MANY DESTRUCTIVE STORMS

Eleven Inches of Water Falls at Cortland, Neb., in a Few Hours.

OWA AND DAKOTA GET THEIR SHARES

Crops Damaged, Railroad Tracks and Bridges Washed Out and Trains Are Delayed for Many Hours.

(Continued from First Page.)

storm fell and broke windows in the residence and business parts, although more damage was done in the former, as the storm came from the north.

Within four hours the storm was over the greater portion of the water down town was carried off by the sewer and the water is slowly receding in other parts of the city.

The greater share of the water which fell in the cloudburst in this vicinity this morning has disappeared from the streets down town, although no attempt has been made to remove the water from the basements and in the greater majority of cases it will have to be pumped out by hand.

It has been practically impossible to secure anything definite as to losses entailed by the business men who had goods stored in the basements. Losses in this direction will run from \$100 to \$500.

No lives were lost during the storm, although it was reported that a farmer, one mile east of town was killed by lightning. He was badly injured from the shock.

Not near so many windows were broken by the hail that accompanied the rain as the outbreak was supposed would be the case. Reports from the country within a radius of ten miles of Mitchell show that crops have not been injured in the least. Good rains are reported from all parts of the country, but they were not accompanied by an hail or sleet.

Storm seemed to center on Mitchell and about two miles in each direction. Vivid flashes of lightning and great booms of thunder occurred all during the storm.

FYNDALL, S. D., June 6.—(Special.)—Fine showers fell here this evening Wednesday night. The crop prospects are bright.

COFFEYVILLE, Kan., June 6.—One of the heaviest rains ever experienced here fell this afternoon. Water filled the streets until they resembled lakes. Cellars and basements were flooded and other damage was done.

The Vedviga river has been high for a week, but the rain yesterday and today have already put it out of its banks and great damage is being done to the wheat.

Nice Shower at Shelton.

SHELTON, Neb., June 6.—(Special.)—A splendid rain fell here last night. Three-quarters of an inch of water came down. The ground was getting quite dry on top and this moisture will complete the filling of all fall grain and insure the best yield and quality this section of Nebraska has ever had. Harvesting will commence in about two or three weeks. The first crop of alfalfa is being cut and many fields are cutting as much as two and a half tons per acre.

ST. PAUL, Neb., June 6.—(Special.)—A fine rain, amounting to 1.05 inches, fell here Thursday morning and all are pleased with the splendid crop prospects.

WAHOO, Neb., June 6.—(Special.)—A fine rain visited this vicinity last night, about 1.50 inches of rain having fallen. The rain was much needed and will insure a very large crop of small grain in this county. The corn is in as good condition as at any time in the history of the county.

KEARNEY, Neb., June 6.—(Special Telegram.)—About 25 inches of rain fell in this locality last night. The amount of insurance doubly sure on the small grain crop, and corn is already coming to the front.

KEEPEE, Neb., June 6.—(Special.)—During the last twelve hours about two inches of water fell here. The small grain crop has been washed considerable and the potato crop, which needed moisture, is now assured. Nearly all farmers report a splendid stand of corn.

BANCROFT, Neb., June 6.—(Special.)—The continued downpour of the last month was broken at 4 o'clock Thursday morning by a steady downpour, which continued most of the forenoon. This is the first rain since April and was most timely for pastures and small grain, which were beginning to show the effects of the hot, dry weather. Corn is an excellent stand and the fields were never in a better condition.

OSCEOLA, Neb., June 6.—(Special.)—Pork county received a four-inch rain last night and people are rejoicing over this boon to potatoes and other crops.

HARVARD, Neb., June 6.—(Special.)—The amount of rainfall since yesterday morning, as reported by Observer Fleming, is 1.81 inches. Every condition seems favorable for a good yield of wheat and spring-sown small grain, while corn is getting a fine start.

Fear Overflow of Nemaha.

ELK CREEK, Neb., June 6.—(Special.)—During the heavy rain that fell at this place last night, 200 or 300 barrels of water ran into the cellar and into the building, doing considerable damage to the walls. The rain was a very heavy one and as it was still heavier north of here it is feared that the Nemaha river will come out of its banks. It is running at least half full at present and rising rapidly.

