GRAIN VALUES FORCED TO LOWER LEVEL

Generous Marketing of Country Holdings Sends Cereals Downward and Teamsters' Strike Affects Hog Products.

CHICAGO, May 22.—Bull speculators in grains who figured confidently on a raily in prices after yesterday's serious slump, came to grief again today. For a time they took hold of the bull arguments and upheid the pits, but made-to-order weather and indications that the farmer was rushing his old holdings to market pushed all prices down to a new level. July wheat closed %c lower, July corn %c depressed and July onts %d%c down. Provisions closed %c lower to %c higher.

Most of the influences in the wheat pit favored seliets, support from a strong quarter and the comparative firmness of the foreign market kept prices fairly firm for the first hour. Cables showed all little decline, but were not bearish. For a time corn helped wheat, but it soon became apparent that the bears had the situation in hand again. The weather in the winter country was warm, with rains, and in the northwest clear and warmer. Recardial great stress on this argument did were thriving on crop prospects. Recents were increasing. In the way shipped in and on its harvesting slumped. July opened were increasing. In the way shipped in and on its harvesting slumped. July opened were increasing slumped. July opened with the shipped in and on its harvesting slumped. July opened with the shipped in an on the harvesting slumped. July opened with the shipped in a shinde lower at 12%672%c and did you contract grade. Minneapolis-sand Duluth reported 200 cars, making a total for ithe three points of 224 cars, against 123 last week. A year ago the day was a boilday. Primary receipts were 31,000 bushels. Beaboard clearances in wheat and flour equaled 370,000 bushels.

Everyone with interests in corn was allert at the opening to see what stand the farmers would take on the Chicago bids sent out last night. The country again let go of between 300,000 and 400,000 bushels. Cables, however, showed indifference to our slump yesterday and the 200-cars. Trade turned very bearish, bears sold short and when the small supported fairly well for a time of the will stree

20,000 head.

Tomorrow being Decoration day and a legal holiday, there will be no business on the Board of Trade.

RECEIPTS FOR THE YEAR TO DATE. The following table shows the receipts of cattle, hogs and sneep at fouth Omaha for the year to date and comparisons with last year:
Cattle

CATTLE-There was a light run of cattle here today, so that the supply for the week to date is considerably smaller than for to date is considerably smaller than for the same days of last week or of last year. The better grades of all kinds of cattle did not show much of any change from yesterday, but the tendency of prices on common grades was undoubtedly downward. White the beef steer market could not be quoted active, still anything desirable sold without trouble at just about steady prices. As high as \$7.50 was paid for a load of long yearings that only averaged 1.50; pounds. When it came to the medium and common kinds the market was slow and sellers found it a hard matter to get what they considered steady prices in all cases, if Practically everything, though, was disposed of in good season.

The cow market was rather slow all around. Some of the very best grades brought just about yesterday's prices, but that the tendency of prices was downward all around. Some of the very best grades brought just about yesterday's prices, but that the tendency has been downward for some time because of the break at other markets. Sales were made here today that is looked 10c or even 15c lower than the same kinds sold for yesterday. But in spile of that fact the prices being paid on this market are well in line with the quotations at other points.

Good to choice buils, veal calves and stags all commanded steady prices today, but where the quality was not up to the proper standard the market was slow and weak.

There were only just a few bunches of stockers and feeders on sale today, so the market did not show much of any change from yesterday. The demand from the country so far this week has been nothing extra and for that reason speculators are not very anxious for the commoner kinds.
