

either directly or indirectly from General Mills. Mr. Dietrich of Nebraska referred to a conversation he had had with Aguinaldo regarding the Malolos convention, which adopted the so-called constitution in which Aguinaldo had told him that no representatives from any of the southern islands or any of the provinces of the island of Luzon were present. This statement brought a reply from Mr. Patterson of Colorado to the effect that as Mr. Dietrich had opposed sending for Aguinaldo to appear before the Philippine committee, he did not think a conversation with Aguinaldo, who is about 1,000 miles away and unable to defend himself, should be repeated. The senate took a further recess for fifteen minutes.

On reconvening Mr. McComas of Maryland criticized Mr. Patterson for his defense of Aguinaldo and Mr. Dietrich told some remarks that were so personal that Mr. Bailey of Texas called Mr. Dietrich to order and requested that his words be taken down. Mr. Dietrich said if his words were in violation of the rules of the senate he would withdraw them.

and coins authorized may be coined at the mint, the coinage laws of the United States being extended to the islands. The Philippine government is authorized to coin a silver dollar containing 415 grains of standard silver, to be a coin of the Philippine islands, the denomination of the coin to be expressed in English, Filipino and Chinese characters.

Right to Grant Franchises. Silver brought to the Manila mint shall be coined for the benefit of the depositor, the mint charge being 1 cent for each dollar coined. The same coin may be made at the mint in San Francisco upon the request of the Philippine government with the approval of the secretary of the treasury, provided that such deposits at the San Francisco mint in the United States. Subsidary coins of silver also may be coined at the Manila mint under restrictions similar to those regulating the coinage of the dollar.

The dollar shall be legal tender in the Philippines for public and private debts, except where otherwise stipulated. Certificates may be issued for deposits of Philippine dollars in sums of \$20 or more. Other minor subsidiary coins are provided for.

The bill also continues the division of insular affairs of the War department, the chief of which shall be the rank of a colonel of the United States army.

President is Sustained. The Philippine government bill as passed by the senate today approves the action of the president in creating the Philippine commission and the offices of civil governor and vice governor of the islands, and authorizes the governor and vice governor to exercise the powers of government as directed by executive orders.

All the inhabitants of the Philippine islands are deemed to be citizens of the Philippine islands, and entitled to the protection of the United States.

When the insurrection in the islands shall have been subdued a careful census of the islands shall be taken and after such census the governor of the islands shall make a full report to the president and make recommendations as to future government.

The government of the Philippines is authorized to provide for the needs of commerce by improving harbors and navigable waters, providing warehouses, lighthouses, signal stations, etc.

All land in the Philippines is placed under the control of the Philippine commission for the benefit of the inhabitants of the islands, except such as may be needed for the United States.

The governor of the Philippines may make rules and regulations for the disposition of the public lands and the regulation shall not go into effect until approved by the president and congress, provided that a single homestead entry shall not exceed forty acres and also provided that no such land shall be leased, let or demised to any corporation until a law regulating the disposition of the public lands shall be enacted.

No corporation shall be authorized to engage in agriculture unless provision shall have been made therefor.

The bill provides at length how claims, both agricultural and mineral, shall be located and the Philippine commission is authorized to establish a mining bureau. The government of the Philippines is authorized to acquire and convey title to real and personal property and to acquire real estate for public uses by the right of eminent domain.

To Acquire Friar Estates. The Philippine commission is authorized to acquire the friar lands and to empower to issue bonds to pay for them. These lands, once acquired, shall be a part of the domain of the United States and may be disposed of as such.

Upon the supreme court of the United States is conferred the right to review the decisions of the supreme court of the Philippines.

Municipalities are authorized to issue bonds for municipal improvements with the consent of the president and congress, and the indebtedness of any municipality not to exceed 5 per cent of the assessed valuation of the property in the municipality. The bonds shall be gold bonds and shall be free from any taxation. A sinking fund for the payment of the bonds and interest thereon must be provided by the municipality issuing them.

The city of Manila is authorized to incur indebtedness in gold bonds to an amount not exceeding \$4,000,000 to pay for a sewer system and water supply.

STRIKE PROGRESSES SLOWLY

Mine Workers Have Little Success in Bringing Out Additional Men.

COMPANIES STRIVE TO KEEP MOVING

Minor Disturbances Occur, but Region is Comparatively Free from Disorder—Irish Anxious to Settle Trouble.

