Ontside Interest in Market Lax and Grain Speculations Hang Apathetic.

LOWER CLOSINGS DEALT WHOLE LIST

Bearish Weather Reports Prevalent to Cereals and Absence of Support with Outside Liquidation Burden to Provision Prices.

CHICAGO, May 19.—Speculation in grains, was lacking ir spirit today and resolved itself into a dull weather market. Local conditions prevailed in most of the winter wheat country and in the corn and oats regions. Prices declined generally, but a later improvement in export business brought a slight reaction and July wheat closed only inc down, July corn in the lower and July oats in closer. Provisions closed a shade to loc down.

Once more the outside interest kept out of the wheat market and thus brought general apathy among traders. All the Once more the outside interest kept out of the wheat market and thus brought general apathy among traders. All the English markets were closed because of holidays, consequently there were no cables to figure upon. In addition to the bearish feeling that would naturally result from this duliness was the reports showing good rains all over the winter country and warm weather to help growth. Northwestern points reported more flooding rains in the spring country but the bullish influence of these advices were offset by the expectation that the fine weather conditions in winter wheat would more than make up the difference of late spring seeding. Country offerings were increasing. St. Louis getting about 100,000 bushols, mostly from Kansas. There was a most hearish feeling prevalent in the wheat pit, but the trade changed its views on the relative merits of the July and September options. September showed 2%c under July Saturday and the difference was narrowed to ic today by several big houses covering September short accounts. July opened a shade lower to a shade higher at 74%674%c and on a small selling pressure declined to 74%c. Considering the idleness of the foreign markets a remarkably strong export demand then arose. Local sales were good and the seaboard reported 41 loads taken. This took away much of the weak tone and July railled to an easy close, 4c lower at 744,674%c. Local receipts were 24 cars, 2 of contract grade. Minneapolls and Duluth reported 28 cars, making a total for the three points of 282 cars, making a total for the three points of 282 cars, making a total for the three points of 282 cars, making a total for the three points of 282 cars, making a total for the three points of 282 cars, making a total for the three points of 282 cars, making a total for the three points of 282 cars, making a total for the three points of 282 cars, making a total for the three points of the contract grade. Minneapolls and Duly supply decreased 1,725,000 bu. Breadstuffs on passage increased 666,000 bu. World's sh on passage increased 666,000 lbu. World's shipments were 3,40,000 bu, 'as against 7,79,000 bu, last week.

Corn ruled rather weak on the ideal weather conditions. Country offerings were reported freer and commission houses sold. The greatly increased receipts at this point predicted last week did not materialize, but the prospects of a better movement deterred the outsider from speculating and resulted in a dull trade and a general decline. Had it not been for some fair support by the leading bull manipulators the weather conditions would probably have brought a very weak market. Export business was practically at a standstill, as it has been ever since corn worked above 50c. In sum, the sentiment was bearish but business was so listless that closing changes were only fractional. July sold at 61%c, dipped to 61%c and closed %60%c down at 61%c0l%c. Receipts were still small at 68 cars.

Oats ruled dull and easy. Crop reports were favorable, but the cash demand was good and sustained prices from suffering much under the influence of the other grains. July fluctuated only %c and closed easy, %c lower, at 35%c. Receipts were 190 cars.

Provisions felt the weakening influence

easy, 150 lower, at 36%c. Receipts were that the lowest state of cars. Provisions felt the weakening influence of outside liquidation; and an absence of a good support. Hog prices at the yards were higher but declines were registered in all products. July pork closed 10c down at \$17.25, July lard 5607%c lower at \$10.25, and July ribs a shade under at \$3.67%@ 8.70. Estimated receipts for tomorrow: Wheat,

the tone became heavy again and closed so.

The recent factors of depression continued in force, namely, the uncertainty over the effect of the anthracite miners' strike, the situation in the local money market and the crop outlook.

There was some irregularity in the opening dealings, and the hard and soft coal stocks made some stand against depression. The grain carriers, on the other hand, were weak and made general declines of a point or more. The reports of heavy rains in the northwest were considered unfavorable for spring wheat, but the weather in the southwest was good and winter wheat was reported doing well. Weakness permeated the list pretty generally. Weakness permeated the list pretty generally.

There was notable selling of the United States Steel stocks, which seemed to gain force when announcement was made of the several protests presented at the stockholders' meeting today against the pian for the conversion of stock and issue of bonds.

The relative firmness of the coal stocks was due to current reports that the Na-tional Civic Federation was still making

tional Civic Federation was still making efforts to settle the strike.

The money market was rather easy today as a result of the active measures taken last week to secure additional credits abroad and from other sources than the banks.

There was a significant stiffening of the foreign exchange rate, which indicates that a high level of interest rates is all that diverts credits to the New York market. The opinion is held that even a slight relaxation in interest rates would lead to early withdrawals of good from New York.

There were some violent relapses in prices of high-priced usually inactive stocks, and international Power dropped back is points again on nominal sales. The market closed dull and heavy. Houghout. CATTLE—There was an extremely light run of cattle here today for a Monday, there being a big decrease both as compared with the same day of last week and also with the same day of last week and also with the same day of last week and also with the same day of last week and also with the same day of last year.

There were quite a few good to choice steers included in the receipts this morning, but buyers did not take hold with much life and a slow and lower market was experienced. The trouble seemed to be that Chicago was quoted loc lower, and some reports put the decline at 10@15c. Packers at this point naturally tried to buy their supplies lower, while sellers wanted steady prices because of the light receipts. The market was slow from start to finish the prices paid looked rather uneven. steady prices because of the light receipts. The market was slow from start to finish and the prices paid looked rather uneven, so that while some sales looked right close to steady others were fully 5@loc lower than the close of last week. Although trading was slow the bulk of the offerings was out of first hands in good season. There were only a few cows and helfers here this morning, and packers took hold in much better shape than they did of the steers. The market could safely be quoted steady to strong and fairly active. Of course the strength was confined almost entirely to the more desirable grades, but still the commoner kinds sold for fully as much, as they did last week.

