FREE LAND WILL BE DRAWN WANTS NEW ENGINE HOUSE

Se Says Editor from Bonesteel of Rosebud Agency Opening.

DRAWING WILL OCCUR IN SEPTEMBER

Extension of Elkhorn Road Which Taps Territory to Be Settled, Will Be Finished in Time for Opening.

Laying the steel on the Verdigris extension of the Fremont, Elkhorn & Missouri Valley railroad began Monday morning at the Verdigris end. The tract of agency land in Gregory county, South Dakota, at the terminus of this new line, will not be opened by the government for homesteads till the Elkhorn has its line completed to Bonesteel and is ready to carry the passenger business connected with the rush. The section to be opened aggregates 416,000 acres, or 2,600 free homes of 160 acres each. The chance system will be used, and Bonesteel will be the location of the drawing. The Elkhorn road expects to make \$1,000,-000 out of this opening, enough to cover half the expense of its new extension from Verdigris to the scene. As near as can be said at present the opening will be on September 22, or within a few days of that time. The Elkhorn expects to be in completed condition for service shortly after September 1. Three new towns are now building in Boyd county, Neb., as a result of the new line being located on it.

These ten new facts were gathered Monday morning from D. W. Forbes of Bonesteel editor of the Gregory County Pilot and of the Homesteader's Guide. Mr. Forbes arrived in Omaha from his home and was in conference with Elkhorn officials much of the day. He is intimately familiar with the situation in Gregory county, and with the status at Washington of the plan to open the portion of the Rosebud reservation.

"Everything waits on the new railroad. said Mr. Forbes. "As soon as that is finished the drawing will come off. It will certainly be in September, probably September 22.

Boom in Two Counties.

"You cannot imagine what a great effect this prospect of a new road and thousands of new inhabitants and neighbors has had upon both Gregory and Boyd counties. In Boyl county three new towns are being built. The first one west of Niobrara is Monowi, six and a half miles east of Lynch Next comes Bristow, between Lynch and Spencer. Then there is Anoka, two and a half miles north of Butte. This is the new station required because the new line could not get into Butte owing to its elevation. That gives a town in every township from Niobrara clear to Bonesteel, the terminus,

"Further illustration of the spur to upbuilding which this line has been may be found in Bonesteel itself more strongly than anywhere else. As soon as it was decided to end the line there building began. The result is that 200 buildings have been erected in the last two months, and that ago we have 600 now.

"The Elkhorn has now bought its terminal grounds there, twenty-six acres, for which the road paid \$100 an acre. Its grading is completed for forty-seven miles of the sixty-nine and the track laying, which began this morning, will be carried on at the rate of a mile a day. So it is plain that the line itself will be finished before September. What will delay some is the bridge across the Niobrara, but that will be built as fast as a bridge can be. The road has doubled up its force and now has all of 600 men working on the extension."

The Popularity

Of the name Budwelser is such as to inferior brands. The U. S. courts have accorded that name exclusively to the Anheuser-Busch Budweiser brand. Orders promptly filled by Geo. Krug, manager Auuser-Busch branch, Omaha.

Commercial Club Executive Committee Makes Request of City Council.

Insurance was the subject for consideration by the executive committee of the emmercial club yesterday afternoon and the best way in which to secure the reduction in the rate by the construction of the proposed fire department quarters in the jobbing district was the principal feature

The insurance committee had a resolution, which was adopted by the members of the executive committee calling attention to the fact that the mayor and city council had agreed to the construction of the building and to maintain therein a fire fighting company and calling upon the city to redeem the promise made as soon as possible. After the adoption of the resolution a committee was appointed to visit the meeting of the council in committee of the whole yesterday afternoon for the purpose of bringing the matter before that body. It was decided to have a resolution embodying the desires of the committee prepared and introduced in the council Tuesday evening for the purpose of securing definite action upon the matter so that it could be known exactly what may be ex-

A communication was received from the Arbor Day Memorial committee at Nethe matter of raising funds in Omaha for a monument to be erected to the memory of J. Sterling Morton at Nebraska City. A ommittee of five with Euclid Martin as chairman was ordered to confer with the personal friends of the father of Arbor day as to the best means of raising the noney required from this city.