ST. PAUL, Neb., June 6.—(Special.)—The heaviest rainfall observed here for years—commenced last evening about 8 o'clock—preceded by dark heavy clouds, thunder and lightning. During the evening and night the fall of water was about three inches of which fell between 8 and 9 o'clock, flooding the streets and many cellars. The rain was accompanied by some hail, but not enough to do damage here. It is reported this morning that several bridges over creeks in the county are out. The rainfall yesterday forenoon makes a record of 4.88 inches for the last twenty-four hours.

CENTRAL CITY, Neb., June 6.—(Special.)—Water to the depth of 3.82 inches fell in Merrick county the last twenty-four hours. The yield of grain is expected to be a record-breaker.

HUMBOLDT, Neb., June 6.—(Special.)—This section was visited during last night with a drenching rain estimated at nearly four inches. The downpour was accompanied by a brilliant electrical display, but as there was no wind no damage is reported to growing crops. The Nemaha river is almost bankfull from the recent rains and the indications are for further precipitation. Farmers along the valley are worrying for fear the stream may overflow, which would mean much damage to crops along the lowland. The wheat so far is looking fine and with seasonable weather for a few weeks more the yield will be almost up to that of last year.

ALBION, Neb., June 6.—(Special.)—An other good rain fell upon the crops of Thayer county last night. They were not really suffering for rain, however, but this shower will strengthen them and adds fresh hopes to the farmers.

OSCEOLA, Neb., June 6.—(Special Telegram.)—During a heavy rain and thunder shower last night the barn of Neils Jansen, just east of town, was struck by lightning and totally destroyed, together with his cow-

Industrial Mission Work.

CLINTON SPRING, N. Y., June 6.—Today's session of the International Missionary union was occupied with addresses and discussions on "Industrial Mission Work."

Revives Old Trust Bill

WASHINGTON, June 6.—Representative Richardson Prentiss, the democratic floor leader, today introduced the bill reviving the trust bill which passed the house in the Fifty-third congress and failed in the senate. It amends the Sherman act by making more stringent restrictions against contracts and combinations in restraint of trade and giving the government the right of action to any one injured in business by such a combination, forbids the use of the mails in furtherance of the business of a combine and provides for prosecuting those who ship trust-made goods from state to state.

It is understood that the reintroduction of the bill is in pursuance of the recent action of the democratic congressional committee in naming a special committee of seven members to devise means for making the trust question one of the foremost issues in the coming campaign.

Chairman Payne of the ways and means committee said today he did not at present contemplate introducing a resolution for the adjournment of congress, as no definite ideas could be formed on the prospects for adjournment until the senate had determined its course on the Nicaragua canal and Cuban bills. At the same time he believed that business of congress would be shaped so as to permit an adjournment about July 1.

Buenavino Proposes a Plan.

WASHINGTON, June 6.—Secretary Root has received an unique and interesting letter from Felipe Buenavino, the Filipino who has just presented his testimony before the house committee on insular affairs. He is understood to have written the Filipino statesman summarizes the urgent needs in the Philippines, as developed by him before the committee, and then proceeds to outline a future. This includes the sending of Filipino students to the United States, the United States believes will be of assistance to his people and an individual propaganda to correct American misconceptions of the Philippine situation. Incidentally the writer accounts some small matters of complaint, principally as to house rentals, which he desires corrected.

Military Surgeons to Incorporate.

WASHINGTON, June 6.—At today's session of the Association of Military Surgeons of the United States a committee was appointed to confer with the judiciary committee of congress as to the best procedure for incorporation of the association. Specific action of congress is necessitated by the fact that all of the members are in government employment. Lieutenant Colonel Valery Havard read his prize thesis on "The Most Practical Organization of the United States Medical Department, U. S. A., in Active Service." Most of the delegates spent the afternoon in an excursion down the river on the government vessel Dolphin.

DURING SUMMER MONTHS Dr. Hartman Gives Free Advice to Suffering Women.

MISS LIZZIE SNEATHING Mrs. Alex. Johnson

Dr. Hartman, the Famous Gynaecologist and Inventor of Per-na Offers to Treat Women Free During the Summer Months.

