ALLOWAY POUNDED PLENTY BY VISITORS

ast Game of Series Goes to Kanana City by Wide Margin Owing to Difference in Batting.

The pitching of Gibson was sufficient to lose for Omaha the jast game with Kansas City by a score of 7 to 1, before 2,000 these two contestants for top onors have broken even on the series here, after one of the most memorable of base ball struggles, and as the visitors leave the city the two teams stand in the asime relative position they held when the Cowboys came has Saturday—Kansas City a little abead. Gibson's pitching of yeaterday was of a character that the boys will not find themselves confronting in weeks again. Graham, Calhoun, Stewart, Genins, Thomas, all went down before the black-haired twirler without a hit, and same relative position they held when the the entire team only made two, one a measly acratch by Hickey. Stone took one clean one. Then the team was shattered as to composition and distribution. Genine was at short again. Thomas still in right field, Graham in middle, with Carter and Dolan out of the game. Hickey made a grand stop of Kemmer's grounder

in the fifth, the only fielding feature. In the first, seventh and eighth, Alloway let the Cowboys to him freely, and with the aid of some errors six runs were batted in then. In the ninth came another without a hit.

Umpire Letham got mixed up again in the very first inning and as a result Pitcher Weimer was ejected from the grounds by policemen. Weimer was coaching when there was no man on base, Kansas City having just gone to bat. Arlie ordered him back to the bench, and when Weimer took him by the neck instead of going. Latham beckoned to a policeman. One emerged from the gate onto the field, and after him they kept coming, till six were on hand. They took Weimer off Arlie and when big First Baseman Kemmer tried to "butt in" he found several "cops" escorting him forcibly to one side. Arlie showed good nerve then, but more bad judgment during the game.

There is no game today in the Western league, but Thursday St. Joseph begins its series here. Friday is ladies' day. Eddie Gordon, the collegian, will join the team Thursday, and if he is in the good condition he says, the Saints will be given a leave. The score:

>
> The protest entered by the New York team against the games played in Chicago May 7 and 8 was allowed by the executive committee. Which ordered the games thrown out. The committee decided to have these games played over. The protest was entered after it had been discovered that the pitcher's plate was not the required distance from the home plate. In its finding the executive committee exonerated the Chicago club officials from any wilful attempte at unfairness.

All the Lower Portion of the City is New Under Water.

Scores of Residences Have from One to Three Feet of Water in First Stories and Damage Will Be Very Heavy.

JOLIET, Ill., June 3 .- Joliet is in the grasp of the worst flood in its history. All the lower portion of the city is under water and it rumored that several lives were been lost.

The police have the names of Eddie Mc-Govern, Linzie McGenn and a little girl named Kennedy as drowned. Beveral families had narrow escapes and the police rescued many in bosts. Several houses and other buildings were

swept away in the floods. Jefferson and other principal streets are under water and business places are flooded, causing thousands of dollars of damage. The street car lines are all seriously

damaged and no cars are running. All trains are stalled, water being two feet deep over the railroad tracks. Severe washouts have occurred on the electric line between here and Chicago. Heavy rains, which continued all night, saused Hickory and Spring creeks to burst

their banks, and it is stated that the Hickory creek dam, east of the city, has partially collapsed, sending the flood of waters down in a torrent. Scores of homes have from one to three feet of water in the first stories.

Mayor Barr called a special meeting of the city council for this afternoon to take measures for the relief of the homeless. Scores of people were driven from their homes by the floods. The damage was more widespread than at first supposed, the estimated property damage reaching \$75,000 to \$100,006.

Factories and cellars all over the city are flooded. Many streets are ruined, the pavements being all washed away and bundreds of small buildings are wrecked. MALARIA Means bad air, and whether it Enemy to Health

of the country, or the filthy sewers and drain pipes of the cities and towns, its effect upon the human system is the same.

These atmospheric poisons are breathed into the lungs and taken up by the blood, and the foundation of some long, debilitating illness is laid. Chills and fever, chronic dyspepsia, torpid and enlarged liver, kidney troubles, jaundice and billiousness are frequently due to that invisible foe, Malaria. Noxious gases and unbealthy matter collect in the system because the liver and kidneys fail to act, and are poured into the blood current until it becomes so polluted and sluggish that the poisons literally break through the skin, and carbuncles, boils, abscesses, ulcers and various other eruptions of an indolent character appear, depleting the system, and threatening life itself.

The germs and poisons that so oppress and weaken the body and destroy the life-giving properties of the blood, rendering it weak and watery, must be overcome and carried out of the system before the patient can hope to get rid of Malaria and its effects.

S. S. S. does this and quickly produces an entire change in the blood, reaching every organ and stimu-lating them to vigorous, healthy action, S. S. lating them to vigorous, healthy action. S. S. MOVE BEFORE IT IS HOT.

It is anything but pleasant to have a hot office in which to work during July August. The time to remedy this is now.

There is no building in Omaha so well constructed with reference to the comfort of its tenants in all kinds of weather as The Bee Building. The court, with its fountain is not only a source of delight to the eye, but furnishes perfect ventilation and the thick walls and southeast exposure make it an ideal summer office building There are not many vacant rooms in the building, but the movement in and out of the building has left a few of the very choicest rooms at your disposal.