The coming excursion into the northern part of the state was discussed briefly, the secretary stating that by Tuesday he would be able to make a definite statement as to the route and time required.

BURLINGTON WILL BE FASTER

Arrangements Being Made to Meet New Time of Overland Route.

DETAILS OF THE PLAN NOT READY YET

First Trains of New Fast Northwestern-Union Pacific Service Pass Through Omaha Early Monday Morning.

The Burlington road will shortly inaugurate faster service between Chicago and Denver to meet the new record service of the Chicago & Northwestern and Unton Pacific rallways, begun Sunday. Since it was first learned that the Overland route would put on these trains the railroad world in the middle west has been eagerly watching to see what move this would call forth from the other four trunk lines to Omaha, and especially from the Burilngton and Rock Island as extending all the way from Chicago to Denver. These interested ones may now rest in assurance that the Burlington will come to the front with the expected counter, and very soon. Officials dictating the policy of the system have decided that the time shall be met, if not beaten, and it now remains only for the general passenger braska City, asking the club to take up agents to confer with operating officials regarding the details of the faster service. This meeting has not yet occurred, but will be held June 16. It is planned at pres-

ent to put on the new service about June 22. Since the officials in immediate charge of time cards and operation have not yet met, what this service will be cannot be said, whether new trains entire or a change of the schedule on old ones. It is thought, however, that any lightning train via the Burlington will not come through Omaha, as some little time can be saved by running from Pacific Junction to Plattamouth, and thence by the old main line to Ashland. In that event stub trains would be run down from Omaha to connect with the flyer both ways. It is also admitted that if the Burlington wished to add fuel to the speed war it could probably make the journey in twenty-four hours flat, thus cutting under the Northwestern-Union Pacific time two hours or more. That the Burlington will do this instead of merely meeting the time already set by its rivals it not as-

Northwestern Flyers Pass.

The first trains of the new fast Northwestern-Union Pacific service passed through Omaha yesterday. No. 11 left Chicago at 6:30 Sunday night, and reached here on time at 7 o'clock Monday morning. It carried into Omaha an Omaha sleeper, a Denver sleeper and a Colorado Springs sleeper, together with a buffet car and baggage equipment. The train was filled. Here the Omaha sleeper was dropped, and the Union Pacific put on the train a dining car and two chair cars for the daylight run to Denver. No. 12 was filled to overflowing when it

reached Omaha at 3:30 a. m. This train left Denver at 1 p. m. Sunday, a popular time of day, and all reservations were taken three days ahead. The equipment is similar to that of No. 11. There is a sleeper from Colorado Springs, one from Denver, both for Chicago, and one for Omaha from Denver. Then there is a buffet car. The Omaha sleeper is dropped here, and the Northwestern puts on two chair cars for the daylight run into Chicago. The train leaves here at 3:40 a. m. and reaches Chicago at 4 o'clock in the afternoon.

Transfer of Railroads.

It was learned yesterday that July 1 has been set as the date on which the actual management and control of the St. Joseph & Grand Island railroad by the Union Pacific railway and of the Kansas City & Omaha and the Quincy, Omaha and Kansas City oads by the Burlington will begin. The assumption of these respective properties by the two big lines has been for some weeks an admitted fact, but not till now over in all details been completed.

CHEAP EXCURSIONS.

Via Illinois Central Railroad.

The Illinois Central R. R. will sell round trip tickets, good for return until October 31, 1902, from Omaha to the following

Tickets at rates named in column (1) on sale June 1st to 15th inclusive; in column (2), June 16th to 30th inclusive.
