Master Workman Narvis said in his report: If we were to change from the annual to blennial sessions we could advantageously use this amount in the employment of two more field men, which ought to mean an increase in our revenues-beneficiary and general-besides the great benefit in every other way. The opportunities are now af-forded us to push forward, and we should avail ourselves of every chance to advance the work of the order. The tendency of all fraternal institutions of this character is toward blennial or triennial sessions, for the reason that it affords the opportunity to use the funds paid for expenses of an-nual sessions for development of field work, which to my mind is one of the most important matters to be taken up at this session. I therefore recommend that the question of blennial sessions, and that it be made the policy of this grand lodge. There is less of a tendency to political work in this order than any other order that it know of, and I believe a change of this kind can be made without any friction whatever. Miss Stella McIntyre has gone to Des Moines, where she will visit for a few days before going to Chicago, where she will at-tend the graduating exercises of the Col-lege of Physicians and Surgeons.