WILKESBARE, Pa., June 3.—There were no developments of incidents of special mention in the anthracite coal miners' strike today. The mine workers tried hard to bring out additional workers, firemen and pumpmen, and the companies are equally earnest in their efforts to hold the employees that have been loyal to them.

The strikers succeeded in getting out quite a number and one or two collieries were compelled to shut down their pumps because of a lack of men, but in all other cases the operators were able to fill the vacancies by drawing on their reserve forces of office and other employees. The mine owners claim that thus far they have employed few non-union men.

The entire coal belt remains comparatively quiet, although disturbances of a minor nature are becoming more frequent. At Miners Mills this morning and this evening men and women gathered in the streets and on corners and hooted the men that came from the mines to go to their homes. At Plymouth also this evening there was a small demonstration against those still working on the engines and pumps in the collieries there.

About 100 men, women and children followed the workers to their homes, calling their names along the way. Sometimes the workers go to their homes as accompanied by a number of their reserve forces of office and other employees. The mine owners claim that thus far they have employed few non-union men.

Today about 200 men from Nuremberg marched into Onondaga, where Coxie Bros. & Co. have a big colliery. There was some permissiveness shooting, but no one was injured. A car carrying special officers was sent from Drifton to the scene of the disturbance, where the police reached there the crowd had dispersed.

President Mitchell tonight gave out a statement, in which he said: Detailed reports from all quarters of the anthracite field indicate that the number of engineers, firemen and pumpmen who ceased work yesterday was considerably increased today.

There have been no violations of law on the part of the strikers, and our predictions made last week, that no further disturbances would be law abiding, have been more than verified by the events of yesterday and today.

The coal strike is remarkable in many respects. Were it not for the fact that the coal companies have hired private guards and coal and iron police employed, there would be no exterior evidence that a great industrial war was being waged.

We are sure that the splendid conduct of the men and boys who are engaged in this great, silent and passive struggle for their livelihood and the maintenance of their property must commend itself to all well disposed persons.

Irish Anxious to Settle Strike. NEW YORK, June 3.—Archbishop Ireland, who is chairman of the arbitration committee of the Civic federation, is anxious to settle the strike of the anthracite mine workers, in this city, and has had a consultation with several other members of the committee. The committee can, however, take no active part unless something happens to give it an opportunity to come forward as a peacemaker.

Scarcity of anthracite coal in this city is now more apparent than at any time since the strike began. Big trucks laden with soft coal are to be seen depositing their loads in front of many office buildings, the superintendent of the trucks being a Chinese rather than a white elevator operator.

Not a single bid for anthracite coal has been received by Dock Commissioner Hawks in response to advertisements. It is said the Manhattan Elevated railroad has four or five cars of anthracite and will mix it with soft coal in order to make it go further. Other large consumers are using soft coal freely and are willing to let the use of it now be tested in the courts. It is a question of burning soft coal or going out of business, they say.

Special Officers Kidnaped. HAZLETON, Pa., June 3.—The five special officers who were kidnaped by strikers at the railroad station here upon their arrival from Philadelphia last night returned home today in charge of J. P. Gallagher, district attorney of the United Mine workers, who furnished the transportation. The mine workers will make an effort to check the hiring of men in Philadelphia by representatives of the coal companies and may seek the aid of labor unions of that city in the movement.

MAHANAY CITY, Pa., June 3.—Two hundred men from the Mahanay city colliery are being held in the city jail.

CONDITION OF THE CROPS

Winter Wheat Makes a Splendid Growth in the State of Nebraska.

COOL WEATHER RETARDS THE CORN CROP

Outlook for Oats is Poor in Some Sections of the Country, but in Other Places is Reported Encouraging.

WASHINGTON, June 3.—The Weather Bureau's weekly summary of crop conditions is as follows: The week ending June 2 was abnormally cool in the lower Missouri, central Mississippi and Ohio valleys, the Atlantic coast northward to the Carolinas. Frosts, more or less destructive, occurred from the 25th to the 29th in the lake region, Ohio valley, Tennessee, western North Carolina, and the interior portions of the middle Atlantic states and generally throughout New England.

In nearly all districts east of the Rocky mountains crop growth has been marked by low temperatures, and rains have interfered with farm work in Oklahoma, Kansas, Missouri and Arkansas. On the Pacific coast the first part of the week was favorable, but the latter part was much too cool, with injurious frosts in the eastern parts of Oregon and Washington.

