dunsmuir, where mine cars and machinery are repaired, will shut down indefinitely tomorrow, tomorrow throwing 300 men out of employment. Meetings of all the locals will be held tomorrow to elect and instruct the delegates to the Hasleton convention.

### Intelligent Miners Oppose Strike.

The sentiment among the more thoughtful and intelligent miners is opposed to a continuance of the strike. These men will use one of their chief arguments the significant fact that the company mine officials are not soliciting their men to vote against the strike, while at the same relative time in the last strike these same officers were working day and night to discourage the men from striking.

In the cathedral this afternoon Bishop Hogan asked the congregation to pray that the miners should be given light to do what is for the best and that something would intervene to secure peace.

The story that the Morganized fleets will be used to import coal and prevent a famine does not cause President Mitchell any evident concern. He dismissed it with the remark that the United States is importing coal to all parts of the world.

The Blue Rider breaker at the Ontario & Western company in an isolated settlement above Peckville, was destroyed by fire today. The fire was caused by a forest fire.

SIAMONG, Pa., May 11.—The local officers of the mines in the Shamokin district owned by the Philadelphia & Reading Coal and Iron company, the Union Coal company and the Mineral Railroad & Mining company were notified by their respective companies last night not to hire men to cut coal during the suspension of the United Mine Workers.

The mine foremen were also instructed to keep the boiler houses manned in case the firemen now at work should remain away from the collieries.

### Making Up Pay Rolls.

WILKESBARRE, Pa., May 11.—The clerks employed at the various coal offices in this city were hastily summoned from their homes this morning and put to work on the payrolls.

It is reported that all the employees of the mines in this region will be paid in full not later than Thursday and that when they receive their paychecks they will be told that they are no longer in the employ of the company. The miners, however, do

## NOT APPROVED A LOCK-OUT

Not approved a lock-out. They say if the Hasleton convention should decide not to continue the strike there will be trouble for the old hands to get their places back.

The district superintendents of the coal companies refuse to discuss the matter beyond the fact that their clerical forces were quite busy at present.

The sentiment as it exists at present in the Wyoming valley, is decidedly in favor of continuing the strike, and it is thought delegates who will be elected tomorrow from the United Mine Workers' assemblies from this region will be instructed to continue the strike, and to obtain any concessions from the companies.

Nearly all the Roman Catholic parishes of the Scranton district spoke out today and their remarks all of the same tenor. It was claimed that it would be great calamity to the people of the anthracite region and that the Hasleton convention should go about its work deliberately and with the full knowledge of the great responsibilities that rested upon it.

### Operators Arranging New Scale.

CARBONDALE, Ill., May 11.—A conference is to be held at Chicago tomorrow between the general officers of the Illinois Central railroad and its employees, represented by the Order of Railway Telegraphers, to adjust a new scale for the telegraph operators over the entire system. The order is represented by J. D. Dornoy, general chairman, of Mounds; R. T. Shannon, general secretary, of Anna, and Walter L. Sloan of Carbondale.

## SWEDEN'S KING LIKES FRANCE

### Spending a Month by the Seashore and Fraternizing with the People.

(Copyright, 1902, by Press Publishing Co.) PARIS, May 11.—(New York World Cablegram—Special Telegram.)—The king of Sweden is spending a month at Biarritz, leading a simple life in daily communion with the sea, one of his greatest friends. A charming picture is given by a French journal of the old man, now 73, buying trinkets from the various fairs that line the way (always providing that the merchant be young and pretty), and manifesting his interest in the pleasures of the humblest. He explains his love for the French by the fact that he is virtually a Frenchman, since his grandfather was born in Paris and his grandmother in Marseilles. He proudly wears two medals of French origin, one for military distinction, the other a life-saving trophy. Both were bestowed by Napoleon III, the former in 1861 on the Champ de Mars he received in common with his brother as a Heraultite. The second was an acknowledgment of his personal valor. He saved two women in a runaway by seizing the horse by the head and stopping it in its mad career. His athletic training had made the king wonderfully strong and served him well.

On the political situation in France the Swedish monarch is animated. He believes the Waldeck-Rousseau ministry will remain in power, but doubts that President Loubet will desire another term. "At least he has told me as much," is his conclusion. "A good, loyal, intelligent man of much cultivation and esprit," is his tribute to the French executive.

## SENDS GIFTS TO CARDINALS

### King Edward Remembers Kindness Shown to the Royal Envoy at Pope's Jubilee.

(Copyright, 1902, by Press Publishing Co.) PARIS, May 11.—(New York World Cablegram—Special Telegram.)—King Edward VII, according to a dispatch from Rome, has just sent a gift to each of the cardinals and high functionaries who received his envoy extraordinary last month on the occasion of the jubilee of Leo XIII. He gave them silver inkstands, mounted in ivory or tortoise shell, bearing his monogram. It is understood the king is well satisfied with the courtesy extended his envoy and with the message sent by the holy father.

