Weather Conditions Perform Important Role in the Grain Pits.

SPECULATION ACTIVE AND ERRATIC

Wheat Loses Early Advance, While Other Cereals Exhibit Gains-Packers on Selling Side of Provisions and Prices Tumble.

CHICAGO, June 5—Grain speculation was fairly scitve today, but of an erratic nature. For a time it seemed that the bearish campaign of the last, week had come to an end and that help was coming from the weather conditions, which, instead of being fine, were too wet southwest for the early harvests. Wheat had a good advance, but lost it all. The wet weather, however, helped corn. In the end July wheat lost \$8c, July corn gained \$4c and July oats gained \$4c. Provisions closed 2½ (50c to 12½-675c) lower.

As a result of the excessive rains southwest over a large portion of the winter wheat country commission houses had good buying orders at the opening. There was still out a good-slaed shouther the winter wheat country commission houses had good buying orders at the opening. There was still out a good-slaed shouther the pit. These influences had good supported the pit. These influences had reported the pit. These influences had reported the pit. These influences fair deliveries and bear shade lower to \$40\frac{1}{2}\text{c}\$ higher at \$11\frac{1}{2}\text{c}\$ (1)\text{c}\$ and after some wavering touched \$72\text{c}\$. The wet weather was working against improvement in the spring country, but, despite this influence and the good show of corn strength, the early buyers were satisfied with small profits. There seemed to be no faith on the buil side after the early builes and general liquidation brought a sharp deciline for July down to \$14\text{c}\$. There was a partial recovery toward the end of the session, out July closed weak, \$6c down at \$12\text{c}\$, against \$24\$ last week, and 38s a year ago. Primary receipts were \$3.00 bushels. The secundary the feature was the switching from July to September by the big buil leaders. Whichever way this interest leads the crowd seems to follow. At 4c or under December options seemed very cheap and the price unnatural in the light of buillish operations in other deliveries. This was an inducement to buy and December shot up to 44\text{c}\$. July soid up to \$6.\text{c}\$, and when t

too abundant rains in the southwest, and also to the failing back in the figures of receipts of corn.

The late reaction in the grain markets after early strength d.d not change the weak tone of the grainers. Chicago & Northwestern was marked up 2 points on the announcement of the long-heraided extra dividend on the stack, but half of the gain was lost. Hocking Valley reflected disappointment over the declaration of only the former divided at rate. The large profit-taking in Canad un Pacific at a total reaction of 4 points laid a sympathetic effect on the whole latt. Amaigamated Copper was dropped by the weakness of the market for raw copper and was not affected by a trade circular pointing out great improvement in the trade. The continued rise in sterling exchange gave rise to some apprehension that change had started toward the gold expert point, owing to the tone of the money market. The combined effect of various items of depression was a dribble of realiting all day, which carried prices downward until the close, which was easy at the lowest.

Active liquidation of the Central of Georgia income bonds had a depressing effect on the bond market. Total sales, par value, 25,90,000. United States bonds were all unchanged on the last call.

Coffee Murket.

NEW YORK Jur. 5.—COFFEE—Spot, Rio. steady; No. 7 invoice, 5%c. Mild. quiet; Cordova, 881112. The coffee market opened steady and un thanged with trade unusually quiet. The r. om contingent saw nothing in the foreign market news to inspire new ventures on either side and commission houses were almost destitute of business. A few foreign buving orders came to hand late in the session, but at best the market was a na row, uneventful affair. Large receipts in the crop country and further shipments from Brasil to the United States offset in effect the decrease in the world's visible, supply of 8,183 bags. The market closed quiet and net unchanged to 5 points higher. Total sales were but 12,750 bags, including July at 4,90c; September, 5,10c; October, 5,15% 5,20c; December at 5,30@5.25c; March at 5,50c.

NEW YORK, June 5.—EVAPORATED APPLES—Continued fairly firm on spot with stocks limited. Business both for export and jobbing trade was quiet. State, common to good, 765%; prime, 94,600c; choice, 104,600%; fancy, 12c.