Bulls veal caives and stags showed no quotable change from last week, where the quality was satisfactory.

Stockers and feeders were very scarce this morning, and as speculators carried over very few from last week, seliers had no difficulty in getting steady to strong prices for anything that was at all good. Representative sales:

BEEF STEERS.

BEEF STEERS.

HOGS—There was a light run of hogs here 'oday, as will be seen from the comparisons in the table above, but with rather unfavorable reports from other points the market opened slow and ateady to a shade lower. Most of the trading was done on a lower basis than Saturday's opening, but better than the close on Baturday. The demand for good hogs was fair and they sold for steady prices, ranging mostly from \$7.16 to \$7.25, with top at \$7.22\forall Medium weights sold mostly from \$7.00 to \$7.15 and light, trashy stuff from \$7.00 town. Light hogs, as usual, were not ready sellers and sold at prices a shade lower throughout the morning. The market was not especially active at any time, but a fair clearance was made comparatively early, with no change in prices on the close. Representative sales:

AFFAIRS AT SOUTH OMAHA

Natural Amphitheater at Syndicate Park Not to Be Disturbed.

SUPERIOR PLACE FOR OUTDOOR MEETINGS

Board of Education Probably Will Make Up List of Janitors at Tonight's Meeting-Magic City Gossip.

The improvements in contemplation for Syndicate park may place South Omaha in a position to make a bid for all out-of-door meetings held in the county this summer. That Syndicate park is the most beautiful natural resort of its kind in the county goes undoubted, and the natural facilities on hand for the accommodation of large crowds adds to its attraction.

It is the plan of the owners of this land, in building the boulevard through it, not to cut into the natural amphitheater in the center. Whenever public speaking has been held in this place the amphitheater has been called into requisition. It is nothing more than a deep cut in the surface, surrounded by hills. In the bottom of this "pit" the speakers' stand has always been erected, while the people sat on the grassy banks of the incline, everyone in the audience having a perfect view of the speaker.

It is said that this place will be provided with seats, and that a permanent platform will be erected at the bottom. In this way thousands of people could be accommodated at almost any entertainment. Owners of property in this vicinity are also making preparations to beautify the neighborhood. As soon as the boulevard is completed and the road to Omaha is opened, Twentieth street, heretofore practically unusued, will probably become the popular driveway of the town, while the opening of G and H streets will open the way to the river, which has beretofore been a complex proposition. In all of these preparations the citizens are taking the utmost interest and doing everything within their power to push the work to completion. If the grading through the park is commenced at the time the fand company says it will be, by July 1, the park will be in complete order for any kind of a celebra-

The janitors of the public schools of South Omaha will be on the carpet at the meeting of the Board of Education this evening. At the last meeting the board seemed content with its labors, after having agreed upon ninety-four of the teachers, and while the janitor proposition was raised, still it was agreed that it had better go over until this evening. What will be done is easily guessed, from the expressions of the members of the board heretofore. If any of the old janitors are retained, the number will be extremely limited. There are about ten teachers yet to be elected and the list will probably be filled tonight. The fight in prospect will probably draw out the same large crowd of spectators who were present at the meeting of the board on last Monday evening. Caught Up on Work.

The city council has about caught up on its work and there is nothing of unusual interest in prospect at the meeting this evening. The little speech of Councilman Adkins at last meeting regarding the ability of the council to pay for sidewalk im-provements will probably have the effect of stopping any advances along this line, so, aside from the introduction of a few new ordinances and the reading and disposition of communications, but little will be accomplished.

Looking After Sidewalks.

The failure of the South Omaha Pontoon Bridge and Ferry company to successfully operate a bridge and ferryboat across the river at the foot of N street has in no manner dismayed a few enthusiasts here. who claim that they will soon organize another company and that a ferry will be operated within a very short time. Those who are promoting the affair say that they will go after it in a different manner than the defunct company did and that they feel assured of success.

Probably No Street Fair.

The business men of the city have not encouraged the efforts of the promoters of the proposed street fair in South Omaha this fall, and as a result in all probability no entertainment of this kind will be given. The fair last year was a losing proposition for the bulk of them and they say that more than a year should intervene before talking up another one. Several, however, still insist that a street fair should and will be held here next September.

EPWORTH LEAGUE BIRTHDAY Organisation Celebrates Its Thirteenth Anniversary at First Methodist Church.

A special service was held in the First Methodist Episcopal church Sunday evening in celebration of the thirteenth anniversary of the organization of the Epworth league. Besides the regular Sunday night congregation about 150 leaguers were present.

The service began in the basement lecture room, where at 6:45 the leaguers gathered for worship. This meeting was led by the president, W. H. Beach. J. O. Detwiler spoke on "The Possibilities of the League" and Dr. B. L. Paine of Lincoln followed with an address on the subject, "Finances of the League, and Christian Stewardship."

At the close of this feature there was the processional, in which the robed choir led the 150 leaguers up the stairs to the main auditorium, all einging, "Onward, Christian Soldiers."

Dr. J. W. Jennings presided over the upstairs service, which was opened by prayer by Dr. T. A. Parker of Mason City, Ill. The speaker of the evening was B. L. Paine, M. D., of Lincoln, who spoke on the subject, "Practical Things in Christian Life." The address was replete with incidents drawn from the doctor's personal experience. He has a piquant style and his discourse was spiced with frequent touches of humor.