## QUEEN'S ILLNESS ABATES

### Wilhelmina's Condition Continues to Improve and Physicians' Attendance No Longer Constant.

THE HAGUE, May 11.—The bulletins issued at Castle Wilhelmina concerning the condition of Queen Wilhelmina have been very favorable. It is now expected that she will soon cease altogether. The marked improvement of her majesty's condition continues and the constant attendance of her physicians is no longer necessary.

## MORGAN GETS THE SHIP CANAL

### Liverpool Paper Positive that American Has the Big Manchester Ditch.

LIVERPOOL, May 11.—The Liverpool Journal of Commerce asserts positively that J. P. Morgan has arrived at some arrangement with the Manchester Ship Canal company.

## Revolution in Costa Rica.

PANAMA, Colombia, May 11.—News has reached here from Costa Rica that the military elements in the neighborhood of San Jose, the capital, is in insurrection, refusing to recognize the authority of Amunodon Quiriqui, who was inaugurated president May 8. The insurgents are proclaiming Demetrio Yglesias, the former Costa Rican minister of war, as president. Senator Yglesias has declined to take part in the revolutionary movement.

## Colombiana Rebels Quiet.

PANAMA, May 11.—News has been received here from Bogota to the effect that the revolutionary situation in Colombia is quiet and that there are but few guerrillas still in arms. These are said to be awaiting the outcome of the present situation on the isthmus, where the revolutionists are making their last stand against the government.

## Lived More Than a Century.

ST. JOHN, N. B., May 11.—Word was received today of the death at St. Martins, N. B., on Friday night of the death of James Ross, who was 111 years old. On the occasion of his 110th birthday the municipal council of St. John county presented him with an easy chair. He was buried today.

## CUBANS HONOR SENOR PALMA

### Thousands Line Shores at Havana to Greet President-Elect.

### ISLAND'S FLAG FLOATS OVER MORRO

### Holed for First Time Over Ancient Castle Mid Patriotic Demonstrations as Republic's Future Executive Enters Harbor.

HAVANA, May 11.—At twenty-three minutes of this morning a large Cuban flag was hoisted over Morro castle here. This was the signal that the steamer Julia, with President-elect Estrada Palma and his party on board, had been sighted and others went up from the thousands who had patiently awaited Julia's arrival since daybreak. The crowd cheered for the new president and for the flag, which was hoisted over the famous fortress for the first time. It was a moment of exultation for the Cubans, and the fact that the stars and stripes floated from the castle did not lessen their enthusiasm.

The Cuban flag flying over Morro was the same one which was first raised over the senate chamber. It was sent to the castle yesterday and fastened to the halyards of the flagstaff used to signal the nationality of incoming vessels.

## Chance for Trade.

As the people of Japan come to accept and act on the doctrine—now being taught by its most thoughtful citizens—that its future prosperity depends largely on the substitution of machinery for cheap labor it will need to purchase these lines of goods in greatly increased quantities and the United States should be alert to gain its share of the trade. Already its commerce with Japan, including exports and imports, is greater than that of any other nation.

Inquiry made in Japan as to the relative merits of English and American locomotives proves that, general conditions being equal, the American locomotive is preferred. Japanese railway officials express a preference for it if for no other reason than that it is more quickly fitted and more readily conformable in details of construction.

The United States sends about two-thirds of the iron rails imported to Japan and the same proportion of the rails, having won this last trade from Germany, which has been a competitor for some time. It is also a large exporter of iron pipes and tubes to Japan last year, until then this import always had been greatest from Great Britain.

In spite of the higher price of our flour the Australian product cannot compete with it and the trade in Japan is expected to increase immensely as the use of this cereal is spreading among the people.

## NEBRASKAN BRINGS GREETING

### Rev. Huntington of Lincoln Fraternal Delegate to Methodist Church South.

DALLAS, Tex., May 11.—The four days of the conference of the Methodist Episcopal church in Dallas, Tex., opened today. Rev. D. W. Huntington, D. D., of Lincoln, Neb., chancellor of the Western university, and Lieutenant Governor John L. Bates of Boston, fraternal delegates of the Methodist Episcopal church, north, will present letters of greeting from that branch of the church, which is the largest body of Methodists in the world. This action is regarded as important, as it is possible that overtures for reconciliation will be made.