CALIFORNIA DRIED FRUITS—The market for spot prunes was firmer owing to active export demand and the limited supplies in holders' hands. The general list shows an advancing tendency. Jobbing demand only moderate. Apricots in some export demand and steady. Penches moving fairly well in jobbing way. Prunes, 34,60 5%; apricots, boxes, 104,614c; sunpeeled, 5%, 61104c.

CATTLE—There was not a heavy run of cattle at this point, but there was a large supply in Chicago. Packers here started in from the beginning to pound the market and as a result it was late before the burk of the offerings was disposed of.

Beef steers again made up the wig end of the receipts and the market down the way very show an attempt to the command they have been paying too much for their cattle here as compared with Chicago, and they made an attempt to get this market down in line. On the start their bids were a good deal lower than yesterday, but they finally raised their hands and the bulk of the cattle sold from nearly steady to fully a dime lower. The best handy weight cattle in a good many cases did not seem to be much for any thing the cown sold without much trouble at what lower, but of the cown sold without much trouble at what looked to be steady prices, but on the grass ytuff the market was slow and weak. Packers do not seem to want that looked to be steady prices, but on the grass ytuff the market was slow and will only buy wall looked to be steady prices, but on the grass ytuff the market was slow and will only buy at looked to be steady prices, but on the wash of the cown prices. Western Union Telegraph Company against Church. Error from Jefferson. Affirmed. Kirkpatrick, C. Division No. 1. Unreported.

1. An objection to an entire question put to a witness calling for testimony part of which is admissible and part inadmissible is properly overruide and error cannot be predicated on such ruling.

2. Objections to the admission of evidence made at the trial, but not argued or mentioned in briefs filed in this court, will not be considered.

3. The testimony of a medical expert is not objectionable as being conjectural and speculative because it gives the opinion of such expert as to the probability of a physician's accomplishing a certain result in a given time if he had been in attendance upon a woman in confinement.

4. It is the duty of one objecting to a question asked a witness to state the grounds upon which he relies for the exclusion of the preferred testimony, so that the trial court may rule with such criticism in mind; and an objection based upon ground not disclosed at the time such objection is made will be disregarded on appeal.

5. An objection to the form of a hypothetical question asked of a medical expert on the ground that it permitted the witness to consider the subjective conditions in giving his opinion should be made at the trial or it will be unavailing.

6. The following telegram was delivered to a telegraph company for transmission to a physician: "Come at once to — "I tappeared that the professional character of the addressee was well known to the agents of the company at both the sending and receiving offices. Held, sufficient to charge the company at both the sending and receiving offices. Held, sufficient to charge the company to delivery.

7. In an action against a telegraph company for negligent failure to deliver a message aumoning a physician to attend a woman in confinement, in consequences of such delay the physician does not arrive until after his services

after his services are no longer required; substantial damages may be recovered for any increased physical and mental suffering caused to the mother by reason of the physician's absence.

9. Where by reason of the delay in delivering such message the labor of a woman in confinement is unduly prolonged a verdict for \$850 as damages for the additional suffering in hely and mind on ac-

a verdict for \$950 as damages for the additional suffering in body and mind on account of the physician's failure to attend is not so excessive as to be presumptively the result of passion and prejudice.

1361. Kershaw against Barrett. Error from Johnson. Affirmed. Day, C. Division No. I. Unreported.

1. In an action against a married woman on a note executed by her as surety for another, coverture is a complete defense, unless it be shown that such note was made with the intention on her part of binding her separate estate for its payment. Smith v. Bond, 56 Neb., 529, followed.

2. Evidence examined and held to support the findings and judgment of the trial

Where it appears that a piece of property had been listed with a real estate broker as a whole, and his sole authority is to negotiate a sale as a whole, and his negotiations to so sell it to a particular customer have been broken off, a subsequent sale some months later of a portion only of the property by the owner to the purchaser with whom the brokers negotiations were had, but independently, will not entitle the broker to a commission.
