

COMMERCIAL AND FINANCIAL

Upturn Favored by Bullish Statistics and Cereals Make Gains.

BEARISH ARGUMENTS IN PROVISIONS

Weak Hog Products and Values Drop Off, While Wheat and Corn Close Up with Oats Unchanged.

CHICAGO, May 26.—Bullish statistics, especially big increases in local stocks, especially in grain, gave bull traders good buying incentives today and fair gains were made in grain prices, but provisions were weak and closed lower.

Wheat showed a good amount of strength, although early in the session there was a short-lived dip on a dull market. Cables were weak, there was a better reaction in grain prices, and opinions differed about the weather conditions. July opened steady. A fair commission was offered for the larger station house demand helped prices along for a time, but because of good crop prospects. When the visible supply showed a decrease of 2,248,000 bushels and closed up. Cereals in local stocks were taken into consideration bills began to lift prices. Stocks during the week had been created 43,000 bushels and the northwest had lost 2,000,000 bushels. Traders here have been in the corn market, but have been excessive rains in many districts. There were some fair late arrivals, but the strength in corn the close was firm, 4 1/2c up at 7 1/2c. The close was firm, 4 1/2c up at 7 1/2c.
