BENEFIT FOR THE REFINERS Advantage of Proposed Concession to Cuban Sugar Men Placed by Leavitt.

NEBRASKA MAN BEFORE COMMITTEE Says that Further Reduction of Duty

to the Island Will Directly **Promote the Refinertes'** Interests.

WASHINGTON, May 14 .- In giving testimony before the senate committee on Cuban relations Heyward G. Leavitt, president and manager of the Standard Beet Sugar company of Leavitt, Neb., said he had been identified with the beet interests for the last thirteen years, but never had been

associated in any way with Mr. Oxnard. mittee. His factory had been in existence about two years and its capacity is now sixty tons of sugar per day. He took issue with Mr. Rionda of New York on the point that the Cuban planters get the benefit of the countervalling duty on European sugars, contending that the treasury statistics show that for the last year the refineries had absorbed that entire benefit. He therefore argued that the refineries also would secure the full benefit of the proposed further reduction on Cuban duties.

He called attention to the fact that in his statement before the Industrial commission Mr. Havemeyer had said that the American company refined 90 per cent of the refined sugar in the United States. He argued that there is virtually only one purchaser for raw sugar in the United States, leaving no competition worth speaking of. History had shown that the Cuban does not store his sugar.

Little Help in Sight.

"Hence," he added, "the conclusion is ogical that if we were to give to the Cuban ! planter a further advantage of 32 cents per hundredweight, as it is sought by the pending legislation to do, he will be very little better able to realize that advantage than he is to realize the existing advantage." Speaking of the Brussels agreement, Mr. Leavitt said that its effect would be to place sugar production on a normal basis and that when carried into effect Cuban

sugar no longer would be obliged to compete with countries paying enormous bounties to their sugar producers. Another effect would be the restoration of the sugar white then hit sale and Curry scored. The next man went out. Nebraska tried hard, but could not get a man past second in the ninth. The game ended and Kansas had won its first base ball game from Nebraska for two years. Score: refining business of England, making that country a competitor with the United States in purchasing Cuban sugar, and thus giv-

Mr. Rionda said that if the reciprocity bill should pass as it now stands it will have the effect of repealing the countervailing duties on sugars from European submarine boats, dynamite cruisers like countries provided by the Dingley law and that in that event not many years would which Mr. Dayton claimed were particuelapse before the sugar refining business larly ineffective. of the United States would become a thing

Circular Issued by Man Named Smith.

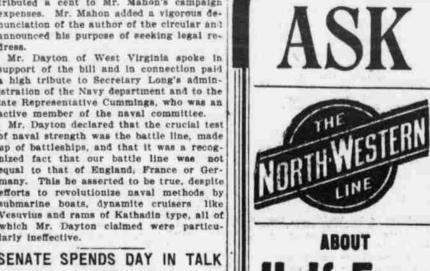

WASHINGTON, May 14 .- The chaplain of the house. Dr. Couden, made reference in his opening invocation today to the calamity in Martinique, asking mercy for the suffering and stricken people and that out of the great tragedy might come a larger and deeper spirit of fraternity throughout the world.

Consideration of the payal appropriation bill was resumed. It was agreed to close the debate on the bill at 3 p. m. tomorrow. Mr. Mahon of Pennsylvania, chairman of the committee on war claims, then rose to a question of personal privilege. He read a circular signed by Henry A. Smith and said to have been circulated among members. alleging that Nathaniel McKay had told Smith of paying hundrede of dollars for Mr. Mahon's campaign expenses, with similar statements as to other members not named. Mr. Mahon vehemently denounced the statements of the circular as false, and he presented an affidavit sworn to by Mr. McKay to the effect that he had never made such statements and that he had never contributed a cent to Mr. Mahon's campaign expenses. Mr. Mahon added a vigorous denunciation of the author of the circular and

a high tribute to Secretary Long's admin-Mr. Dayton declared that the crucial test of naval strength was the battle line, made through the house represented by Mr. up of battleships, and that it was a recognized fact that our battle line was not equal to that of England, France or Germany.
