bi goods is considered good evidence of the fact that people have money and are not afraid to spend it. The rains of last week, which visited a large part of the territory tributary to this market, made every one more confident than ever re-garding future business, so that prepara-tions for fall and winter trade will be pushed even more vigorously than in the past. Taking everything into considera-tion, wholesalers say that more favorable conditions could not well be imagined than those existing at the present time. Unless something happens to change the situation it is predicted that the amount of goods shipped from Ornaha this fail will be far in excess of last year or of any other year.

be far in excess of last year or of any other year. Bo far as the markets are concerned there have been only a few important changes during the week under review. The same fitmeess on practically all lines that has been ruling for some time past is till noticeable and it may be safely said that the general tendency of values is up-ward rather than downward. The demand in a great many cases is in excess of the upply and as long as that is the case trong markets must be experience. Cliections are also reported as being in twas, of course, all fills slow early in the spring, but now business in the country is rushing, so that dealers are able to meet their bills with considerable promptness.

Sugar Advanced Five Points.

Buss with consuderable prompthess.
 Sugar Advanced Five Points.
 Wholesale gracers report business for last week as being exceptionally heavy and in fact some of them say it was the busies to bus the busies to continues in a good, healthy condition and a few lines have been advanced. The sugar to date. The market is quoted very strong and active of neavy consumption, higher prices are predicted on all lines in the near future. Cablegrams were received last week by hock houses from Japan and China to the neavy frost in Japan during the month of April damaged the crop 30 per cent higher than it did as a result teas are now costing in Japan and China to the neavy frost in Japan during the month of April damaged the crop 30 per cent higher than it did as a result teas are now costing in Japan and China to the neavy frost in Japan during the month of April damaged the crop 30 per cent higher than it did a sea a result teas are now costing in Japan and China to the arket opened 30 per cent higher than it did a wee advanced from 10c to 20c per case. The increased make. Factories are now following prices: Iron, county mixed, per bayes are to work full time and as pasture in output prices in the near future and eavened from 10c to 20c per case. The increased make. Factories are now following prices: Iron, county mixed, per the integrate and contegrate in excellent condition all over the poling predicted.
 Chewing Grain and Provisions.

Importance is an advance in catment amounting to Sc per barrel and cases have advanced from 10c to 30c per case.
 Checke took a drop last week, owing to the increased make. Factories are now able to work full time and as pastures are in excellent condition all over the country lower prices in the near future are being predicted.
 Owing to the short supply, evaporated apples are quoted a little higher than they were a week ago. Frunes are fails overy firm and especially is that true of the larger sizes, which are said to be well cleaned up on the coast.
 There has been no particular change in connatoes are constantly firming up and stocks are now exceedingly light.
 Other staple lines handled by Omaha jobbers are selling in about the same notches they were a week ago.

Dry Goods Active and Steady.
Dry Goods Active and Steady.
There has been no change in the ruling quotations on staple dry goods during the past week. Manufacturers, however, claim that they are well sold upon both cotton and woolen goods for fail. Omaha jobbers as y they have good reason for believing that such is the case, owing to the difficulty they are having in placing orders for winter stuff. Not only are manufacturers in the east experiencing a good demand, but Omaha jobbers as well are doing a rushing but solves to all lines, including finanels, both cotton and wool, domets, blankets, underwear, hosiery, duck lined goods, clouks and dress goods. In fact it is claimed that orders are twice as arge and more numerous than ever before. The cloak trade is fast coming to the season as were sold all last year. Every one seems to be figuring that future business is going to continue far in excess of last year, owing to the exceptionally fine outlook for bountiful crong.
Turrent business is also is every satisfactory proportions. Sales last week howed a big improvement over the previous three weeks and a large number of buyers arrived on the market. They all addition of trade in the country and said trats.
No Change in Hardware. Dry Goods Active and Stendy.

No Change in Hardware.

No Change in Hardware. There have been no new developments in the hardware market since last report brides on all lines are good and firm, but there, have been no quotable changes worth's of mention. The demand is hold inswomble goods shape for all classes of business being transacted is considerably in excess of the same time of last year. There does not seem to be any particular feature to the trade, but simply a good, he domand all along the line. There exists a bliders' material. Everything at present points to a continued heavy more fail goods than ever before. Shoe Men Well Pleased.

Shoe Men Well Pleased.

Shoe Men Weil Pleased.
Leather goods men also have a good wind to say regarding the condition of trade. Their traveling men are meeting with great success in landing fail orders, each week jobbers notice a big gain over the corresponding week of last year in the ecorresponding week of last year in the senson refused to place their place of goods sold.