## TRIESTE LIKES AMERICANS

### Officers and Sailors of Chicago Have a Good Name Everywhere

(Copyright, 1902, by Press Publishing Co.) TRIESTE, May 11.—(New York World Cablegram—Special Telegram.)—The United States cruiser Chicago leaves here for Naples today, when Admiral Watson surrenders the command of the European squadron to Admiral Crowhurst. The Chicago has a reputation for being greatly respected by the local people and the accounts published of the incident at the Cafe Europa. The World correspondent is informed by one of the officers concerned that they were victims, first of an accident and then of an insult. A table was laid on the table, and the waiter, who was one of their number. A needless demonstration of protest was made by some Italians, among whom, by the way, the American officers dined with expressions of regret. The officers, seeing they were wasting their politeness, assumed an indifferent attitude, until they were provoked by some insulting allusions to the Philippines, and were threatened with assault at the hands of the excited Venetians. This drew a menacing crowd and the Americans in trying to force their way out were roughly handled and set upon by the mob, led on by a soldier and a fireman. Anyone acquainted with the credible character of these people, who lose all self-restraint when once roused, and the danger of knives being used, can understand the dilemma in which the officers were placed and their natural resolve to fight their way out.

## WANT MORGAN TO HELP THEM

### Passenger Traffic on the Thames Too Difficult a Problem for Londoners.

(Copyright, 1902, by Press Publishing Co.) LONDON, May 11.—(New York World Cablegram—Special Telegram.)—Londoners would welcome J. Pierpont Morgan warmly if he were to take in hand the passenger traffic on the Thames. After years of struggle with obstacles, the Thames Steamboat company has collapsed. There will be no passenger boat service this summer. Last year the London county council asked for powers to establish a proper service, but the ministerial majority in the House of Commons refused on the ground of interference with private enterprise. Now it is recognized that J. Pierpont Morgan is the only man who can solve the difficulty, but it is feared it is not a big enough enterprise to attract his attention.

## CHEAP LABOR OF NO AVAIL

### Machinery More Than Makes Up the Advantage of the Orient.

WASHINGTON, May 11.—An interesting resume of the trade of the United States with Japan last year is afforded by an extract from "Commercial Relations of 1901," which was made public today by Frederic Emory, chief of the Bureau of Economic Affairs of the State department. The feasibility of cheap labor to compete with machinery, it is stated, is shown in the fact that the greater part of Japan's exports hitherto has consisted of raw materials, while the largest item of manufactured goods has been cotton yarn, which is shipped almost exclusively to China, a country noted as well as Japan for its cheap labor. One of the most hopeful features of the situation in Japan today is the recognition of this fact by its educated classes. Prominent lawyers, statesmen and business men are beginning to agitate questions of policy with regard to labor, machinery and foreign capital, and the agitation is spreading rapidly among the social classes in the near future. Japan will thus afford a growing market for machinery. The United States already leads in the exports of electric light apparatus, mining machinery, paper-making machinery, and sewing machines, and watches sent to Japan.

## PROSPECT THAT IT WILL BE REACHED SOON

### Time During the Present Week.

### SENATOR RAWLINS OF THAT OPINION

### Other Members of the Committee Doubt that It Will Come That Soon—Several Speeches Yet to Be Made.

WASHINGTON, May 11.—Senator Rawlins, senator democratic member of the senate committee on the Philippines, today expressed the opinion that a vote could be reached on the Philippine government bill towards the end of the present week, but that the object of the present week's vote would be postponed until the date of the vote may be postponed until some time next week, but none of them place the vote later than the 24th instant, two weeks hence. They say that whenever the debate is exhausted they will agree to act, but that they object to naming a day for a vote until they are quite certain that there is nothing more to say pertinent to the subject.

The consideration of the bill this week will be interrupted by the consideration of appropriation bills, Monday being set apart for the fortification bill and Tuesday for the agricultural appropriation bill. Neither of these measures will consume a great deal of time and on each day it is expected there will be time left for the consideration of the Philippine bill.

Senator Foraker has given notice of a speech on the Philippine subject on Monday and Senator Stewart will speak Tuesday, both in support of the pending bill. The speaker also probably will be heard on the bill during the week, but among the opponents of the bill still to be heard are Senators Clayton and Money. It is probable that considerable debate will grow out of the speeches of Senators Foraker and Spooner.

Senator Lodge has given notice that on Tuesday he will move to meet at 11 o'clock each day to facilitate consideration of the Philippine bill.

### House Program.

WASHINGTON, May 11.—Tomorrow is District of Columbia day in the house. Special orders have been made for the consideration of several bills to follow the disposition of district business. They include the bill authorizing the issue of passports to residents of our insular possessions, the Adams bill for the reorganization of the consular service and a day for the consideration of war claims. The conference report on the omnibus bill will also be considered this week. Much time remains will be devoted to the naval appropriation bill.

