SHARP CONTEST OVER THE COVENANT

Opening Guns in the Controversy Are Fired and Indicate an Animated Discussion at Today's Session.

PITTSBURG, Pa., May 31.—The morning session of the general assembly of the United Presbyterian church of North America was devoted largely to reading and discussing the report of the board of home mission methods.

The opening guns in the coming fight over the membership covenant were fired this afternoon. The discussion was short and sharp, but it served to indicate plainly how lively the consideration of the special committee's report will be tomorrow morning.

A well defined movement is under way to defer action on the covenant. The opposition to such treatment of the matter will be strong and it is already well organized. The covenant question is badly complicated as it now stands.

This latter section of the report was submitted to the committee on bills and overtures today. While the final part of the paper was withheld until its authors could report on it.

It is very convenient to attribute the disasters which overtake us to fate. But for the most part, fate is the arbiter of his own fortunes. Business men are struck down suddenly as by lightning.

"heart failure." "His heart was weak." It was fate for him to meet this end. But if we went behind the "weak" heart we should find a "weak" stomach, probably, and back of the weak stomach is careless eating at irregular hours.

When the stomach is diseased the organs depending on the stomach for nutrition are starved. Starvation means weakness of the body and its organs.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. When these organs are cured, diseases of heart, liver, lungs and kidneys, caused by the diseased stomach, are cured also.
