FLAG DAY PROCLAMATION

Governor Calls for Observance of Anniversary on June Fourteen.

CHALLENGES NEBRASKA HOME COMPANY

Attorney General Files Brief Alleging the Company is Issuing Contracts in Violation of Nebraska Law.

(From a Staff Correspondent.) LINCOLN, June 5.—(Special.)—Governor Savage this afternoon issued the following proclamation, designating June 14 as Flag day:

In accordance with a precedent set by me one year ago, and in pursuance of custom that is becoming established among the states of the Union, I, Ezra P. Savage, governor of the state of Nebraska, do hereby proclaim Saturday, June 14, 1902, Flag day, and I do respectfully recommend that the day be observed by all patriotic citizens in such manner as shall in their judgment best promote the object to be attained.

The foregoing date is the 125th anniversary of the birth of our national emblem. Let this day be a day of patriotic exercises and good cheer on the part of all. We may look upon our flag with respect and reverence as a symbol of freedom, of peace, of justice. It represents more power, more charity, more Christianity, more patriotism, more chivalry and more of the noble instincts of mankind than the flag of any other nation. It is the symbol of our national honor. It bears no mark of broken faith. Whether in closer sympathy with the sunshine of peace, whether at home or abroad, it is on a mission of mercy and good cheer on the part of all.

It is not so much that they should respect throughout the world because it is the embodiment of virtue and because it is a guaranty of good faith everywhere and at all times.

Patriotic exercises of the character contemplated are intended to bring the American people, particularly those of the rising generation, in closer sympathy with a clearer understanding of the real significance of the emblem of the nation.

It is not so much that they should respect their emblem of sovereignty as that they shall have a clear understanding of what it represents. To this end I earnestly request that the day be observed in a proper manner by the children of the schools and by patriotic citizens generally.

Home Company in Court.

Attorney General Prouit this afternoon filed an extensive brief in the supreme court in the action pending to annul the corporate existence of the Nebraska Home company, an Omaha institution. The attorney general insists that this company is issuing an illegal investment policy. He says: "The abuses of which complaint is made consist in soliciting, selling and executing unlawful contracts for the ostensible purpose of assisting the purchasers thereof in procuring homes. The contract set out in the petition is a copy of one submitted by the defendant to the State Board of Banking for the purpose of obtaining a ruling that the company was not within the jurisdiction of that tribunal."

Secretary Dobson of the State Board of Irrigation returned today from a trip along the irrigation sections of the Platte and Niobrara rivers. He says the supply of water in these rivers is about normal for this season of the year. In many places, however, the demand far exceeds the supply. This is because many of the appropriators take more than their share of the water. Mr. Dobson is in favor of allowing one appropriator on a ditch to use all of the water for a time, his right to be relinquished to the next appropriator after a stipulated period, and so on down the stream until the last appropriator shall have had the benefit of the full flow of water. There is no law or rule, however, under which distribution may be compelled in this way.

Heavy Rainfall in Lincoln.

One of the heaviest rains of the season fell here this morning, beginning at 2:30 and continuing for two hours. There have been numerous showers during the day, bringing the total precipitation up to two inches. Some hail fell, but there was not enough of it to do any damage. Reports received here indicate that Lincoln was the center of the storm. There were showers along the Burlington railroad line west and throughout the southeastern section of the state, but so far as known the fall was heavier in Lincoln than in any other place.