### TO AMEND SUNDRY CIVIL BILL

Alison Offers a Provision to Erect Office Building for President.

WASHINGTON, May 11.—(Special.)—Senator Allison has offered an amendment to sundry civil bill appropriating \$250,000 for general improvements at the White House, including the construction of a temporary office for the president on the White House grounds just west of the executive mansion to cost not more than \$20,000.

The temporary building is designed to be used as the president's office and to provide cabinet rooms and quarters for the clerical force, so that the rooms now used for those purposes may be converted into private apartments for the family of the president. It is to be of brick, painted white, and one story high, and will be furnished at a cost of \$10,000.

The interior of the White House under the present plan is to be strengthened and the entire second floor converted into private apartments. An elevator is also to be furnished. The office building, it is said, can be constructed within three months. The alterations and improvements in the interior of the White House will be completed before fall.

The debate on the Philippine bill dependent during the early days of the week into an old-fashioned bloody shirt controversy, in which the civil war was fought over again and during which Senator Tillman made another of his remarkable speeches. An elevator is also to be furnished. The office building, it is said, can be constructed within three months. The alterations and improvements in the interior of the White House will be completed before fall.

## PROTEST ON LIBERAL RABBIS

### Orthodox Jews in New York Take Exceptions to Action of New Orleans Conference.

NEW YORK, May 11.—The discussion concerning the observance of the Sabbath, which arose during the annual session of the Central Conference of American Rabbis in New Orleans recently, has stirred up more or less argument among the orthodox Hebrews in this city. Vigorous protest has been made against the liberal school of rabbis who raised the question in conference to the extent suggesting that the Sabbath day should be changed.

The Talmud Torah committee of the Ohab Zedek congregation, this city, met and after denouncing the conduct of the rabbis at New Orleans sent, through Louis Freedman, chairman of the committee, a telegram to the conference at New Orleans as follows:

Rapporteur at Brunswick conference said: "For tearing down old architecture, for calling, for abolishing the Sabbath, for accepting Christianity and settling it all."

A circular is being distributed among the members of synagogues calling on the Jews to remain steadfast to their traditions and to aid in founding schools to keep the faith alive.

## TURN DOWN BRYAN AND SILVER

### First Club Organized in New England in His Honor Forensics

BOSTON, May 11.—(Special Telegram.)—A special from Thomaston, Me., announces that the Jackson club, the first Bryan club in the country, has repudiated the Nebraska and gilded its silver banner. When Bryan received the nomination in 1898 the democrats of Knox county, Congressmen Littlefield's district, organized the Jackson club, during the campaign. It is the last political organization in New England to forsake 16 to 1. Dr. G. L. Crockett, the club's president, says: "Science has solved the monetary problem and Bryan like Cady, Fiske and Blaine, must die with an unsatisfied ambition."

## BUTCHER SHOPS TO CLOSE UP

### Retailers Make an Attempt to Force Down the Wholesale Price of Meat.

NEW YORK, May 11.—Fifteen hundred retail kosher butchers of the East Side met today to consider the advance in price of meat by the wholesale kosher butchers. In an attempt to force down the price today's meeting decided that the retail shops should be closed all day tomorrow and Tuesday and that no meat should be bought from the wholesalers on those days. The question of the continuance of the refusal to buy meat will be discussed at a meeting tomorrow night.

## MAY TO ATTEND PETERSEN TRIAL

SIoux FALLS, S. D., May 11.—(Special.)—Considerable interest is being taken in the preliminary examination to be held at Viborg tomorrow of Wilhelm Petersen, who is charged with assault with intent to kill. Pending the result of the preliminary examination, Petersen will be held in bonds of \$2,000. The defendant is a farmer living near Viborg. On the night of May 6, during a fierce street fight at Viborg, he seriously cut and stabbed Anton Sorenson, a laboring man. The assailant, as well as his victim, is well known and scores of farmers will gather at Viborg tomorrow to attend the trial.

Mrs. Petersen is an inmate of the State Hospital for the Insane at Yankton. Superintendent Sherrard of the State Children's home, prevailed upon Petersen to consent to the removal of the children to his home in this city. Some of Petersen's neighbors interferred and offered to provide good homes for the little ones and this offer was accepted and the children are being properly cared for.

## KRANE ACKNOWLEDGES GUILT

SIoux FALLS, S. D., May 11.—(Special.)—A. Krane, who was indicted for the murder of a few days ago by Deputy Sheriff Volech of this city on the charge of embezzlement, preferred by the officers of the Farmers' Elevator company of Humboldt, waived preliminary examination and was bound over for appearance at the next term of state circuit court. Krane admits his
