A novel bit of evidence was introduced in the United States circuit court Friday morning in the case of John R. Williamson against the Cudahy Packing company. In this case the plaintiff seeks to recover the sum of \$10,000 for personal injuries re- ceived while he was employed as a car- pentor upon an ice house of the company. The description of the ice house shows it to be a building of peculiar construction, hav- ing what is called a false floor or a false roof. The defendant, for the purpose of showing the jury the exact condition and the house, has had prepared a model of the which the plaintiff is alleged to have been injured. The model is about three feel aquare and occupies a conspicuous position on the table before the judge.