America is the land of nervous women. The great majority of nervous women are so because they are suffering from some form of female disease. By far the greatest number of female troubles are caused by catarrh. Women afflicted with pelvic catarrh despair of recovery. Female trouble is so common, so prevalent, that they accept it as almost inevitable. The great obstacle in the way of recovery is that they do not understand that it is catarrh which is the source of their illness. In female complaint, ninety-nine cases out of one hundred are nothing but catarrh. Peruna cures catarrh wherever located. The following letter was recently received: 158 W. 38th st., New York City. The Peruna Medicine Co., Columbus, O. Gentlemen:—What bread and meat means to the hungry Peruna means to the sick. It is an especially valuable medicine for sick women. I have found that no medicine so quickly restores health and places the body in a normal condition. I but voice the sentiments of women who were once sick, but are now in perfect health. "MISS LIZZIE SNEATHING." All women who are in doubt as to what their trouble is should write Dr. Hartman, Columbus, Ohio. Give him a full description of your trouble, previous treatment, symptoms and age. He will promptly reply with full directions for treatment free of charge. This is an opportunity which no woman should miss. Dr. Hartman has become renowned through his success in treating women's diseases. His experience in these matters is vast. Correspondence is strictly confidential. No testimonials published without written consent. Dr. Hartman relies principally upon Peruna in these cases. Peruna cures catarrh wherever located. Mrs. Alex. Johnson, 256 University avenue, Kingston, Ontario, Can., writes: "I have been a sufferer for years with bearing down pains and backache, and got no relief from doctor's prescriptions. I commenced taking Peruna and after taking the first bottle I felt much better and within a month I was a well woman, and heartily recommend it to any woman who is in as poor health as I was. "MRS. A. JOHNSON. Miss Mabel Meyers, Argentine, Kansas, collector of the Kansas Temperance Union writes: "Peruna has proved a friend to me for it cured me when I was sick and the least I can do in return is to acknowledge its value to the public. Since I was 17 years old I have suffered with headache, backache and pains in the shoulder blades. I caught cold easily and my lungs were weak. Catarrh of the lungs was what the doctors called my trouble. I took their medicine for eighteen months without any benefit and hearing about Peruna I decided to try it. I used nine bottles and was restored to health. This was two years ago, and I am now in perfect health." If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be glad to give you his valuable advice gratis. Address Dr. Hartman, President of the Hartman Sanitarium, Columbus, O.

MOVE BEFORE IT IS HOT.

It is anything but pleasant to have a hot office in which to work during July and August. The time to remedy this is now. There is no building in Omaha so well constructed with reference to the comfort of its tenants in all kinds of weather as The Bee Building. The court, with its fountain is not only a source of delight to the eye, but furnishes perfect ventilation and the thick wall and southeast exposure make it an ideal summer office building. There are not many vacant rooms in the building but the movement in and out of the building has left a few of the very choicest rooms at your disposal.

List of vacant rooms in The Bee Building

- Ground Floor. ROOM 11: 12x15 feet. Faces Seventeenth street and has windows along the alley. This is a large, light room, a full rental price includes heat, light, water and janitor service. It has an entrance both on The Bee Building Court and Seventeenth street. Price \$65.00. First Floor. SUITE 101: There is no finer office suite in Omaha than this one. It is located just on the right hand side of the great marble staircase, and has unusually large windows looking upon the front entrance way of the building and out on the building has left a few of the very choicest rooms at your disposal. Price \$75.00. ROOM 104: This room is just at the head of the main stairway on the first floor. It would be a very desirable office for some real estate man or contractor. The floor space is 12x15 feet. Price \$70.00. Third Floor. ROOM 305: This room is 12x15 feet and is very conveniently located near the elevator. A fine view of the city can be seen from the office. Price \$15.00. ROOM 338: This room is 12x15 feet and will be divided to suit the tenant. This room is particularly adapted for some concern needing large floor space and is a decidedly handsome office, having an entrance facing the court and windows looking out upon Seventeenth street. It has a very burglar-proof vault, marble mantle-piece, hardwood floors, and will be freestone to suit tenant. Price \$25.00. Fourth Floor. SUITE 514: This is a very large room, 12x15 feet. It faces west, but is very light and well ventilated. It is very seldom that space of this size is offered in Omaha. The room can be used to advantage by some firm employing a large number of clerks, or requiring large floor space—a wholesale jeweler, or manufacturer's agent, who would like to be in a burglar-proof building, or it will be divided to suit the tenant. Price \$25.00. ROOM 521: This room faces the court and is 12x15 feet. It has a burglar-proof vault, and as it is near the telephone office and on the same floor with a number of grain firms, it would be a particularly good room for a grain firm desiring first-class accommodation. Price \$20.00. Sixth Floor. SUITE 610: This consists of two-rooms, both 12x15 feet. Each of them has a large burglar-proof vault, and has been newly decorated and are rooms in which a business or professional man may be comfortably located. Price for the two \$35.00.