Corn has made slow growth over most of the corn belt and has suffered injury from frost in the Ohio valley and lake region. In the states of the lower Missouri valley the crop is much in need of cultivation, and in the lower Mississippi valley, Iowa and Illinois its condition is more favorable. Planting is nearly completed in the more northerly sections.

Nebraska Wheat is Good. Winter wheat has made favorable progress in the states of the Missouri and upper Mississippi valleys and in portions of the lower Ohio valley. The crop has made splendid growth in Nebraska and again improvement is reported from the upper lake region. Some complaints of rust are received from portions of Kansas, Oklahoma and Missouri and of lodging in the last named state. In Tennessee, Kentucky, the upper Ohio valley and the middle Atlantic states the previously reported unfavorable condition continues, this stands and heading low being generally indicated. Harvesting is nearly finished in Texas, but its commencement has been delayed in Oklahoma on account of the rains. The crop has made good progress on the Pacific coast, is maturing rapidly in California, where harvesting has begun in the San Joaquin valley.

Spring wheat is stealing well and is making splendid growth throughout the spring wheat region, except in lowlands in Wisconsin. In Iowa dry weather is needed to prevent too rank growth.

Oats Condition Unfavorable. The outlook for oats continues unfavorable from the middle Atlantic states and Ohio valley southward to the east gulf and south Atlantic coasts. In the Missouri and upper Mississippi valleys and the lake region the general outlook is encouraging. Harvesting is completed in Texas and continues in the east gulf and south Atlantic states.

Cool nights have checked the growth of cotton throughout the central and eastern portions of the cotton belt, but the general condition of the crop is promising, the least favorable reports coming from Carolina. Over the western districts, outside of Texas, the unfavorable effects of low temperatures have been less marked. In Texas favorable temperature prevailed and the crop continues in excellent condition, but in Oklahoma and Kansas cotton is suffering from lack of cultivation.

Tobacco transplanting has progressed fairly well in the Ohio valley and middle Atlantic states. Plants are scarce in eastern and central Kentucky; insects are causing injury in Kentucky, Virginia and North Carolina, and in the last named state the crop is suffering from drought.

Fruit Injured by Frosts. Frosts of the 29th probably injured fruit in the northern portion of the middle Atlantic states, but reports in general respecting fruit are not favorable. In the middle Atlantic states and upper Ohio valley grass made slow growth, but throughout the central valleys, lake region and New England a general improvement is reported.

JAHNKE GUILTY OF MURDER. Jury Out One Hundred and Fifty-Three Hours Before Reaching an Agreement. ALLIANCE, Neb., June 3.—(Special Telegram)—In the case of the State of Nebraska against August Jahnke, charged with murder in the first degree for the killing of Michael Bierk on April 18, the jury at 8 o'clock tonight rendered a verdict of guilty with life imprisonment. The jury had been out 153 hours. Jahnke took the announcement very coolly, but showed great nervous strain.

District Court at Plattsmouth. PLATTSMOUTH, Neb., June 3.—(Special Telegram)—The case of Thomas F. Keckler against Eliza J. Keckler, in which an application for a modification of a decree of divorce which was granted some time since, was tried and submitted. In the opinion of the court, entitled Edie Adelle Surface against Amos McNamee, the defendant entered a plea of guilty and was ordered to pay the sum of \$400 for the maintenance, care and support of the child, Mary R. McIntire was granted a divorce from James McIntire and her maiden name restored. The divorce was granted to Margaret Line and David Line was dismissed as plaintiff's costs.

Plenty of Rain in May. BEATRICE, Neb., June 3.—(Special Telegram)—After the driest spring on record in this section, with only 2.8 inches of rainfall from January 1 to April 30, May comes to the front with a rainfall of 4.47 inches. This has been exceeded once, in May, 1896, when 9.22 inches of water fell. The ground is in excellent condition in this section and prospects were never brighter for good crops at this season of the year.

Insurance Companies Consolidate. FREMONT, Neb., June 3.—(Special Telegram)—The Fremont Mutual Fire Insurance company of this city has consolidated with the Nebraska Mutual of Lincoln, which assumes all its risks and will pay all losses as they may occur. The Fremont company had a paying business, but following the general tendency of the times decided to consolidate.

Winner Will Celebrate. WINNER, Neb., June 3.—(Special Telegram)—The citizens of Winner have decided to have a Fourth of July celebration and will seek to make it the best ever held here. The committee on finance reports that it has already \$500 in sight for amusements.
